RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

(¶ asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶.")

American Railroad Journal.

Saturday, April 29, 1876.

Financial and Commercial Affairs.

With increasing receipts of legal tender notes and national bank currency from the interior, consequent upon the completion of the usual April settlements, the City Banks report a handsome gain in their legal tender averages, and the supply of money in private hands, seeking secure and profitable employment, has also been augmented, to the advantage of responsible borrowers—whose wants in most instances, far from having been of an urgent character—have been quite promptly met on the basis of 2@4 per cent on call, and 4@6 per cent per annum in the line of the best mercantile credits. The Secretary of the Treasury on Monday received bids for the $5,883,000 five per cent bonds of the funded loan of 1881, (Geneva award). The bids reached the remarkable aggregate of $68,800,000, or nearly twelve times the amount of the bonds offered. On Tuesday, announcement was made that the whole amount was taken for account of Messrs. Drexel, Morgan & Co., of London and New York, and Messrs. Rothschild, of London, and Belmont, of New York, at 103 78 7-16-100, gold. The Gold thus acquired by the Treasury Department on this special account was to have been turned into currency at the Treasury office in this City on Thursday, at noon, by sale to the highest bidders. The payments for the gold were to have been accommodated to the convenience of the takers at the rate of $1,000,000 per day, if required: or, as set forth in the official form: "Deliveries of the gold will be made as follows: $2,000,000 on the day of receiving the proposals if desired by the purchaser or purchasers, or such portion thereof as he or

they may wish. If not on that day, $2,000,000 on the following day, and $1,000,000 on each succeeding day until the whole amount is delivered." The currency receipts resulting from this special negotiation have been already disposed of, by Treasury warrants for the payment in currency of the judgment claims upon the Geneva award already confirmed to the amount of $6,500,000. The Treasury Deparment has been gradually disbursing the new silver coinage, in the moderate amounts, and on the conditions designated in the official circulars, already made generally known. The week has had its full share of sensational reports and rumors of troubles in the financial and commercial lines, but with no serious results to business interests. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4,165,000. The City Banks have had their deposits reduced $2,280,100; and their legal tender reserve increased $2,560,000. The specie average has been diminished $1,323,500. The loan and discount item was reduced $4,545,000. The circulation was cut down $7,100. The U. S. Sub Treasury in this city closed the week with a currency balance of $85,930,409 against $86,681,277 the preceding week; and a coin board of $46,696,019 against $48,878,187 on the previous return. The City bank exchanges in currency reached $380,621,313, or a daily average of $63,436,886. The customs revenue of the port during the week was $1,962,000. The City banks reported their average of gold last week at $18,077,300, and their greenback average at $41,396,800. Their deposits stood at $203,262,400. The loan item was $253,752,400. The circulation was $16,239,100.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $8,658,500, as against $6,851,975, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, April 1st was $413,877,104. The outstanding amount of legal tender notes is $370,755,248. The National bank circulation is now $337,635,219, including $2,099,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $5,036,322; special deposit of legal tenders for the redemption of certificates of deposit, $37,925,000; Coin, $76,642,147; Coin certificates, $28,594,300.

The week's import entries of Foreign Merchandise at New York were $6,954,749, including $1,219,663 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 92 millions; and from Customs, 125 millions.

Under the influence, mainly, of the Geneva award bond negotiation, Gold has been depressed in price, and has been less confidently dealt in on speculative account. The customs drain has been about an average one; while the export call for specie has been on a restricted scale, very slightly affecting the course of the market. The extremes of the price during the week have been 112⅛@113¼, closing on Wednesday at 112⅝, as against 113¼ on Wednesday of the preceding week. The specie outflow last week was $762,289, against 53,320 the previous week. The imports of specie at this port last week were $14,029, and since January 1st $1,483,936 as against $5,456,081 same time last year. The customs demand for gold last week averaged $327,000 per day. Foreign Exchange has been more sought after closing more firmly. Bankers sixty day bills on London closed on Wednesday at $4 86¾@$4 87¾; sight bills on London at $4 89⅛@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,582,548. The week's imports of Dry Goods and general merchandise were to the specie value of $6,954,749 as against $6,877,943 the corresponding week of 1875.

Government Securities have been attracting more attention, chiefly from buyers on investment account. The offerings of most issues have been on a restricted scale. Prices, which varied to some extent from day to day, in sympathy with the fluctuations in Gold, closed firm, at an advance on last week's quotations. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $347,800,350.

U. S sixes of 1881 closed on Wednesday of this week at 122⅝@122⅞; U. S. Five-Twenties of 1865, 118⅛@118⅜; U. S. Five-Twenties of 1865, consolidated, 118⅛@119; U. S. Five-Twenties of 1867, 121¼@121½; U. S. Five-Twenties of 1868, 122⅜@122⅞; U. S. Ten-Forties at 118⅝@118⅞; U. S. Fives of 1881, (Funding Loan) 118⅞@119⅛; Six per cent. currency Sixes, 126¼@127.

State and Railway bonds have been in generally better request for investment purposes at stronger prices. And in the line of Railway and Miscellaneous share property the dealings have been on a more extensive scale at however variable prices, closing with more steadiness in the leading instances.

General business has shown more animation in the line of domestic produce, the leading kinds of which have been in better demand, with prices, however, quite unsettled. Breadstuffs, Cotton, Provisions and Petroleum closed heavily. Foreign merchandise has been moderately dealt in, as a rule, and has been without important changes as to values. The Grocery trade closed tamer, The Metal trade was somewhat brisker, but quotations were irregular. Scotch Pig Iron closed less firmly. More activity was noted in American Pig Iron, but at low rates. Eglinton Pig Iron quoted here at $28@$28 50; Glengarnock $30@$31; Coltness $31 50@$32; No. 1 American Pig at $22@$23; No. 2 do. at $20@$21; Forge, $17@20; American Rails at works, $42@$45; Old Rails $22 50@$25. Wrought Scrap, $30@$31. Ocean freights have been more active and toward the close quoted stronger, especially for Grain room on berth and charter. Room mainly sought after for Grain, Petroleum, Provisions, refined Sugar, Flour and Tobacco.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ At a meeting of the directors of the new Northern Railway scheme, recently held at Oshkosh, Wisconsin, a committee was appointed, consisting of Messrs. Stringham, Bouck and Cook of that city, to prepare a form of proposition to the people of Oshkosh, for aid in building the road.

Cincinnati Southern Railway.

In our two previous issues we referred to the loan granted to this company by the City of Cincinnati to aid in the construction of this great enterprise, which when completed will bring an immense amount of new business to that city as well as develop the traffic of the whole country traversed by it. We are now informed that Messrs. Kuhn, Loeb & Co., Bankers, 39 Nassau Street, N. Y., representing a syndicate of several other banking houses in New York and Cincinnati, will present this loan, amounting to $3,000,000, for competitive subscriptions at a certain minimum price; but previous to this they will receive subscriptions to the loan, the bonds to be delivered on May 20th, 1876, at the rate of 103 per cent and accrued interest from the first of May, from which date the interest ensues.

The bonds are for $1,000, gold, each. They mature in the year 1906, bear interest at six per cent per annum, payable semi-annually at the American Exchange National Bank, New York; and principal and interest are, at the option of the holder, likewise payable at the agency of the city of Cincinnati in London, at the rate of £1 sterling to $5 gold.

This loan, which is strictly municipal, is granted to this company by the authority of the citizens of Cincinnati at an election held for the purpose of determining the popularity of the project and the issuing of the bonds, the result of which election was that out of 30,756 votes cast, 21,443 were in favor and only 9,323 against the loan.

The interest on the bonds, as well as on the amount heretofore issued for the construction of the road, is not only provided for by the acts authorizing their issue, but as well by a special act of the General Assembly of Ohio, requiring the city council to annually levy, independent of that levied for all other municipal purposes, a tax sufficient therefor.

The annual reports of the Cincinnati Chamber of Commerce and Board of Trade for 1871, '72, '73, '74 and '75, give the aggregate imports, exports, etc., of those years as follows:

Imports	$1,570,315,575
Exports	1,016 717,710
Manufactures	597,809,628

Cincinnati has no floating debt, and the amount of its total bonded indebtedness at the present time is $16,959,064, included in which is the sum of $10,000,000 expended in the construction of the Cincinnati Southern Railway.

The loan which is now presented is one of the safest on the continent, and is only equalled by the municipal bonds of New York, Boston and Philadelphia.

☞ A company has been formed to build a narrow gauge railroad from the foot of North Thirteenth Street, in the Eastern District of Brooklyn to Huntington by way of Maspeth, Winfield, Newtown, Flushing, Bayside, Hempstead, Glen Cove, Oyster Bay and Cold Spring Harbor to Huntington. A ferry will connect the terminus of the route with the foot of Twenty-third street, Fulton ferry and Wall street, New York. The estimated cost of the road is $800,000, and it is expected to be in running order by the close of the summer.

Interest and Dividends.

The Manchester and Lawrence Railroad Company has declared a semi-annual dividend of five per cent, payable May 1.

The Boston and Maine Railroad Company has declared a semi-annual dividend of three per cent, payable May 15.

The United States Express Company has declared a dividend of two per cent, payable May 1.

The Concord Railroad Company has declared a semi-annual dividend of five per cent, payable May 1.

The Calumet and Hecla Mining Company has declared a quarterly dividend of $5 per share, payable May 15.

The Cedar Rapids and Missouri River Railroad Company have declared a quarterly dividend of one per cent, payable at 23 Sears' Building, Boston, on the 1st of May. The coupons due May 1, will be paid by the National Park Bank, N. Y.

The Railway Equipment Trust of Pennsylvania has declared a quarterly dividend of 2 per cent, payable in Philadelphia on May 1.

The Car Trust of Pennsylvania has declared a quarterly dividend of 1¼ per cent payable in Philadelphia May 1.

The Iowa Railroad Land Company has declared a quarterly dividend of one per cent, payable at the Treasurer's office, No. 23 Sears' Building, Boston, May 1.

☞ The Baltimore and Potomac Railroad Company is steadily changing the rails and cross ties of the Washington Branch, replacing iron with steel track, and putting in new cross-ties, until finally it will be all steel rails.

☞ The Emperor of Brazil, who left New York on the 17th instant for San Francisco, went by the "Erie and Chicago line," passing over the Baltimore and Ohio, Chicago route, 285 miles, from Shelby Junction to Chicago.

Memphis and Little Rock Railroad.

The Spirit of Arkansas says that in the matter of the Memphis and Little Rock Railroad Company, in the United States Circuit Court, Judge Dillon, in giving his opinion, decided among other things that the motion of an old stockholder to come in with his bill and be consolidated should not be allowed. That the answer of H. L. Brinkley, a creditor and stockholder, should not be admitted, and that the old first mortgage was not usurious, and that the Memphis and Little Rock Railroad Company was properly organized. The court ordered a foreclosure and sale of the property.

Centennial Board of Finance.

At the annual meeting of the Centennial Board of Finance, held in Philadelphia on the 20th inst., the following gentlemen were elected directors: John Welsh, William Sellers, Samuel M. Felton, Daniel M. Fox, Thomas Cochran, Clement M. Biddle, N. Parker Shortridge, James M. Robb, Edward T. Steel, John Wanamaker, John Price Wetherill, Henry Winsor, Amos R. Little, John O. James, Philadelphia; Thos. H. Dudley, New Jersey; A. S. Hewitt, New York; William L. Strong, New York; John Cummings, Massachusetts; John Gorham, Rhode Island; Charles W. Cooper, Pennsylvania; Wm. Bigler, Pennsylvania; Robert M. Patton, Alabama; John S. Barbour, Virginia; J. B. Drake, Illinois; George Bain, Missouri.

Mr. John Welsh, President of the Centennial Board of Finance, submitted the annual report from which we extract the following:

During the year, in every part of a widely spread organization, the greatest activity has prevailed.

The Treasurer's account will show the receipts of money and their sources. The most diligent efforts failed to provide means equal to our wants, but on application to the Congress of the United States they were supplemented by an appropriation of one million five hundred thousand dollars. According to approximate estimates for our expenditures, we have enough provided to cover every obligation up to the day of opening.

Under the law the payments by the United States will not be completed before the 1st of July next, and those by the State of Pennsylvania not until a much later day.

This makes it impossible to announce, as we desired to do, on the 10th of May, that every obligation had been discharged. Aid from the States, beyond that acknowledged in the last report as given by Delaware, New Jersey and Pennsylvania, has been received during the year, in the form of subscriptions to the stock, from Connecticut and New Hampshire to the extent of ten thousand dollars each.

Although our plans were projected on a very large scale, the demands made upon us for increased accommodations have been very great. Scarcely a department is without an annex to its original building, and in that of Art one is added of more than double the capacity of the original. These have caused delay in the final completion of our bond. A still greater embarrassment is attributable to the late moment at which several of the States began the buildings for their special accommodation.

Notwithstanding these hindrances to our progress, our buildings and grounds are in an unusual state of forwardness as compared with those of other International Exhibitions at a corresponding time; nor will they prevent the punctual observance of the appointed day for opening, 10th of May.

So many agencies are in action, drawing the various parts of our preparatory work to a close, that it is impossible to speak other than approximately of the outlay. We see no reason to vary the estimate heretofore made, which was eight million five hundred thousand dollars, from the beginning to the final winding up. It must be borne in mind that the expenditure incident to an Exhibition on so large a scale can, in advance, only be given conjecturally.

The whole outlay will be provided from the following sources:

State of Pennsylvania	$1,000,000
City of Philadelphia	1,500,000
Concessions, gifts and interests	500,000
Stock subscriptions	2,500,000
Appropriation by the United States	1,500,000
	$7,000,000

As this shows a deficiency of one million five hundred thousand dollars, that amount must be supplied from admission fees.

Assuming that our present assured means are equal to the payment of everything up to the opening, and that for the expenses of the Exhibition until the final winding up of its affairs there will be required one million five hundred thousand dollars from the receipts for admission fees, then whatever sum beyond that shall be realized from admissions, together with the value of the materials after its close, will be applicable to the repayment of the capital stock and the United States appropriation; the interests of the State of Pennsylvania and the city of Philadelphia being represented by their respective buildings, the Machinery, Memorial and Horticultural Halls. We shall not venture to speculate on the extent of the receipts.

The available space in all the buildings is disposed of. The representations from foreign nations will be larger, and their exhibits of greater interest and larger value than were anticipated; and those from our country, although not forming a perfect representation of it in all its parts, will be very general and of great interest. In every respect the Exhibition will far exceed the expectation of its projectors, and present a study worthy of the attention of the most cultivated minds of the age. Its educational value cannot be overestimated. Its influence as a commemoration must be most salutary.

The following is an abstract of the Treasurer's accounts from the 1st day of May, 1873, to the 1st day of April, 1876:

RECEIPTS.

Capital stock:		
Amount paid for installments by stockholders		$2,132,140 20
Donations:		
From various sources		53,808 60
Women's Building fund:		
Donations for the erection of the Women's Building		31,161 46
Medal account:		
For sale of medals		15,118 72
Miscellaneous receipts:		
For interest on deposits	$27,677 78	
Water rents	2,752 37	
Sale of old materials, rents, transfers, etc	3,818 22	
		34,248 37
Concession account:		
On account of contracts for concessions		193,250 00
State of Pennsylvania:		
Towards erection of the Permanent Building		543,343 78
City of Philadelphia:		
For the erection of Centennial Buildings		1,190,085 95
United States:		
On account of appropriation of February 16, 1876		500,000 00
Treasurer of the United States:		
Refunded for amount advanced for memorial certificates		24,500 00
Transportation department:		
On account of terminal charges		5,407 17
Temporary loans:		
Amount borrowed		380,000 00
		$5,103,063 25

PAYMENTS.

Centennial buildings and grounds:	
On account of buildings and for grading, drainage, and laying out grounds, water-works, gas mains, machinery, plans, salaries of engineers and architects, clerks, printing, advertising, stationery, and all other charges incident to said buildings and grounds	$4,178,101 44
United States Centennial Commission:	
For salaries, clerk hire, printing, advertising, plans, and other charges	246,229 01
Centennial Board of Finance:	
Salaries, clerk hire, rent, printing, advertising, stationery, commissions to agents, fire and police department, and other charges and expenses	196,596 96
Memorial medals:	
For dies, bullion, coinage, cases, etc.	22,898 55
Temporary loans:	
Paid on account of money borrowed	140,000 00
Treasurer of the United States:	
Advanced for engraving and printing memorial certificates	24,500 00
Balance on deposit in banks	294,425 76
Cash in office	311 53
	$5,103,063 25

Railroad Earnings.

The earnings of the Philadelphia and Erie Railroad for the month of March, 1876, were $247,019 04, the expenses $170,933 87, and the net earnings $76,085 14. In March, 1875, the earnings were $252,285 71, the expenses $168,143 02, and the net earnings $84,142 69—showing a decrease in earnings of $5,266 77, with an increase in expenses of $2,790 85, making the decrease in net earnings $8,057 52.

The earnings of the Ohio and Mississippi Railroad for the second week in April, 1876, were $76,912 35, against $72,090 03 for the second week in April, 1875, an increase of $4,822 32.

The earnings of the Michigan Central Railroad for the second week in April, 1876, were $133,477 72, against $131,733 66 for the second week in April, 1875, an increase of $1,744 06.

The earnings of the Canada Southern Railroad for the second week in April, 1876, were $48,385 08, against $26,080 99 for the second week in April, 1875, an increase of $22,304 09. The total earnings from January 1, 1876, to date have been $516,995 25.

The earnings of the Missouri, Kansas and Texas Railroad for the second week in April, 1876, were $55,409 41, against $45,095 25 for the second week in April, 1875, an increase of $10,314 16.

The earnings of the Chicago, Milwaukee and St. Paul Railway for the third week in April, 1876, were $153,000, against $151,171 for the third week in April, 1875, an increase of $1,829. For the first three weeks in April, 1876, the earnings were $445,091, against $433,852 for the first three weeks in April, 1875, an increase of $11,239. From January 1, to date, the earnings were $2,057,392, against $1,725,972 for the corresponding period of the previous year, an increase of $331,420.

☞ The annual meetings of the Atchison, Topeka and Santa Fe and the Wichita and South Western Railroad Companies will be held at Topeka, Kansas, on the 12th of May.

Railroads in Michigan.

The Northwestern Lumberman says that Mr. John Canfield, of the firm of Canfield & Wheeler, Manistee, Mich., one of the heaviest lumber operators and pine land owners in the Northwest, proposes to build a railroad from Manistee to Baldwin, on the Flint and Pere Marquette Railway. It is designed to connect at Baldwin with the Flint and Pere Marquette, the Detroit, Lansing and Lake Michigan, and the Newaygo Railroads, which latter is being pushed north from Newaygo to Baldwin. The Detroit, Lansing and Lake Michigan Railroad Company expects to extend its line from Howard City to Baldwin also. This will give citizens of Ludington and Manistee a more direct route to Chicago. Mr. Canfield says if six men will give $25,000 each, the road will be built as soon as the details can be arranged.

☞ Messrs. Hurd & Houghton of this city have issued the United States Official Postal Guide for April, containing nearly 400 pages of information about postal matters. It gives the usual alphabetical lists of all the post offices in the United States, lists of money order and letter carrier offices, tables of domestic and foreign postage, arrival and closing of mails in the principal cities, distances by shortest mail routes, etc.

☞ Mr. W. P. Shearman has been appointed Assistant Receiver of the Erie Railway Company.

Atchison and Nebraska Railroad.

From the report of this company for the year ending December 31, 1875, we learn that the gross earnings were $270,955, the expenses (including insurance and taxes) $270,683, and the net earnings $272. Add amount received from collection of county bond coupons, $22,580, and deduct amount expended and charged to construction, $2,065—leaving as available net revenue the sum of $20,787, which has been applied to the reduction of the floating debt. This debt, as stated in the previous report, was $76,259, and has been reduced during the year to $58,000; to which should be added amount due for equipment, $15,940—making the entire floating debt at this date $73,940, which is secured by a pledge of county bonds, not covered by the mortgage, amounting to $234,000. Compared with the previous year the gross earnings show a decrease of $82,249. The proportion of expenses to earnings, including taxes and insurance, is 99.90 per cent. The balance sheet of the company January 1, 1876, is as follows:

Total amount paid for old roads	$168,912
Construction: total cost of road	2,376,436
Equipment: total cost of equipment	400,868
Profit and loss	1,358,758
County bonds	234,000
Bills receivable	700
Supplies on hand	11,718
Due from other railroads	19,059
Assistant Treasurer's cash	22 759
	$4,593,210
Bonds	$3,750,000
Unpaid coupons	750,000
Detroit, Lansing and Lake Michigan Railroad Co.: due them for borrowed money	58,000
Bills payable	15,941
Unpaid vouchers	19,256
Cash advanced by Treasurer	14
	$4,593,210

A Test of Time Locks.

A test of the comparative merits of the Sargent & Greenleaf Time Lock and the Yale Time Lock has just been made in the City of Providence. The test was made at the request of one of the members of the Morris & Ireland Safe Co., agents of the Yale Time Lock, who selected as a committee Joseph R. Brown, Esq., of the Brown & Sharpe Manufacturing Company, J. J. Luther, Esq., and Melvin Parker, Esq., watch makers. The invitation and the test were both acceptable to Messrs. Sargent, Greenleaf & Co., they furnishing a duplicate of one of their four hundred and fifty locks which they now have in use, and the Morris & Ireland Safe Co. a Yale Lock with one of their recently applied Howard Watch Company movements. The committee decided unanimously in favor of the Sargent and Greenleaf Lock.

Columbus and Toledo Railroad.

The Columbus rolling mill shipped a train of iron northward on Saturday last for the Toledo road. They have on hand over one thousand tons, which will follow rapidly. The Cleveland rolling mill will ship ten cars of steel rails this week, and six cars a day thereafter until their contract is filled. The road will be laid with iron on the northern half and steel on the southern half, as the greatest traffic will be on this part of the road.

The iron bridge, built by the "Keystone Bridge Company," over the Olentangy, is finished, and a large force is at work on the embankments in the disputed territory—the first five miles out of our city. The work all along the line is being pushed rapidly. The directors have called for the payment of all the installments, and it looks as if all having to do with the road "mean business."—*Ohio State Journal, Apl.* 18.

Detroit, Lansing and Lake Michigan R. R.

The receipts from operations of this road for the year ending December 31, 1875, were $739,704, the expenses (including taxes, insurance, etc.) $528,806, and the net earnings $210,896; of which $13,335 has been used and charged to construction and equipment accounts—leaving as available net earnings the sum of $197,561. The gross earnings show a decrease from those of the previous year of $67 993. The report says:

The net earnings of the road during the past two years have been insufficient to provide for the half coupon interest proposed in the funding plan dated Dec. 15, 1873, and at the same time do justice to the property in the interest of its bondholders. At the close of the last financial year this deficit, with interest, amounted to about $75,000, represented by withheld coupons. The greater portion of this amount has since been paid, but as the spring receipts of the road are always light, no available funds are left applicable at present (April) to payment of coupon interest due April 1, 1876. A notice has been sent to bondholders to that effect.

As may be seen from this and former reports, basing the net receipts of this year upon the depressed state of trade existing during the past two years, a fair proportion of the interest of the first mortgage bonds should be earned (applicable to dividends to the bondholders) during the year.

The general account of the company December 31, 1875, is as follows:

Construction account		$5,600,883
Equipment account		948,410
Supplies, material, etc., on hand		36,533
Due from other roads and agents		24,187
Bills receivable		14,794
Due from other roads, secured by collateral		58,000
Due on account for second mortgage bonds		12,367
Cash in hands of Treasurer at Boston		14,994
Balance of profit and loss account		1,865 243
		$8,575,411
Capital stock		$1,680,600
Bonded debt		6,054,000
Bills payable		175,128
Due Michigan Central Railroad for equipment and iron		69,180
Unpaid coupons—		
To be funded into preferred stock	$502,860	
To be paid	69,180	
		572,040
Unpaid vouchers		20,004
Cash advanced by Assistant Treasurer from funds of 1876		4,464
		$8,575,411

Detroit and Milwaukee Railroad.

In accordance with authority granted by the court the receiver of the Detroit and Milwaukee Railroad yesterday purchased 5,000 tons of steel rails, to be laid down on the road at once. These were puchased of the Cleveland Rolling Mill Company, and the price paid was $61 50 per ton—a very low figure, below the price authorized by the court to be paid. The rails are warranted for five years. They will be put in between the Junction and Royal Oak, completing the steel track between Detroit and Fenton, and west of the latter station, laying altogether 55 miles of new steel road. It is the purpose of the receiver to spend a good portion of the earnings, which are largely increased from last year, in improving the road. The way and the rolling stock are to be brought into first class condition without delay.—*Detroit Post.*

☞ We learn from Jefferson, Texas, that the Texas and New Orleans Railroad (closed since the war) is being relaid. Thus a link of very great importance to the future of New Orleans will be filled. It will be the Texas and Pacific Branch to New Orleans whenever that great thoroughfare is completed.

RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from out (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

The Coal Trade.

The return of the trade from all the regions for the week ending the 15th instant foots up 403,323 tons, against 212,172 tons for the corresponding week last year, showing an increase of 191,151 tons. The total amount of anthracite mined for the year is 3,611,840 tons, against 3,127,407 for same period last year, an increase of 484,433 tons. The quantity of bituminous coal sent to market for the week was 77,385 tons, against 62,996 tons for corresponding week last year, an increase of 14,389 tons. The whole bituminous tonnage from the beginning of the coal year is 865,689 tons, against 761,831 tons in corresponding time last year, an increase of 103,858 tons. The total tonnage of all kinds of coal for the week is 480,708 tons, against 275,138 to corresponding date last year, an increase of 205,570 tons, and the total tonnage for the coal year is 4,477,529 tons, against 3,889,238 tons to same date last year, an increase of 588,291 tons. The quantity of coal and coke carried over the Pennsylvania Railroad the last week was 80,008 tons, of which 76,444 tons were coal and 12,564 tons coke. The total carried this year is 931,910 tons, of which 762,941 were coal and 169,469 coke. This total embraces all the coal carried over the road, east and west. At Port Richmond for the week ending on the 22d instant there were receipts of 67,000 tons of coal and shipments of 39,000 tons, leaving 152,500 tons on hand. We continue to quote freight charges to New York at 85 cents, Providence at $1 20@$1 25 and to Boston at $1 35@$1 40 per ton.—*Phila. Ledger, Apl.* 22.

☞ The decree of the U. S. Circuit Court for the sale of of the Louisville, Paducah and Southwestern Railroad provides that the main stem and Louisville branch be first offered for sale separately, and then conjointly as one property, and that the separate bids or joint bids be accepted accordly as the sum of the former or the latter is the largest.

☞ The cars on the Little Rock and Fort Smith Railroad are now running to Ozark. The large force employed hitherto between Altus and Ozark has been transferred, to complete the road West of Ozark. Work is actively progressing between Van Buren and Fort Smith.

☞ The citizens of New Bedford, Mass., have voted adversely on the proposition that the city subscribe $150,000 to the capital stock of the New Bedford and Middleborough Railroad.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, May 6, 1876.

New York and Philadelphia New Line.

The "New York and Philadelphia New Line" was opened on the 27th ult. for travel, and excursion trains were run from Philadelphia to New York, and from New York to Philadelphia, on which were large parties of representative business men, city officials and other invited guests of both cities.

The "new line" is composed of three links, viz: the North Pennsylvania Railroad via Jenkintown to Yardleyville, 28.6 miles. The Delaware and Bound Brook Railroad thence to Bound Brook, 27 miles, and the Central Railroad of New Jersey, thence to Jersey City 32.8 miles, making a total length of 88.4 miles.

These links are to be operated as one through line between Philadelphia and New York under the supervision of Solomon W. Roberts, Superintendent and Engineer North Pennsylvania Railroad, R. E. Ricker, Superintendent and Engineer Central Railroad of New Jersey, and Francis H. Saylor, Superintendent and Engineer Delaware and Bound Brook Railroad. Of the entire distance of 88.4 miles, about 47¼ miles are of new road. These are the Delaware division of the North Pennsylvania Railroad, from Jenkintown, in a northeastern direction, to the middle of the Delaware river at Yardleyville, and the Delaware and Bound Brook road, from that point to Bound Brook on the Central Railroad of New Jersey.

The construction of the new portion of the line was under the charge of Francis H. Saylor, engineer in charge of the Delaware River Branch of the North Pennsylvania Railroad, and chief engineer of the Delaware and Bound Brook Railroad. No pains were spared to render it as complete as possible. A large portion of it is perfectly straight. On fourteen miles of the Delaware and Bound Brook there is not a single curve. The highest grade is thirty-six feet to the mile, and the maximum curvature is 2800 feet radius. The whole of the new line traverses a fertile and populous country, the Pennsylvania portion being through the Huntingdon valley, and the New Jersey portion through the Hopewell valley.

It is laid throughout with a double set of tracks of steel rails, and is all stone ballasted. All the bridges are built in a substantial manner of iron. Grade crossings have been avoided as carefully as possible. In New Jersey out of twenty-nine crossings only eight are at grade, and a similar state of things exists on the Pennsylvania portion of the line. Arrangements have been made for the use of the Connecting Railroad as an entrance to the Centennial grounds.

The rolling stock is first class in every respect. The locomotive engines were constructed at the Baldwin Locomotive Works, Philadelphia, and the passenger cars were built at Wilmington, Delaware.

At New York the ferry of the Central Railroad of New Jersey is used, landing at Liberty street, and a ferry will also land passengers up town, at a convenient point, in a short time.

Scioto Valley Railway.

Two new passenger coaches for the Scioto Valley railway arrived last night, and will be put into immediate service in regular trains. They are from the old established works of the Harlan & Hollingsworth Company, of Wilmington, Delaware. The same company have the order to build six more coaches for this road, to be completed in time for the opening to Chillicothe. The two that have arrived are fine, light, airy, well appointed coaches, but are intended only as "mediums." Two of the six now building are to be "parlor coaches," and will be as elegant in appearance and as complete in all their appointments as any that are run in the West.—*Ohio State Journal, May* 1.

Transportation to the Centennial Grounds by the Philadelphia and Reading R. R.

The Philadelphia and Reading Railroad Company are completing arrangements by which they expect to be able to furnish transportation for 80,000 persons daily, if necessary, to and from the Park. An additional track has been laid between Belmont and the Falls of Schuylkill, a connection has been made between the Richmond and Norristown branches, and a new station, named Belleview, established. A connection has also been made at Nicetown between the Germantown and Richmond branches, and a double-track connection made between the main line and the Junction Railroad at Belmont.

About one hundred new passenger cars and five or six new engines are being built at Reading. The cars are first-class in every respect as to construction and material, except that the interiors will not be so elaborately decorated as the first-class coaches now in use on the main line. The company already own about 400 locomotives, and owing to the dullness of the coal trade they will be able to detail any number that may be required.

It is the intention of the company to run 48 extra Park trains daily to and from Broad and Callowhill streets, 47 from Ninth and Green, 23 from Richmond, 6 from Germantown and 6 from Norristown, thus making 124 trains daily from various portions of the city to the Centennial Grounds. In addition to these extra trains will be run on the main line from Reading and Pottsville as circumstances may require.

☞ The Continental (Philadelphia) Passenger Railway was formally opened on the 1st inst. Twenty-two cars were put on the line. It is the intention to run fifty in a short time. That number of cars are already delivered. They were built by John Stevenson & Co., of New York, and are of a very neat pattern. They are made of ash and whitewood with walnut trimmings. The cushions are stuffed with hair and covered with crimson plush. There are two routes, on one of which 30 cars will be run and on the other 20 cars. The officers of the company are: Wm.

H. Kemble, President; Charles T. Yerkes, Secretary and Treasurer; J. C. Petty, Superintendent.

Western Union Railroad.

The earnings of this road for the years ending December 31, 1874 and 1875, were as follows:

	1874.	1875.
From freight	$858,953 95	$910,045 30
" passengers	216,514 16	202,348 11
" mails, express, etc.	47,639 70	48,041 60
Total	$1,123,107 81	$1,160,430 01
Expenses (ordinary)—

Total	$768,164 21	$830,287 53
Net earnings	$354,943 60	$330,142 48

Compared with the year 1874, the gross earnings of 1875 show an increase of $37,322 20, with an increase in operating expenses of $62,123 32—making a decrease in net earnings of $24,801 12. Percentage of expenses to earnings, 72. The expenses are divided as follows:

	Ordinary.	Extraordinary.	Total.
1874.	$667,624 00	$100,540 21	$768,164 21
1875.	645,878 11	184,909 42	830,287 53
Dec.	$22,245 89	Inc $84,369 21	Inc. $62,123 32

The expenditures for 1875 not charged to operating expenses were as follows:

Equipment, (new locomotives and cars	$38,125 00
Racine Warehouse and Dock Co., for deficiency in grain received at Racine elevator, as per contract	24,980 17
Interest and exchange	5,493 78
Interest on bonded debt	244,965 00
Right of way	50 00
Total	$312,613 95

The number of miles of road operated in 1875 (exclusive of side track) was 212¾.

The equipment of the road consists of 39 locomotives (all coal burners); 10 first-class passenger, 2 sleeping, 1 business, 3 baggage, mail and express, 9 baggage and second-class, 397 box and caboose, 62 stock, 50 flat, 1 derrick, 2 pile driver and 81 coal cars.

Miles run by passenger trains, 237,721; by freight trains, 484,278; by coal and gravel trains, 32,620—total, 754,619.

Number of tons carried, 451,868; do. carried one mile, 50,756,843. Rate per mile, 1.79 cents. Number of passengers carried, 216,390; do. carried one mile, 5,819,042. Rate per mile, 3.48 cents. Earnings per mile run on freight, $1 88; do. on passengers, $0 97. Expenses per mile run, $1 15. Number of passengers carried per mile run, 0.91. Gross earnings per mile of road, $5,454; expenses, $3,902; net earnings, $1,552.

GENERAL ACCOUNT, December 31, 1875.

Cost of road		$7,000,000 00

President.—ALEX. MITCHELL, Milwaukee.

Vice President.—S. S. MERRILL, Milwaukee.

Directors.—Alex. Mitchell, S. S. Merrill, John W. Cary, Hans Crocker, J. L. Mitchell, John Johnston, John Plankinton, W. S. Gurnee, H. T. Fuller, Wm. Shannon, D. W. Dame, H. A. Mills, E. P. Barton.

Sec'y and Treas.—F. G. RANNEY, Milwaukee.

General Sup't.—D. A. OLIN, Racine, Wis.

Assistant Sup't.—W. H. FRANKLIN, Racine, Wis.

Nashville, Chattanooga and St. Louis Railway.

The earnings of this road for the month of March, 1876, were $145,979, the expenses $92,878, and the net earnings $53,101. For the month of March 1875, the earnings were $136,217, the expenses $94,576, and the net earnings $41,641. For the nine months ending March 31, 1876, the earnings were $1,856,151, the expenses $784,418 and the net earnings $571,733. For the nine months ending March 31, 1875, the earnings were $1,349,097, the expenses $928,816 and the net earnings $420,281—showing an increase in earnings of $7,054, a decrease in expenses of $144,398, and an increase in net earnings of $151,452. The surplus for the nine months ending March 31, 1876, after deducting accrued interest on the bonded debt, amounted to $243,143.

Atchison, Topeka and Santa Fe Railroad.

From the report of the directors of this company which is to be submitted to the annual meeting of the stockholders at Topeka, Kansas, on the 12th inst., we learn that the earnings for the year ending December 31, 1875, were $1,520,538 31, the expenses $698,750 47, and the net earnings $821,607 84. For the year ending December 31, 1874, the earnings were $1,250,805 69, the expenses $557,641 84, and the net earnings $693,163 85—showing an increase in earnings of $269,552 62, an increase in expenses of $141,108 63, and an increase in net earnings of $128,443 99.

The superintendent's estimate of the earnings, expenses and net earnings of the main and leased lines for the year 1876, is as follows:

Gross earnings	$2,182,160 00
Operating expenses	1,046,926 80
Net earnings	$1,135,233 20

COUPON INTEREST AND EXPENSES.

$7,041,000 1st mortgage bonds, 7 per cent gold, Jan. and July	$492,870
$976,000 Consol. mort. bonds, 7 per cent gold, Apl. and Oct	68,320
$2,074,000 Consol. mort. bonds, 7 per cent gold, Oct. 1, 1876	72,590
$412,000 Wichita mort. bonds, 7 per cent gold, Jan. and July, guaranteed against earnings Wichita branch	28,840
	$662,620
Gold premium, 10 per cent	66,262
	$728,882
$506,000 Company notes, 8 per cent currency, Jan. and July	35,420
Taxes, 1876	70,000
Expenses at Boston office, and contingent	15,000
Total	$849,302

Against earnings, 1876, main line.

INTEREST ON BONDS, LEASED LINES (NOT GUARANTEED BY A., T. AND S. F. R. R. COMPANY.

Kansas City, Topeka and Western R. R. Co.—$650 000 1st mort. bonds, 7 per cent gold, Jan. and July	$45,500
Pueblo and Arkansas Valley R. R. Co.—$1,779,000 1st mort. bonds, 7 per cent gold, Jan. and July	124,530
	$170,030

Total	$187,033

LAND DEPARTMENT.

Summary of receipts and disbursements from the organization of the Land Department to Dec. 31, 1875:

Received prior to 1875, on principal		$576,218 63
Interest on same		209,927 00
		$786,145 63
Received during 1875, on principal, sales made prior to '75	$72,558 53	
On interest	75,625 89	
		148,184 42
Received on principal, sales made during 1875	$43,766 53	
Interest on same	25,759 46	
		69,525 99
Total		$1,003,856 04

Expenditures to Dec. 31, 1874	$280,247 26
Expenditures to Dec. 31, 1875	67,261 10
	$347,508 36
Paid Assistant Treasurer of Railroad Company	656,347 68
Total, as above	$1,003,856 04

LIABILITIES.

Land Grant bonds	$3,374,500 00
Land Income	475,000 00
Due the Railroad Company	99,182 13
	$3,948,682 13

ASSETS.

Bills receivable due the Co. for lands sold, bearing 7 per cent interest, payable annually	$1,982,054 42
Total acreage patented and applied for	2,934,584 04 acres.
Total acreage lands sold	526,592 80 "
Total lands unsold	2,407,991.24 "

COUPON INTEREST AND EXPENSES FOR THE FISCAL YEAR 1876.

$3,374,500 Land Grant bonds, 7 per cent gold, April and October	$236 215 00
Gold premium, 10 per cent	23,621 50
	$259,836 50
$475,000 Land Income bonds, 12 per cent currency, January and July	57,000 00
Taxes, 1876, land department	86,000 00
Expenses, land office	70,000 00
Total	$472,836 50

Against cash receipts land department, sales and deferred payments.

POTTAWATOMIE LAND DEPARTMENT.

$499,500 Pottawatomie Land bonds, 7 per cent currency, May and Nov., against cash receipts, sales and deferred payments	$34,965 00

The Park Depot of the Philadelphia and Reading Railroad.

The Philadelphia and Reading Railroad Company have just completed a depot in Fairmount Park, for the accommodation of the Centennial passenger traffic. The location is a short distance below the Columbia Bridge, on the west side of the Schuylkill, and at the foot of the bluff on which Memorial Hall stands, and from which it is distant only 800 feet. Here a siding about 1500 feet long has been constructed at the west side of the main tracks, along which a platform extends 1315 feet long, which has an average width of 20 feet. Near the centre of this platform a shed has been erected 310 feet long and 35 feet wide, affording shelter for a large number of people. This platform and shed stands upon the company's right of way. To the west, at a distance of 42 feet from the track, the Park Commission have granted the use of ground for a depot. This is already completed, and is 100 feet long by 30 feet wide, covering the whole space granted. It connects with the platform by a wide passageway. At each end of the building are retiring rooms, and the remaining space is devoted to waiting rooms. Near the centre is an octagonal ticket office, which has numerous windows to facilitate the sale; this divides the space into two rooms along the sides, and through the center of which are comfortable settees.

The building is a one-story structure, about 16 feet in the clear, with a peaked roof, and painted in a neutral tint. The interior woodwork is finished in imitation of walnut and oak.

A convenient walk is laid from the depot to the river road, and another from thence to the Lansdowne drive, upon which is one of the entrances to the exhibition grounds. Another walk is built from the northern end of the platform to the same point. A fence between the siding and main platform prevents heedless passengers from standing upon the latter. About midway of the long platform a gate is situated; arriving trains will stop before passing this gate and discharge their passengers; they then pass into the enclosure and take up their return loads, and in the meantime the double-ender engine switches to the main track and runs back to the other end of the track. Each train will consist of five cars, and four minutes are allotted for loading and unloading, when it will be ready to return.

Railroad Earnings.

The earnings of the Ohio and Mississippi Railroad for the third week in April, 1876, were $93,924 93, against $74,354 38 for the third week in April, 1875, an increase of $19,570 55. The earnings from 1st of January to 21st April, 1876, were $1,165,050, against $1,021,416 same time in 1875—increase in 1876, $143,634.

The earnings of the Michigan Central Railroad for the third week in April, 1876, were $140,405 60, against $126,028 80 for the third week in April, 1875, an increase of $14,376 80.

The earnings of the Canada Southern Railroad for the third week in April, 1876, were $47,714 76, against $28,180 64 for the third week in April 1875, an increase of $21,033 82. The total earnings from January 1, 1876, to date have been $566,209 71.

The earnings of the Missouri, Kansas and Texas Railroad for the third week in April, 1876, were $50,535 90, against $46,083 03 for the third week in April, 1875, an increase of $3,952 87.

The earnings of the Pacific Railroad of Missouri for the third week in April, 1876, were $67,966, against $57,076 for the third week in April, 1875, an increase of $10,890. From January 1, to April 21, 1876, the earnings were $1,099,114, against $877,654 for the corresponding period of 1875, an increase of $221,460.

The earnings of the St. Louis, Kansas City and Northern Railway Company for the fourth week in April 1876, were $58,235; for the fourth week in April, 1875, $46,723; increase, $11,512. Total earnings from January 1, to May 1, 1876, $1,038,685 06; from January 1, to May 1, 1875, $870,815 72; increase, $167,869 34.

The earnings of the Toledo, Peoria and Warsaw Railway for the first three weeks in April, 1876, were $80,773 37, against $53,198 40 for the first three weeks in April, 1875, an increase of $27,574 97.

The earnings of the Chicago, Milwaukee and St. Paul Railway for the fourth week in April, 1876, were $206,000, against $205,817 for the fourth week in April, 1875, an increase of $183. For the month of April, 1876, the earnings were $650,994, against $639,669 for the month of April, 1875, an increase of $11,325. From January 1, to date, the earnings were $2,263,245, against $1,931,809 for the corresponding period of the previous year, an increase of $331 435.

☞ The executive committee of the Atlantic and Pacific Telegraph Company has authorized an extension of its lines from Washington through Richmond, Raleigh, Augusta and Macon to Mobile and New Orleans. Branch lines are also to be had to Savannah and Charleston. It is expected the lines will be working to New Orleans within four months.

Foreign Railroads.

Germany, within its imperial domain, contained at the close of 1875, 16,780.29 miles of railroad.

Russia at the same time had 12,074.42 miles.

Austria had 6,360.33 miles, and Hungary 3,966.39 miles, or a total of 10,326.72 miles in the Empire-Kingdom.

Switzerland in its valleys had 1,006.67 miles.

In Roumania (Turkey) there were 766.23 miles.

Portugal had 571.23 miles.

Canada, in its entirety, had 4,483.49 miles and is not yet content with its lot.

China is coming into line, and is building a tramway near Shanghai.

Such are our gleanings from Herapath, which we thus transfer to our columns for future reference. We propose at some future time to ascertain with exactness the real status of the railroad in all the countries into which it has been introduced, and give the information we may acquire in our studies to the public.

Railroad Track, Wagon, Depot, etc., Scales.

We notice the Riehle Bros. are erecting their Patent Railroad Track Scales of 100,000 lbs. capacity on the Seaboard and Roanoke Railroad, at Portsmouth, Va. We understand this is the new style scale that is meeting with such favor by the railroad authorities and large manufacturers. This firm have erected a number of these scales within the past two or three years on the lines of the Philadelphia and Reading, North Pennsylvania, Easton and Amboy and other Railroads. In addition to this they state that they (and their predecessors) have on the lines of the Pennsylvania Railroad (including Camden and Amboy Division,) nearly one hundred Scales in use at the present time—say, about ten Railroad Track Scales, fifty or sixty Wagon, Depot, and Hopper Scales, and quantities of smaller Dormant and Platform Scales, throughout the length of the road and the leased roads. They therefore believe that more freight is weighed on their Scales in this State (Pa.) than any other make, and probably more through railroads than all makes combined.

☞ The *Revue Industrielle* says it is reported that immense and valuable deposits of iron ore have lately been discovered in the province of Ekatarinoslaw, in the valley of the Dneiper, in Southern Russia. The ores comprise hæmatites (red and brown) and magnetic, and are pronounced to be very free from both phosphorus and sulphur. One of these beds has the enormous thickness of 117 feet, and another 39 feet. The construction of a railroad and of iron furnaces for the utilization of these resources is said to be contemplated.

☞ The Milwaukee Wisconsin says that the charter of the Lone Rock, Dodgeville and Freeport Narrow-gauge Railroad Company has been filed. The road will run from Lone Rock, on the Chicago, Milwaukee and St. Paul Railroad, via Dodgeville, to the Wisconsin State line in the town of Cadiz, and so to Freeport, Ill.

☞ Articles of incorporation have been filed of the Arkansas Valley and New Mexico Railroad. This enterprise, which represents a capital of $3,000,000, with wealthy and well known trustees, means the immediate extension of the Carson and Las Animas branch to Trinidad.

Grand Trunk Railway of Canada.

The report for the half-year ending Dec. 31, 1875, states:

The gross receipts upon the whole undertaking, including the Buffalo and Champlain lines, have been		£1,046,348
Which are reduced by the discount on American currency		22,490
To		£1,023,858
Deduct working expenses (being at the rate of 79.93 per cent., against 80 42 for the corresponding half of last year)		818,408
Leaving a sum of		£205,450
From this, however, has to be deduted the postal and military revenue due for the half-year to the bondholders		16 648
Which leaves		£188,802
Applicable for the following payments, viz:		
Interest, &c., paid on lands, temporary loans, etc., etc		£20,720
Atlantic and St. Lawrence lease	£52,539	
Lewiston and Auburn Railway rent	1,849	
Detroit line lease	11,250	
Montreal & Champlain bond interest	12,081	
Buffalo and Lake Huron rent	33,500	
		111,219
1st equipment bond interest		15,000
2nd " "		15 000
5 per cent. perpetual debenture stock		26,500
Leaving a balance of		362
		£188,801

There has therefore been for the past half-year no balance available for dividend on the preference stocks, and the above sum of £362, added to the balance from the last account of £1,324, makes a total amount to be carried forward to the next account of £1,686. The operations of the half-year have resulted in a diminution of gross receipts (after deduction of discount on American currency,) of £83,388, or 7.53 per cent, as compared with the corresponding period of 1874, which has, however, been nearly compensated for by the reductions of £72,051 effected in the working expenses. The net revenue therefore has only been reduced by £11,337; having been £205,450, against £216,787 in the corresponding half-year of 1874. The charges against the net revenue have been increased as follows:

Interest on lands, temporary loans, &c		£7,500
Leasehold lines rentals		800
Interest on debenture stock	£22,700	
Less interest on mortgage to Bank of Upper Canada extinguished	4,300	
		18,400
		£26,700

The loss of net revenue of £11,337 added to this amount makes £38,000, which, with the balance carried forward, equals the balance carried to dividend account in the corresponding half-year in 1874. The decrease in the passenger receipts of £34,698, or nearly 10 per cent. as compared with 1874, has been caused simply by a diminution in the numbers of the traveling public, and is an index of the commercial depression which exists. Such a loss of traffic cannot be completely recouped by reduced train service, as the accommodation afforded to the public cannot be all at once restricted, but the executive were enabled during the half-year to make some reduction in the passenger train miles run. The loss in the freight traffic of £49,070, or nearly 7 per cent., accompanied with an increased tonnage of 58,958, as compared with 1874, is the result of entirely lower rates. The following comparative statement shows the average distance each ton has been carried, and the average rate per ton per mile received since 1872, viz:

	Tons of Freight.	Average distance carried. Miles.	Average Rate per Ton per Mile. Cents.
31st Dec., 1875	1,070,930	320	1.00
" 1874	1,011,972	328	1.10
" 1873	836,012	285	1.44
" 1872	797,935	278	1.38

The company has therefore received on the average, for moving each ton of freight a mile, 9 per cent. less than in 1874 and 30 per cent. less than in 1873, and had the rates of the latter year been maintained, the gross receipts during the past half year would have been increased by nearly £300,000, the greater portion of which would have been available as net revenue. The average distance each ton was carried was less than in 1874 by 8 miles, or 2½ per cent., but as the number of tons carried was increased by 5 per cent., the transportation of freight was increased by 3½ per cent. The working expenses amounted to £818,408, or 79.93 per cent. of the gross receipts, against £890,459, or 80.42 per cent. in 1874. There has been a decrease under every item of expenditure, except that of miscellaneous expenses, and there was also a special charge against the half year for a proportion of the loss caused by the fire at Point St. Charles; the following statement shows where the principal decreases in the expenditure have been effected, viz:

	Decrease.
Maintenance of way and renewals	£277
Locomotive department	31,377
Car ditto	12,688
Traffic expenses	25,844
General charges	42
Rent of rolling stock	3,719
Tolls paid	2,466
	£76,413
Deduct—The increase in miscellaneous expenses	£1,898
And loss by fire at Point St. Charles	2,465
	4,363
Total decrease	£72,050

The reduction is equal to 8 per cent. on the working expenses of the corresponding period of 1874, as against a loss of gross receipts of 7½ per cent. The total expenditure for maintenance of way and stations and for renewals was £255,513. Of this amount £38,290 has been charged against capital, under clause 17 of Arrangements Act, 1873, and has absorbed the balance remaining out of the sum formerly set aside to assist in relaying the line with steel rails, leaving the charge against revenue account £217,223, or 21.21 per cent, against £217,500, or 19.64 per cent., in 1874. Although there has been a slight decrease of £277 in the expenditure, the percentage to gross receipts is increased, owing to the decrease of 7½ per cent. in the gross receipts. The expenditure in this department in the June half of 1875 was exceptionally low, and additional work has therefore fallen to be done in the December half year, which has prevented any important reduction being made during that period. The expenditure charged against revenue account, however, for the whole year 1875 shows a decided economy in this department, as the following figures illustrate:

Expenditure.	1874.	1875.
Half year ending June	£115,879	£65,990
Do. Dec.	217,500	217,223
Total for the year	£333,379	£283,213

or a reduction of £50,166. Up to the end of 1875, 942 miles of main lines and branches had been laid with steel rails, leaving 446½ miles still laid with iron. In addition 17½ miles of sidings and switches have also been laid with steel. In the Locomotive Department the expenses were £262,912, or 25.69 per cent. of the gross receipts, against £294,290, or 26.58 per cent., in 1874, showing a decrease in expenditure of £31,377. The principal decreases were in wages, £5,147, and in fuel, £16,578. The reduction in the latter item was principally in the cost, as there was a slightly larger quantity used. A very satisfactory feature in the accounts is, that although there has been an increase of £3,140,337 car miles, or 4½ per cent. as compared with 1874, there was a decrease in the mileage of all sorts run by engines of 498,000 miles, or 8 per cent. The Executive have been enabled to make this important economy of engine power, partly by the increased capacity of the new engines supplied on the change of gauge, which have hauled a larger number of cars to a train, but in a great measure it is one of the results of the change of gauge itself, which has reduced greatly the amount of shunting required at junctions and stations; the decrease of engine miles under this head being 203,000 miles. The expenditure in the Car Department has been £70,527, or 6.89 per cent. of the gross receipts, against £83,215, or 7.52 per cent., in 1874, resulting in a decrease of £12,688. The cost of repairing and renewing cars was .496 cents against .613 cents per car mile, and 8.19 cents against 9.74 cents per train mile in 1874. The traffic expenses were £203,916, or 19.90 per cent. of the gross receipts, against £229,760, or 20.75 per cent. in 1874, showing a decrease of £25,844, or 11.25 per cent. in traffic expenses, against a decrease in the gross receipts of 7.53 per cent. With two slight exceptions, there has been a reduction in every item, and the following shows the reduction in each, viz:

Salaries and Wages (Passenger Department)		£7,476
Salaries and Wages (Freight Department)		8 175
Lights, Lamps, and Signals		1,428
Oil, Tallow and Waste		2,170
Small stores		249
Compensation for damages		1,522
Cattle killed		369
Office expenses, &c		125
Fuel for stations and cars		242
Expenses of agencies in United States and Canada		3,735
Salaries of clerks in Audit Office		34
Expenses of ferries and ferry boats		477
		£25,997
Deduct increase in items for Stationery, &c	£74	
Expenses of agencies in Europe	78	153
Total reduction		£25,844

This important reduction has been made in the face of an increase of 59,000 tons of freight carried, and of 3,140,000 car miles run during the half year, and would appear to warrant the statement that every effort is being made by the executive to reduce expenditure. The expenditure under the head of general charges was £18,523, or 1.81 per cent. of the gross receipts, against £18,565, or 1.68 per cent. in 1874, showing a decrease of £42, but which, owing to the loss of gross receipts, reaches a higher percentage than in the corresponding half year of 1874. The principal items showing an increase are the expenses of the London office, caused by the payment of a claim for several years' local taxes made by the owners of the company's London premises, and that of stationery, etc., arising from the necessity of replacing documents, forms, and statistics destroyed by the fire which occurred at the general offices of the company in March, 1875. There have been satisfactory reductions in the items of traveling and incidental expenses and law and notarial charges. The miscellaneous expenses and the proportion charged against the half year for loss by the fire at Point St. Charles are the two general heads of expenditure which show an increase as compared with 1874. The increase on the first head is £1,898, consisting of increased school and municipal taxes, £794—charges continually increasing—fire insurance and guarantee premiums, £493—precautions against sudden loss rendered necessary by increasing business—and the company's subscriptions to the employes' superannuation fund, sanctioned by the Act of

1874, £611. A similar charge for the loss by fire at Point St. Charles will be made half-yearly until the whole loss has been cleared off, which it is estimated will be done in about two years. The rent of rolling stock has been £10,981, or 1.08 per cent. of the gross receipts, against £14,700, or 1.32 per cent. in 1874. The decrease has amounted to £3,719, and has been entirely brought about by the care of the executive to use to the fullest extent the rolling stock of the company. In the tolls paid there has been a reduction of £2,466 which includes the rent formerly paid for the Toronto station, now owned by the company, and the reduction in the interest paid on the International Bridge capital brought about by the repayment of bonds on 1st July last. The receipts in the United States currency were $3,482,000, of which $837,500 was converted into gold, entailing a loss of £22,489, against £19,785 in 1874, being an increase of £2,704. Gold fluctuated during the half year from 111¼ on July 23 to 117¼ on October 5, and the average was about 114¼. The total addition to capital account during the half year was £41,475. The actual expenditure, however, as shown in the account No. 5, was £102,665, the principal items of which were for new works, &c., £45,839, and for the balance chargeable against capital for the cost of steel rails, £38,290; but from this expenditure there falls to be deducted the reduction in the nominal amount of capital caused by the conversion of the mortgage to the Bank of Upper Canada into 5 per cent. perpetual debenture stock, referred to in the next sentence. The mortgage above referred to, for £221,190 6s, bearing interest at 4 per cent., was converted by arrangement with the holders into £160,000 of the 5 per cent. perpetual debenture stock, resulting in a saving in interest of £840 per annum, and reducing the nominal amounts of capital raised, as shown in account No. 4, by £61,190 6s. At the end of 1875 the total amount of debenture stock raised for the extinguishment of pre-preferences, scheduled in the Act of 1874, was £460,000, and for general purposes £600,000, making the total issue of this stock £1,060,000. In the general balance (account No. 13) the principal asset is under the head of stores, fuel, old materials, etc., which amounts to £590,000, and the following shows the details, viz:

Steel rails	£123,000
Old rails and materials	102,000
Cost of converting trucks, etc	92,000
Fuel	200,000
General stores	73,000
	£590,000

The steel rails will be charged against the revenue account, as they are required for the renewals and repairs of the line, and the old rails and materials are being sold whenever an opportunity offers. The cost of converting the broad gauge trucks to narrow gauge will be charged half yearly against the revenue account until the whole amount has been cleared off. The large amount of capital thus locked up has rendered it necessary since the close of the half year to issue a further amount of debenture stock. In reviewing the events of the whole year of 1875, the proprietors cannot fail to observe that the company has passed through a period of great difficulty and anxiety. Up to the close of 1874 the gross receipts had shown uniform improvement, even when the traffic of neighboring lines was showing, in diminished receipts, the effects of the depression in trade, and depreciation of rates; but from the beginning of 1875 and throughout the whole year, the weekly traffic receipts have shown nearly continuous decreases. The loss of gross receipts from all sources during the year has been £190,000 or an average of £3,650 per week; as this loss was caused entirely by lower rates, the company have been compelled to do an increased business at a lower rate of remuneration. In thus referring to the events of the year 1875 it is satisfactory to be able to point out that some improvement is now manifesting itself in the affairs of the company. Since the close of 1875 down to the present time there has been a substantial addition to the gross receipts; the freight rates are on the whole somewhat higher, and the supplies of fuel and other stores for the year 1876 7 are being now obtained at still further reductions. The directors who retire by rotation, Sir James Ramsden, Mr. Kirkman D. Hodgson, M. P., Mr. Grosvenor Hodgkinson, and Captain Tyler offer themselves for re-election.

On behalf of the Board.
RICHARD POTTER, President.

☞ Regular trains commenced running on the Scioto Valley Railroad between Columbus and Circleville on the 1st inst. Work on the road below Circleville is being pushed rapidly. The track is now laid to a point about nine miles from Chillicothe. The road is being ballasted as fast as the track is laid. The managers feel that they have plenty of room to complete the road to Chillicothe, as promised, by the first of June.

Statement of the Public Debt of the United States, May 1, 1876.

DEBT BEARING COIN INTEREST.

BONDS ISSUED TO THE PACIFIC RAILROAD COMPANIES INTEREST PAYABLE IN LAWFUL MONEY.

	Amount Outstanding.	Accrued Interest not paid.
Central Pacific bonds, 1862-64	$25,885,120 00	$517,702 40
Kansas Pacific bonds, 1862-64	6,303,000 00	126,060 00
Union Pacific bonds, 1862-64.	27,236,512 00	544,730 24
Central Branch Union Pacific bonds, 1862-64	1,600,000 00	32,000 00
Western Pacific bonds, 1862-4	1,970,560 00	39,411 20
Sioux City and Pacific bonds, 1862-64	1,628,320 00	32,566 40
Totals	$64,623,512 00	$1,292,470 24

Interest paid by United States, $30,141,513 06; interest repaid by transportation of mails, &c., $6,787,672 43; balance of interest paid by United States, $23,353,840 63.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, April 29, 1876.

B. H. BRISTOW,
Secretary of the Treasury.

☞ The new U. States Five per cent bonds recently sold by the Secretary of the Treasury were with interest from May 1—that is to say, with the May coupon (or interest up to May 1) of 1¼ per cent cut off. The equivalent in gold of that days' market price (118¾) is 105 32 gold, or, deducting the 1¼ per cent accrued interest, 104 07.

☞ At a meeting of the Directors of the Wisconsin Midland Railway Company, at Oshkosh, a resolution was adopted providing that the road be divided into three divisions, the first extending from Oshkosh to Portage City; the second from Portage City to Mineral Point, and the third from Mineral Point to Dubuque.

☞ The Ohio State Journal says that the directors of the Springfield, Jackson and Pomeroy Railroad company are reletting the road, and have contracted with R. S. Winne to build the bridge across the Scioto river. In ten days they will have under contract nearly all the line.

☞ The Loughridge air-brake has been attached to the eight new cars recently purchased by the Western Maryland Railroad.

☞ The Chief Engineer of the Miami Valley Narrow Gauge company is now locating the road between Lebanon and Xenia.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, May 6, 1876.

Financial and Commercial Affairs.

Money has been in liberal supply all through the week, and quoted quite easy for all responsible borrowers on the basis of 3@4 per cent on call, and 4½@6 per cent per annum on strictly choice to prime mercantile credits. The Treasury operations of the week did not seriously affect the market, which was also undisturbed by any unusual inquiry for aid, in the financial line, either for speculative or legitimate business purposes. The U. S. Sub Treasury gained largely in the specie line, chiefly through receipts of coin on account of the Geneva award five per cent Bonds sold last week. The currency balance of the office was slightly reduced. The City Banks in their last weekly exhibit, indicated an increase of over 1½ millions in the legal tender average, while reporting a moderate loss of specie and deposits, and a diminution of the loan and discount item. The circulation was enlarged, a trifle. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4 125,000. The City Banks have had their deposits reduced $733,200; and their legal tender reserve increased $1,692 500. The specie average has been cut down $1,000,700. The loan and discount item was contracted $1,635,-200. The circulation was increased $30,800. The U. S. Sub Treasury in this city closed the week with a currency balance of $35,669,940 against $35,930,409 the preceding week; and a coin hoard of $52,880,117 against $46,696,019 on the previous return. The City bank exchanges in currency reached $370,725,103, or a daily average of $61,287,517. The customs revenue of the port

during the week was $1,774,000. The City banks reported their average of gold last week at $17,076,000, and their greenback average at $43,089,300. Their deposits stood at $202,529,000. The loan item was $252,117,200. The circulation was $16,282,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $9,533,625, as against $8,658,500, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, April 1st was $411,456,078. The outstanding amount of legal tender notes is $370,596,038. The National bank circulation is now $336,986,566, including $2,098,690 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $5,965,621; special deposit of legal tenders for the redemption of certificates of deposit, $34,280,000; Coin, $73,756,794; Coin certificates, $27,975,700.

The week's import entries of Foreign Merchandise at New York were $5,092,609, including $1,183,914 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 95 millions; and from Customs, 127½ millions.

The U. S. Sub Treasury at this port disbursed in April $30,213,407 on all accounts against receipts of $37,546,351 from all sources. The customs revenue at this port in April was $9,791,633 against $7,950,868 same month last year.

The last public debt statement indicated a further liquidation of $2,781,181 in April, bringing the aggregate indebtedness, less the cash in the Treasury, on May 1, 1876, down to $2,707,938,258. The reduction in the net aggregate indebtedness, during the ten months ending with May 1, 1876, was $20,750,467, or equal to $2,075,046.

Gold has been quoted weaker in price on a freer offering. The speculative demand has been more active, especially toward the close, leading to more firmness in the price on the later dealings. The customs drain has been moderate and the export movement light. Of the $6,105,000 gold sold last week by the Treasury Department, as representing the proceeds of the sale of the Geneva award bonds $4,855,000 had been taken up by the purchasers and placed on the market up to the afternoon of Tuesday. The extremes of the price during the week have been 112⅛@113, closing on Wednesday at 112⅞, as against 112⅝ on Wednesday of the preceding week. The specie outflow last week was $523,995, against $762,289 the previous week. The imports of specie at this port last week were $62,598, and since January 1st $1,546,529 as against $5,593,610 same time last year. The customs demand for gold last week averaged $295,667 per day. Foreign Exchange has been quoted higher, and moderately sought, after closing firmly. Bankers sixty day bills on London closed on Wednesday at $4 87⅛@$4 88⅛ sight bills on London at $4 89⅛@$4 90⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $3,589,300. The week's imports of Dry Goods and general merchandise were to the specie value of $5,092,609 as against $4,744,842 the corresponding week of 1875.

Government Securities have been quite freely purchased on investment account at generally firmer prices. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $346,775,350.

U. S sixes of 1881 closed on Wednesday of this week at 122⅝@122⅞; U. S. Five-Twenties of 1865, (ex May 1 coupon), at 114⅝@114⅞; U. S. Five-Twenties of 1865, consolidated, 119@119¼; U. S. Five Twenties of 1867, 121¼@121½; U. S. Five-Twenties of 1868, 122¾@123; U. S. Ten-Forties at 118¾@119; U. S. Fives of 1881, (Funding Loan) 117½@117¾; Six per cent. currency Sixes, 126½@127.

State and Railway bonds have been in fair demand on investment account at however irregular prices. And in the line of Railway and Miscellaneous share property business has been fairly active at however depressed and unsettled prices, closing feverishly, influenced by various rumors, circulated in the interests of the speculative operators.

General business has been on a moderate scale, with Breadstuffs, Provisions and Cotton quoted lower. Foreign merchandise, without much animation. Metal trade quiet. Eglinton Pig Iron quoted here at $27@$28; Glengarnock $29@$30; Coltness $30 50@$31; No. 1 American Pig at $22@$23; No. 2 do. at $20@$21; Forge, $17 50@20; American Rails at works, $40@$45; Old Rails $22 50@$25. Wrought Scrap, $30@$31. Ocean freights have been active and quoted higher especially for Grain room on berth and charter. Room for Grain, Provisions and Petroleum, particularly for Grain and Provisions, in most demand.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Cedar Falls and Minnesota 1st mort., 86; Indianapolis, Bloomington and Western 1st mort., 32½; Peninsula 1st mort., 101; Rome, Watertown and Ogdensburg 7s, consol., 90; Albany and Susq. 3d mort., ex. int., 101; Long Island R. R. 1st mort., 100½; Houston and Gt. Northern 1st mort., with int. certif., 65; Missouri, Kansas and Texas R. R, 12; do. cons. S. F. bonds, ex coupon, 62; Canada Southern 1st mort., coupon on, 64; Dubuque and Sioux City R. R., 29@30; George's Creek Coal, 140@145; Atlantic Coal, 2.05@2.10; Canton Co., 36@45.

Interest and Dividends.

The Boston and Albany Railroad Company has declared a dividend of $5 per share, payable May 15.

The Highland Street (Boston) Railway Company has declared a semi-annual dividend of 4 per cent., payable May 1.

The Pennsylvania Railroad Company has declared a quarterly dividend of two per cent, payable May 29.

The Catawissa Railroad Company has declared a semi annual dividend of three and a half per cent, on the preferred stock, payable May 5.

The New Bedford Railroad Company has declared a semi-annual dividend of four per cent., payable May 1.

The Seaboard and Roanoke Railroad Company has declared a semi-annual dividend of four per cent, payable May 1.

The Middlesex Horse Railroad Company has declared a semi-annual dividend of $3 per share payable May 15.

The Pullman Palace Car Company has declared a quarterly dividend of two per cent, payable May 15.

The Somerville Horse Railway Company has declared a semi-annual dividend of three per cent, payable May 1.

The Boston, Concord and Montreal Railroad Company has declared a dividend of three per cent on the preferred stock, payable May 15.

The Boston and Providence Railroad Company has declared a semi-annual dividend of four per cent. payable May 15.

The Cincinnati, Sandusky and Cleveland Railroad Company has declared a semi-annual dividend of three per cent on the preferred stock, payable May 1.

☞ The laying the third rail on the Erie Railway between Buffalo and Waverly is rapidly approaching completion, and it is thought that it will be accomplished during the present month. By a recently invented device it is said that both narrow and broad gauge cars can be run on a track provided with a third rail. If this should prove to be possible, cars of the Erie and Lehigh Valley Roads will be run in the same train, by which means a great saving both in fuel and labor will be effected.

☞ The Baltimore and Ohio Railroad Co. withdrew its engines and cars from the Valley Railroad, between Staunton and Harrisonburg, Va., on the 29th ult., the arrangement by which the Baltimore and Ohio Company had been operating the Valley road having terminated on the 1st of May by a resolution of the stockholders' meeting at Staunton, Va., on the 15th of March.

☞ Five hundred shares of the Fitchburg Railroad Company were sold at auction on the 29th ult. by order of the Board of Directors, the same being the balance of the company's capital stock of $4,000,000. The stock was sold in blocks of from twenty-five to fifty shares. The first block was sold for $125½ per share, from which figure the price fell to $124.

☞ The ceremony of laying the first rail and driving the first spike on the main line of the Columbus and Toledo railroad, took place at Delaware, Ohio, on the 29th ult.

PROPOSALS

ARE INVITED FOR

$1,500,000

City of Cincinnati

MUNICIPAL GOLD BONDS

of $1,000 EACH, bearing SIX PER CENT INTEREST payable semi-annually May 1 and November 1, the principal maturing in 1905; both principal and interest being payable in U. S. GOLD COIN, at the AMERICAN EXCHANGE NATIONAL BANK in NEW YORK (or at the option of the holder, at the agency of the city, in LONDON, at the rate of one pound sterling to five dollars gold). These bonds are authorized by an act of the Legislature of the State of Ohio passed February 24, 1876, and were confirmed by vote of the people of the City of Cincinnati of 21,433 out of a total vote of 30,756, and by a resolution of the city Council, as provided by law. The bonds are PURELY MUNICIPAL IN CHARACTER; they are secured by the entire taxable property of the city, amounting in assessed value to $184,498,565, as well as the real estate owned by the city, valued at $22,000,000, exclusive of the Southern Railroad, for the completion of which they are issued.

MUNICIPALITIES in the State of Ohio are now authorized by law to provide for the conversion of their Coupon Bonds into Registered Stock.

The undersigned will receive sealed proposals at the

AMERICAN EXCHANGE NATIONAL BANK

until May 16, at noon, for any part of the above Bonds.

Bidders will state the exact amount of Bonds wanted, and no bid less than 103 PER CENT and accrued interest will be considered; the undersigned reserving the right to make pro rata awards in case the total amount bid for exceeds the amount offered, awards to be first made to the highest bidders.

Awards will be made May 16, and the bonds will be ready for delivery and payment May 20.

KUHN, LOEB & CO.,

Bankers, 31 Nassau Street.

New York, May 1, 1876.

☞ At a meeting of the directors of the Manchester and Keene Railroad, held at Keene, N. H., on the 20th ult., it was decided to begin the construction as soon as Engineers can prepare the line for the contractors on the route already located.

☞ Samuel C. Lawrence, President of the Eastern Railroad, has asked the Supreme Court to appoint trustees of the road under the new law, and a hearing will be given May 10.

☞ The formal opening of the Centennial Exposition at Philadelphia will take place May 10.

Copper Falls Mining Co.

At a special meeting of the stockholders of this company held in Boston on the 29th ult., on motion of the Treasurer, O. B. Cook, Esq., it was voted to increase the capital from $500,000 to $1,000,000, in accordance with the provisions of the mining laws of Michigan, and to raise the par value of shares from $25 to $50. It is understood that the assessments already laid upon the stock amount to $24 75, and the action of the stockholders in increasing the capital was the only course for them to pursue to prevent the entire property of the company from falling into the hands of its creditors. The financial condition of the company on the 1st of April, 1876, was as follows:

ASSETS.

Cash in bank		$2,743 33
Cash at mines		59 77
Accounts receivable		1,658 16
Supplies at mine		37,897 14
9690 lbs. minerals at Detroit		1,353 00
8300 lbs. minerals at mine		1,218 00
		$44,929 40

LIABILITIES.

Drafts in transit	$3,525 24	
Accounts payable at mine	5,064 24	
Loans and accounts payable at Boston	28,331 81	
		36,921 29
Balance of assets over liabilities		$8,008 11

☞ The monster rifled gun which arrived at Philadelphia from Germany on the 24th ult., by the steamer Essen, and which is a portion of the exhibit made by Fried. Krupp, the great iron master of Essen, Germany, was to have been transported to Machinery Hall this week. It is 33 feet long, and the riffled bore is 26 feet in length and 14 inches in diameter. It carries a projectile weighing 1600 pounds. The carriage upon which it will be mounted weighs 35 tons, and the gun itself weighs over 62 tons. It will be raised from the vessel and placed on a sixteen-wheeled gun truck, the property of the Pennsylvania Railroad Company, built especially for carrying heavy ordnance. Mr. Alfred Nonne, an engineer connected with Mr. Krupp's works, has charge of the transportation.

☞ A Toronto Globe Dispatch from London, dated April 28th, says that the half-yearly meeting of the Grand Trunk Railway Co. was held that day, some two hundred shareholders being present. The president referred, as the main feature of the director's report to the reductions in working expenses, and stated that the calculations of the officials in Canada were that the returns of the next three years would, after providing for the maintenance of the road, pay the interest on the first preference stock. He stated that the Grand Trunk and the Great Western were anxious to agree on a settlement of rates, and that reasonable terms would be accepted if the Canadian Government desired to acquire any portion of the line. The report was adopted unanimously.

☞ The Santa Cruz Railroad Company have a large force of men engaged in grading and track laying in the vicinity of Watsonville, and should no accident intervene to delay the work, trains will be running into Watsonville by the 6th of May.

The Revere and Everett Railroad.

The Selectmen of Revere gave a hearing yesterday upon the proposed Revere and Everett narrow gauge railroad. The route accepted commences at the Revere Beach Railroad, at Beach street, Revere, keeping to the north of Beach street, Broadway and Mountain avenue at grade. Thence entering Chelsea, it will cross Washington avenue at grade; thence passing westerly into Everett. Crossing Woodlawn avenue at grade, it will form a junction with the proposed Boston, Lawrence and Haverhill and Boston, Everett and Malden Railroads, near the corner of Nichols and Ferry streets, Everett. The length of the route is about three miles, and the estimated cost is about $50,000.—*Boston Journal, Apl.* 29.

☞ The Moxahala tunnel, on the Atlantic and Lake Erie Railway, is 920 feet through solid rock. The approaches are about 2500 feet in length, mostly all rock. The contractors will use steam drills and other improved appliances, and there will be no further delay on this part of the work.

☞ The first ground was formally broken and work commenced on Thursday in the construction of the Cincinnati, Batavia and Williamsburg railroad.

☞ The North High Street Railroad Company of Columbus, Ohio, was incorporated on the 28th ult. by John G. Mitchell and others. Capital stock, $30,000, in shares of $50 each.

ABSOLUTE SAFETY
AT
SEA!
LIFE SAVING SUITS
FOR
Ocean Travel.

The Continuous Disasters at Sea

and the almost countless lives that have been lost, urge the introduction of more effective appliances for saving life than have yet been generally adopted. In response to the great public demand, the American Life Saving Suit Company now presents a

Practical Life-Saving Suit.

This suit having been tested and approved by the most scientific and practical authorities, we now offer as a means of absolute safety from death by drowning. The invention now offered claims its superiority over all similar inventions, in that it floats the body in a vertical position in the roughest sea, preserves the natural caloric of the body for any number of days, with capacity for carrying provisions for ten days; and signals to attract attention from passing vessels.

This suit embodies three principles, which are imperative in a life-saving dress:

First—A buoyancy which supports the body in a vertical position, and maintains it as from a natural law.

Second—Protection from water and weather, and consequent chill.

Third—A commissariat department, to which is attached signals, with capacity for carrying valuables, etc., etc.

This suit is put on over ordinary clothing except shoes and hat, and can be put on inside of five minutes, and is let to passengers on transatlantic steamers at the low price of FIVE DOLLARS A TRIP.

"This life-dress is one of the most valuable inventions—perhaps *the most valuable*—to be found anywhere. It is an absolute preserver of life in the event of wreck or fire or any form of sea-accident, by which the vessel is destroyed. Had the *Schiller*, or any of the lost fleets of past years, been amply provided with these suits, no one life—except, perhaps, some infant's—need have been lost. Scarcely one of all the ships which in the past have sailed silently away and have never afterwards furled their wings and come to the shore again, would have gone down unstoried, with no survivor left to tell the dismal tale of collision, of ice-pack, of breakers, of hidden rock, of fire, or of destructive gale, had each and all borne these suits as a part of the outfit. With the history of the past strewn with wrecks of preciously freighted ships, who shall say that any device which robs shipwreck of its chief terrors, is not one of vast importance and priceless value?"

This Company also own THE BEST LIFE PRESERVER IN THE WORLD—*can be adjusted in one second.* It can be carried in the pocket. No person traveling either on the lakes, or river steamers, should be without one.

Call and see both the above, or send for pamphlet.

THE AMERICAN LIFE-SAVING SUIT CO.,
No. 14 New Church St. (Near Dey),
NEW YORK.

Atlantic and Pacific Telegraph.

The following gentlemen have been elected trustees of this company for the ensuing year: Oliver Ames, Elisha Atkins, Benjamin E. Bates, Albert B. Chandler, F. Gordon Dexter, Sidney Dillon, G. M. Dodge, Thomas T. Eckert, Jay Gould, William H. Guion, C. P. Huntington, Christopher Meyer, S. M. Mills, J. H. Mortimer, C. J. Osborne, G. G. Sampson, James D. Smith, W. J. Syms, Henry M. Taber. The annual report shows that the receipts from messages were $386,826 97 and the operating expenses, including supplies and line material for repairs, $396,399 75, leaving a deficit of $9,572 78. The gain in receipts over 1874 was $24,545, notwithstanding the loss of Signal Office patronage, the Southern connection and the reduction in rates. The increase in expenses is accounted for by the extensive and necessary repairs of lines. During the year 471 miles of poles and 1,466 miles of wire were put up.

The company, including leased and connecting lines, has 30,000 miles of wire and 1,426 offices. The liabilities of the company amount to $279,204 83, and the assets $315,300 59, leaving a surplus of $36,095. The president, in alluding to the reduction in rates, states that it has resulted in an increase of 23 per cent in the volume of business, and 17 per cent on the cash receipts, without any increase of expenses. The president proposes to continue the policy of reducing rates.

☞ At the annual meeting of the stockholders of the Central Ohio Railroad Company, held at Columbus, Ohio, on the 26th ult., the following gentlemen were elected directors for the ensuing year: Hugh J. Jewett, New York; Joseph R. Swan, Columbus; William Dennison, Washington City; Isaac W. Hall, Quaker City; Daniel Applegate, Zanesville; John King, jr., Joseph H. Reiman, Joseph W. Jenkins, Walter B. Brooks and Joshua G. Harvey, Baltimore; W. C. Quincy, Newark; William H. Clement, Morrowtown, and Joseph B. Ford, Wheeling.

☞ The Supreme Court of Ohio has decided that where a railroad company sold a ticket, which entitled the purchaser to ride upon its cars a certain number of times within a given period, for a price below the usual rate of fare, which ticket specified upon its face that it was only good during such period, the purchaser, having failed to ride the specified number of times within the period named, is not entitled to ride upon such ticket after the expiration of the period.

☞ House bill No. 649, a supplement to Railroad Corporation act, approved April 4th, 1868, authorizing companies to organize for building of railroads not over fifteen miles in length, when $2000 per mile is subscribed and 10 per cent. paid in, was considered and passed third reading in the Pennsylvania State Senate on the 1st inst.

☞ The ship canal from Port Colborne, on Lake Erie, to Port Dalhousie, on Lake Ontario, will have twenty two locks, 270 feet between gates forty feet wide, with fifteen feet of water. It will take about two years to complete the work.

☞ Joseph H. Chadwick of Boston, Thomas Talbot of Billerica, and Charles L. Wood of New Bedford, have been elected State Directors of the Boston and Albany Railroad Company.

Oil Creek and Alleghany River Railroad.

The earnings of this road for the year ending December 31, 1875 were $809,796, the expenses (including State and municipal taxes) $570,876, and the net earnings $238,920. For the year 1874 the earnings were $846,851, the expenses $562,-119, and the net earnings $284,732—showing a decrease in earnings of $37,055, with an increase in expenses of $8,756, making the decrease in net earnings $45,812. The number of passengers carried in 1875 was 241,516; do. carried one mile, 4,260,647. Tons of freight carried, 789,711.

☞ The directors of the Nevada County Narrow Gauge Railway have accepted as completed from the contractor, that part of the railroad which lies between Colfax and the depot of Grass Valley. Regular freight and passenger trains commenced running over that portion of the road on the 17th ult. The Grass Valley Union says that the road as far as completed is in most excellent condition and rapid transit can be made over it. Work of finishing the road between Grass Valley and Nevada city is being forwarded with all possible speed. The "last spike" ceremonies will soon take place at Nevada.

☞ At a recent meeting of the stockholders of the Des Moines, Winterset and Southwestern Railroad (Winterset Branch of the Chicago, Rock Island and Pacific Railroad), C. D. Bevington, B. F. Allen, J. J. Hutchins, H. F. Royce, F. R. West, Thomas S. Wright, C. H. Garch, B. F. Murray and N. W. Munger were elected directors. The directors elected the following officers: President, C. D. Bevington; vice president, F. R. West; treasurer, W. W. McKnight; secretary, H. F. Royce; executive committee, B. F. Allen, C. D. Bevington, F. R West.

☞ Chief Engineer Heywood of the Boston and Albany Railroad, with Jonas Livingston, President of the Monadnock Railroad, and other prominent railroad men, have arranged to pass over the route of a proposed connection between Peterborough and Hillsborough, with reference to building, at an early day, this link of road of eighteen miles, to complete a connection between Concord, N. H., and Worcester and Springfield, Mass. It will be an easy route to construct.

☞ The report of the board of audit of the District of Columbia recently laid before Congress exhibits a total of $14,800,611 as the debt of the District, not including the former funded debt, nor the cost of work done but not reported by the commissioners or engineer of the District, of which the board of audit have no official knowledge.

☞ The St. John News says that work on the North Shore and Salisbury Junction Railway was commenced on the 15th ult. About twenty-five men were employed clearing out the road, and it is proposed to commence grading as soon as the frost leaves the ground.

☞ The South Pacific Coast Railroad Company, building a narrow gauge road from Dumbarton Point, on the east side of the bay of San Francisco, to Alviso and Santa Cruz are pushing the work. One hundred men are now preparing the road bed and laying down ties. The iron for the track is on the way, and a fast and stanch steamer, 280 feet long, has been contracted for, and it is fully expected that the road will be finished from Dumbarton to Alviso by the 1st of June.

☞ Surveys are soon to be made for a railroad between North Attleboro', on the Boston and Providence Railroad, and Millbury Junction, on the Boston and Albany Railroad, a point within five miles of Worcester. This new route will pass through the towns of Wrentham, Franklin, Milford, Upton and Grafton, and will constitute a new line between Worcester and Providence, not many miles longer than the Providence and Worcester Railroad.

The Coal Trade.

The return of the trade from all the regions for the week ending the 22d ultimo foots up 453,124 tons, against 280,644 tons for the corresponding week last year, showing an increase of 172,480 tons. The total amount of anthracite mined for the year is 4,065,291 tons, against 3,408 050 for same period last year, an increase of 657,241 tons. The quantity of bituminous coal sent to market for the week was 64,285 tons, against 62 958 tons for corresponding week last year, an increase of 1335 tons. The whole bituminous tonnage from the beginning of the coal year is 912,638 tons, against 825,738 tons in corresponding time last year, an increase of 83,900 tons. The total tonnage of all kinds of coal for the week is 517,409 tons, against 343,602 to corresponding date last year, an increase of 173,807 tons, and the total tonnage for the coal year is 4,977,929 tons, against 4,233,788 tons to same date last year, an increase of 744,141 tons. The quantity of coal and coke carried over the Pennsylvania Railroad the last week was 104,091 tons, of which 85,049 tons were coal and 19,042 tons coke. The total carried this year is 1,036,001 tons, of which 847,990 were coal and 188,511 coke. This total embraces all the coal carried over the road, east and west. At Port Richmond for the week ending on the 29th ultimo there were receipts of 63,500 tons of coal and shipments of 50,500 tons, leaving 162,000 tons on hand. We continue to quote freight charges to New York at 85 cents, Providence at $1 20@$1 25 and to Boston at $1 35@$1 40 per ton. At Perth Amboy for the week ending on the 26th ultimo the receipts of coal were 26,897 tons and the shipments 12,060 tons, leaving 110,163 tons on hand. Freights to Boston, $1; New Haven, 65 cents; Hartford, $1 05; Providence, 85 cents.—*Phila. Ledger, May* 1.

☞ A private telegram from Davenport, Iowa, says Judge Dillon has issued a decree transferring the Missouri, Kansas and Texas railroad from the hands of Wm. Bond, receiver, to the Union Trust Company of New York, and appointing Wm. Bond its general manager.

☞ The Toledo Journal says that the Columbus and Toledo Railroad, which connects with the Columbus and Hocking Valley Railroad, will be completed so as to allow trains to run into Toledo by the first of January, possibly by December.

☞ The distance between Yreka and San Francisco, Cal., is 425 miles, 111½ of which is traveled by stage, and the balance by rail.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, May 13, 1876.

Narrow Gauge Engine for the Centennial.

A correspondent of the Buffalo Courier, writing from Dunkirk, under date May 8, 1876, after discussing the merits of the different gauges—the broad, the ordinary (or 4 feet 8½ in.), and the narrow gauge of 3 feet in width says:

The first narrow gauge road was begun in this country in 1871, and since that time so rapid has been their construction that there are now in actual operation in the United States eighty-one of them with a total mileage of 1,968 miles. Dunkirk is interested in the three gauges, and is furnishing rolling stock suitable for them.

THE BROOKS LOCOMOTIVE WORKS,

of Dunkirk, with its hundreds of skillful mechanics, has become justly noted for many substantial, well-built engines, turned out during the past five or six years. Engineers throughout the country are earnest in their praises of the Brooks locomotives, deeming them the safest now made.

The shop has just completed twenty elegant looking broad gauge engines for the Erie; it is constantly manufacturing standard locomotives, which are meeting with marked success; and its dummies gotten up for the New York Elevated Railway are as near perfection as they can be. The Brooks Works has also made many narrow gauge engines, the last of which was completed to-day and shipped to the

CENTENNIAL EXHIBITION.

It is what is known as a "Mogul," with six driving wheels, 36 inches in diameter, and cylinder 11 inches in diameter. The boiler, tank, stack, and ash pan are made of steel, from the Otis Steel Co., of Cleveland, Ohio, and the axles and frames are of best hammered iron. The head light and steam gauge were manufactured by the Buffalo Steam Gauge and Lantern Co., and bear evidence of faithful workmanship. The tender and truck wheels, nicely painted and lettered, are from the Ramapo Wheel & Foundry Co., of Rampo, N. Y., and the "Little Giant" injector, nickle plated, was furnished by the Rue Manufacturing Co., of Philadelphia. As the engine is designed for passenger traffic, it is equipped with a Westinghouse Air Brake, and also a West steam bell ringer. The cab is of black walnut, highly polished, and, in a panel, under the window on either side there is a large nickle plate, on which is engraved "Brooks Locomotive Works, Dunkirk, N. Y." The engine weighs 33,000 lbs., and has a tractive power of 750 gross tons, on a level, exclusive of curves.

The tender is beautifully painted. Upon each side of it there is an elegantly executed representation of the coat of arms of the United States, and on each end the coat of arms of New York and Pennsylvania. Hundreds of persons have visited the shop to inspect this engine, and all have been highly pleased with its beautiful appearance.

The engine is to be entered for competition at the Centennial, but instead of being placed in the building, it will be put into actual operation upon the Centennial Narrow Gauge Railway—a road which will be run within the Centennial grounds, and which has the exclusive right of conveying passengers from place to place within the inclosure—not even carriages being allowed inside. Dunkirk's contribution will undoubtedly attract much and merited attention, and we are all in hopes that this great "Mogul" will bring us back a golden medal.

☞ The firm of John Stephenson & Co., of this city, manufacturers of street cars, omnibuses, etc., has been re organized under the title of John Stephenson Co., Limited. The capital and facilities have been largely increased, and the reputation of the concern will be maintained. The members of the new organization are John Stephenson, Leander M. Delamater, Daniel W. Pugh, John A. Tackaberry.

Maryland and Delaware Ship Canal.

The Stockholders of the Maryland and Delaware Ship Canal Company met at No. 52 Lexington street, yesterday, and re-elected the old board of seven directors. The report of Horace B. Tebbetts, of New York, the president, was submitted. It says three years have elapsed since the organization of the company, which has for its object the construction of a ship canal between Chesapeake and Delaware bays, securing a shorter route to the ocean. The estimate for earth excavation was at first $8,000,000, but because of decline in prices of labor in three years the present estimate is $4,000,000. The payment of five per cent. additional on subscriptions is asked to complete purchase of the right of way, and enable the execution of a mortgage to secure the issue of bonds. The report suggests the application for aid in some form to Baltimore and Maryland. It says the commerce of Baltimore would yield 4,000,000 tons of traffic a year, which, at twenty cents per ton toll, would bring a revenue to the company of $800,000. Mr. Tebbetts, annexes extracts from the annual report of the Baltimore and Ohio Railroad Company, and a letter of the late Reverdy Johnson, written in 1874, indorsing the project.—*Balt. Sun, May 3.*

Delaware and Hudson Canal.

At the annual meeting of the stockholders of the Delaware and Hudson Canal Company, held on the 9th inst., the following Board of managers was elected: Abiel A. Low, Robert L. Kennedy, J. M. Halstead, Le Grand B. Cannon, George Cabot Ward, James Roosevelt, James R. Taylor, Thomas Dickson, John Jacob Astor, Thomas Cornell, W. J. Hopping, J. P. Morgan and R. S. Hone. The report which was presented showed that the coal sales for the year amounted to $12,034,986 10. The balance of coal on hand December 31, 1875, was $2,629,042 33.

☞ The Ramapo Wheel and Foundry Company will exhibit at the Centennial a series of truck wheels of all sizes used in this country, from 24 to 42 inches, in one group; the standard wheels and axles as adopted by the Master Car Builders; the standard horse car wheels of this country; a new pattern of truck wheel, now exhibited for the first time, with hollow hub and tread and solid spoke; the standard metre-gauge wheel of this and all other countries; samples of Richmond and

Salisbury ores and pig iron, and sections of wheels which have had their strength and density tested by the U. S. Government; a set of wheels which have run a long distance under Pullman Palace cars and a truck wheel that has been under a "Mogul" engine of forty tons for four years.

Lake Shore and Michigan Southern Railway.

The earnings of this road for the years ending December 31, 1874 and 1875, were as follows:

	1874.	1875.
From freight	$11,918,349 78	$9,639,038 14

Other liabilities reduced		711,258 55
Securities taken under traffic agreement with connecting roads, etc.		74,308 67
Total, as above		$1,417,287 09

Compared with the previous year, the gross earnings of 1875 show a decrease of $2,711,932, with a decrease in operating expenses and taxes of $620,870 68, making the decrease in net earnings $2,091,061 32. The President in his report says:

The President and Directors of the Lake Shore and Michigan Southern Railway Company submit to the Stockholders the following Report for the fiscal year ending December 31, 1875:

ROAD OPERATED.

The number of miles of road operated in 1875 was the same as in 1874—1,175.39 miles—of which 540.37 are main line, and 635.02 miles are branches and tributary roads. This company owns 1,024.71 miles of railroad, (although 160.11 miles are embraced in three other organizations), and leases 150.68 miles.

Of the 540.37 miles of main line, 230.80 miles are double track, making the main line, reduced to single track, equal to 770.45 miles; and two branches—203.66 miles—are so situated that they, with the main line, form a double line of road between Cleveland, Ohio, and Elkhart, Indiana, (101 miles east of Chicago), making, together, 974 11 miles of railroad, of which 604 miles are laid with steel rail. Contracts have been made for substituting 14,000 tons (150 miles) of steel rails for iron, during the coming year.

The side tracks were increased in 1875 by 17.48 miles, and now amount to 446.70 miles.

The total number of miles of track to be maintained amounts to 1,852.89, the details of which, location by States, etc., will be found in the usual place in this report.

CONSTRUCTION.

This account for 1875 amounted to $275,481 85, as follows:

New side tracks, 17.48 miles	$121,797 73
Ashtabula Harbor—Coal docks, etc.	81,180 03
Real estate	24,293 04
New buildings	90,915 18
Bridge masonry	7,295 87
Total—1875	$275,481 85
" 1874	1,043,723 82
" 1873	2 349,959 84
" 1872	5,504,217 99
" 1871	3,343,393 70
" 1870	1,113,560 90
Total—six years	$13,620,328 10

EQUIPMENT.

But little change was made in the equipment of the road in 1875. Two engines were sold, reducing the number from 497 to 495. Ninety-five cars of various classes were added, increasing the number from 10,442 to 10,537. The amount of this account for 1875 was $95 238 02. For six years, 1870 to 1875, inclusive, $5,904,087 09, for 223 locomotives and 4,739 cars.

The road is equipped sufficiently for a much larger volume of business than it is now doing.

The balance against this company for car service was reduced, as predicted in the last report, from $614,315 86 in 1874, to $428,807 03 in 1875, and a further reduction will be made in 1876.

CAPITAL STOCK.

The capital stock of the company is $50,000,000, to wit:

Guaranteed (10 p. c.)	5,335 Shares.	$533,500
Ordinary	494,665 Shares.	49,466,500
	500,000 Shares.	$50,000,000

Of the guaranteed stock, the claim for dividends between 1857 and 1863 has been settled by compromise on $350,600, leaving $182 900 still unsettled. Dividends of 5 per cent February 1, and 5 per cent August 1, have been regularly paid on this stock since August 1, 1863, the date of the first dividend.

BONDED DEBT.

The bonded debt of the company stood—

December 31, 1874	$36,511,000
December 31, 1875	36,250,000
Decrease	$261,000

This decrease was accomplished by providing for the arrearages of the Sinking Fund of the First General Consolidated Mortgage of $25,000,000. This mortgage provides for a sinking fund of one per cent, or $250,000 per year. This obligation has run for five years, amounting to $1,250,000, and is now entirely fulfilled. This leaves outstanding $23,750,000 of the First General Mortgage debt—including the divisional—or bonds of the different companies embraced in the consolidation, which, at maturity, are to be merged into this debt.

Of the Second General Mortgage of $25,000,000, there are outstanding, including the bonds of 1882, $12,500,000. The entire debt of the company bears interest at the rate of seven per cent (currency.)

EARNINGS.

The results for the six years of this (consolidated) company's existence are as follows:

	Gross earnings.	Operating exp. and taxes.	Per cent.	Net earnings.
	$	$		$
1870.	13,509,235 53	8,368,821 08	61.9	5,140,414 45
1871.	14,898,449 38	9,779,806 23	65.6	5,118,643 15
1872.	17,699,935 28	11,839,525 62	66.9	5,860,409 66
1873.	19,414,509 26	13,746,598 54	70.9	5,667,910 72
1874.	17,146,130 76	11,152,371 56	65.0	5,993,759 20
1875.	14,434,198 76	10,531,500 88	72.9	3,902,697 88

	Interest, leases and dividend on guaranteed stock.	—Dividends.— Amount.	Rate.	Surplus.
1870.	$1,828,897 09	$2,752,360	8	$559,157 86
1871.	2,121,164 70	2,874,355	8	123,122 82
1872.	2,201,459 13	3,466,096	8	192,854 53
1873.	2,654,560 57	1,978,040	4	1,035,310 15
1874.	3,008,192 76	1,607,661	3½	1,377,905 19
1875.	2,810,293 64	989,380	2	103,074 24

An analysis of the decrease in freight earnings, 1875, shows as follows:

Decrease from reduced rates	$1,603,501 47	or 13.45 per ct.
Decrease from reduced business	675,810 17	or 5.67 per ct.
Total decrease	$2,279,311 64	or 19.12 per ct.

The average rates per ton per mile for the past six years have been as follows:

	East-bound.	West-bound.	Both ways.
1870	1.356 cent.	1.882 cent.	1.504 cent.
1871	1.357 "	1.478 "	1.391 "
1872	1.272 "	1.638 "	1.374 "
1873	1.297 "	1.437 "	1.385 "
1874	1.098 "	1.432 "	1.180 "
1875	0.954 "	1.155 "	1.010 "

The bitter conflict with each other, inaugurated by other lines in 1874, extended through three-quarters of the year 1875. Into the sharp competition resulting from this conflict, this company was unavoidably drawn; and to this mainly, aided, however, by the general depression of business, especially the great prostration of the iron and coal business, causes beyond the control of

its management, may be attributed the fact that this company earned but $2 20 per share of stock, against $6 25 per share in 1874.

The average rate per ton per mile in 1875 was, on its entire business, through and local, but one and one-hundredth cents, which is fourteen and one-half per cent below the very low rate of 1874, (1.18.) This difference—.17 of one cent—on the large tonnage moved, resulted in a loss in net earnings of $1,603,501, which is equal to 3¼ per cent upon the capital stock.

No more effective illustration of the excessive depression of the rates of transportation could be given than the following comparison:

	Cents.
Average rate per ton per mile, all freight, 1860	2.292 (gold.)
Average rate per ton per mile, all freight, 1875	1.010 (currency.)
Reduction	1.282 (56 per cent.)

On the other hand, taxes in 1875 have averaged 400 per cent more than in 1860—in some localities as much as 1000 per cent—while the cost of supplies and labor used in operating railroads was no less.

An average rate of one and one-quarter cent per ton per mile—but little more than half (54 per cent) the rate of 1860—in connection with the rigid economy enforced in every department of the road, would give the stockholders of this company dividends at the rate of seven per cent per annum.

The earnings from passengers, as compared with the two preceding years, show the following results:

1875—Moved 3,170,234 passengers, an average distance of 52 miles, at an average rate of 2.38 cents per mile, earning	$3,922,797 88
1874—Moved 3,096,263 passengers, an average of 56 miles, at an average rate of 2.45 cents per mile, earning	4,249,022 37
1873—Moved 2,845,163 passengers, an average of 63 miles, at an average rate of 2.55 cents per mile, earning	4,569,729 74

Decrease in 1875, as compared with 1874, is caused by—

Slightly diminished average rate, (7-10 of one mill)	$115,465 60
Less miles traveled—4 miles per passenger	210,758 89
Total decrease	$326,224 49

It is a gratifying fact that the local business of the road was larger in 1875 than ever before—showing an increase of 67,109 tons freight and 79,328 passengers, in both cases 2.6 per cent over the previous year.

The reduction in earnings from "all other sources," $106 895 87, is more apparent than real, the most of it caused by the receipt, in 1874, of back pay for increased mail service, unduly swelling the mail earnings of that year.

OPERATING EXPENSES.

Operating expenses and taxes, 1875, including 105 miles steel rail	$10,531,500 88
Operating expenses and taxes, 1874, including 78 miles steel rail	11,152,371 56
Operating expenses and taxes, 1873, including 141 miles steel rail	13,746,598 54
Reduction, 1875, as compared with 1874	$620,870 68—5.57 p. c.
Reduction, 1875, as compared with 1873	3,215,097 66—23.4 p. c.

It is expected that 1876 will show a further large reduction in this account, the first quarter of the year being over $600,000 less than the same quarter of 1875.

The expenses for 1875 include the entire cost of 9,962 tons (105 miles) of steel rails. 522,753 cross-ties (185 miles) were renewed. 157 cars of various classes were built and purchased to replace a like number worn out or destroyed.—

The road and equipment have been maintained in all respects, and emerge from the mild winter in excellent condition.

GENERAL REMARKS.

Upon reference to the "Income Account" on a subsequent page, it will be found that the two items, "Discount on Bonds" and "Interest on Floating Debt," which have appeared in that account, in each preceding annual report of this company, and have absorbed so much money, are not there; they have disappeared never to return, it is hoped.

The sale of bonds and increase of debt came to a full stop in 1874. No increase in the aggregate funded debt has been made since the troublesome floating debt, inherited from the previous administration, was extinguished; not only so, but a movement has been made in the opposite direction, by providing for the sinking fund, thus reducing the funded debt.

A noticeable fact shown by this report, is, that after paying every charge against the year 1875, including (by anticipation) the dividend payable February 1, 1876, and satisfying the sinking fund, there remained in the treasury a very considerable balance, applicable to the future. This is the first time that this result has been attained.

The fixed charges against net earnings, which take precedence of dividends upon the capital stock, will be, in 1876, as follows:

Interest on L. S. & M. S. R'y debt, $36,250,000 at 7 per cent		$2,537,500
Interest on D., M. & T. R'y debt, $924,000 at 7 per cent		64,680
Interest on K. & W. P. R'y debt, $600,000 at 7 & 8 per cent		44,000
Dividend on guaranteed stock, $533,500, at 10 per cent		53,350
Rental four branch roads—partly estimated		275,000
		$2,974,530
Less interest and dividends on assets		225,000
Total		$2,749,530

Equal to $229,000 per month.

Mr. Amasa Stone, your managing director, resigned July 1, 1875, on account of ill health and private business. Mr. John Newell, formerly President of the Cleveland and Toledo Railroad Company, (now a part of this road), and later President of the Illinois Central Railroad Company, was, upon Mr. Stone's resignation, appointed General Manager of the line. Great credit is due these gentlemen and their subordinates, for efficiency and economy in operating the road and managing its affairs.

The number of engines on the road December 31, 1875, was 495. Miles run by engines, 11,517,223. Cost of repairs per mile run, 5.67 cents. The cars are classified as follows: first-class passenger 141, second-class and smoking 9, emigrant 26, railroad postal 18, baggage 59, paymasters' 2, express freight 9, box 5,166, stock 1,330, oil 292, platform 1,682, coal 1,397, caboose 249, derrick 9, and dumper 148.

Tons of through and way east bound freight, 3,381,876; do. west bound, 1,640,614—total freight movement, 5,022,490. Tons carried one mile east, 677,979,702; do. west, 265,256,459—total, 943,236,161.

Number of through passengers carried: first-class, 58,225; second class, 6,611; emigrant, 4,101—total, 68,940. Way passengers: first-class, 3,076,497; second-class, 17,423; emigrant, 7,374—total, 3,101,294. Total through and way, 3,170,234. Passengers carried westward, 1,607,456; do. eastward, 1,562,778. Miles traveled by through passengers, 37,227,600; do. way passengers, 127,723,261—total mileage of passenger, 164,950,861.

President.—CORNELIUS VANDERBILT.

First Vice President.—WM. H. VANDERBILT.

Second Vice President.—AUGUSTUS SCHELL.

Directors.—Cornelius Vanderbilt, William H. Vanderbilt, Samuel F. Barger, Augustus Schell, Robert L. Crawford, John E. Burrill, J. Condit Smith, Henry B. Payne, Amasa Stone, William L. Scott, Charles M. Reed, Judah C. Spencer, Albert Keep.

Treasurer.—EDWIN D. WORCESTER.

Sec'y and Ass't Treasurer.—GEORGE B. ELY.

Auditor.—C. P. LELAND.

General Manager.—JOHN NEWELL.

General Superintendent.—CHARLES PAINE.

Great Western Railway of Canada.

The Directors now present the accounts for the half-year ended 31st January, 1876. As was the case last half year, they are rendered in the form prescribed by the Imperial Act for the Regulation of Railways. The figures, throughout, are reduced to a uniform gold equivalent, and therefore do not compare in all respects with those of former half years.

The following summary affords a comparison with the figures of the corresponding half-year of 1875, both being reduced to the same gold basis:

Jan. 31, 1875.		Jan. 31, 1876.
£482,151	Gross receipts	£436,087
358,631	Working expenses, including the transfer to renewal funds, being at the rate of 70.99 per cent., against 74 38 per cent. for the corresponding period	309,567
£123,520		£126,520
26,226	Balance of transfer to renewal funds, change of gauge fund, &c	33,976
£97,294		£92,544

The loss on working leased lines being £10,019, and the charge for the depreciation fund to replace overvalued assets £6,500, there remains £76,025 applicable to interest on bonds and debenture stock. The amount required for this purpose, after deducting the credit balance of the general interest account, is £93,607. The net deficit of the revenue of the half year is therefore £17,582. In the corresponding half year of 1874-5 it was £14,231.

The total overdraft on revenue account at 31st January, 1876, is £159,146, and the accumulated dividend in arrear on the 5 per cent. preference stock is £38,224.

The several renewal and other funds exhibit the following balances on 31st Jan., 1876:

	Credit balance July 31, 1875.	Credit during half-year, including interest.	Balance Jan. 31, 1876.
	£	£	£
Ferry steamers renewal fund	20,210	4,106	24,616
Locomotive do. do.	77,601	12,542	90,144
Car do. do.	5.900	14,317	20,217
Insurance fund	1,667	552	2,209
	105,368	31,517	136,886
Less—Rail and Bridge Fund in Debit	....	Dr.3,320	Dr.3,320
	105,368	28,197	133,566

It may be observed that, but for the requisite transfers to the various renewal funds, the insurance fund, the change of gauge fund, and the depreciated assets fund, amounting in all to £42,150, the half year's revenue would have shown a credit balance of £24,567, after providing for the bond and debenture stock interest.

The gross traffic receipts on the main line and branches (excluding the Galt and Guelph, the Wellington, Grey, and Bruce, London, Huron, and Bruce, and London and Port Stanley railways) amount to £436,087 as compared with £482,151 in the corresponding half year, showing a decrease of £46,064, the detail of which is thus classified:

Decrease in local passenger earnings	£5,368
" through "	17,112
" foreign freight and live stock earnings	39,036
" mails, express freight, & rents	2,608
	64,114
Increase in local freight and live stock	18,050
Total decrease	£46,064

This deficiency in the traffic earnings is chiefly due to the continuance of the very low rates, especially on through business, to which reference was made in the last report. Towards the end of the half year some improvement took place, but too late to bring up the traffic receipts to the former level. The volume of traffic was in excess of that of the corresponding period in 1875 by about 115,000 tons of freight. The President of the Michigan Central railway, in his report of December last, refers to the proceedings of those who forced down the through rates in 1875, and uses these significant words:—"All profit and much more is lost, sacrificed by a competition which really looks more like insanity than the result of any wise consideration of the circumstances." Until within the last few weeks the Directors felt confident that wiser counsels might be expected to prevail for some time, but recent information forbids them to be too sanguine in this respect. All their influence, however, is being, and will continue to be, in favor of peace and good understanding between the competing systems.

The total cash working expenses amounted in the past half-year to £309,567, which is about £49,000 less than in the corresponding period of 1875, notwithstanding some increase in the train mileage. The gross working expenses, including the transfers to renewal and other funds (but not the charge for replacing depreciated assets) amounted to £343,543, or about £41,000 less than those of the corresponding half year. The permanent way and works throughout the Great Western system have been maintained in an unexceptionally good condition. Rather more than 31 miles of steel track have been laid down during the half-year. In the working expenses is included the sum of £7,452, being the balance of the change of gauge account. This account is now finally closed, and there will be no further debit to revenue in respect of it. The total amount borne by revenue from the commencement on July 31st, 1871, is £89,352. The earnings and working expenses, reduced to a similar gold standard, compare as follows for the last four half years:

Half-years ended	Earnings per train mile. s. d.	Cash wkg. expenses, excluding renewal and other funds. Per train mile. s. d.	Per ct. of gross receipts.	Wkg. expns., incldg renwl. and other fds. Per trnin mile. s. d.	Per ct. of gross receipts.
July 31, 1874	6 3¼	5 0	79 38	5 3¼	84.31
Jan. 31, 1875	6 8¼	4 11¾	74.38	5 4	79.82
July 31, 1875	4 11¾	4 6	90.22	4 9¼	95.77
Jan. 31, 1876	5 7	3 11¾	70.99	4 4¾	78 77

The unexpended portion of the earnings in American currency have been converted into gold from time to time at the current rates of the day. The average rate at which the conversions have been effected is 114¾, as against 110¾ in the corresponding half year of 1875.

The working of the leased lines resulted in a balance of loss for the half year of £10,019, or £9,969 less than that of the half year ending 31st July, 1875. The Wellington, Grey, and Bruce railway, after the appropriation of 30 per cent. of the gross earnings under the traffic agreements towards meeting the interest on the bonds of that company, has alone entailed a loss in working of £10,154. The sum equal to 20 per cent. of the earnings derived from additional traffic interchanged with the Wellington, Grey, and Bruce railway, amounting for the half year to £3,900, has to be invested in the bonds of that company.

Reference was made in the last half year's report to the propriety of establishing a fund, based on the train mileage, for the purpose of equalizing the future charge for renewal of steel rails, and for the replacement, in stone and iron, of the present wooden bridges exceeding a certain span. The directors have decided to recommend that this fund should be credited at the rate of cents 7.76 per train mile run, whether on the main line and branches, or on the Galt and Guelph and Wellington, Grey, and Bruce lines. On an average of about 1,900,000 train miles in each half year, this will produce about the sum named in the last report, viz., £60,000 per annum. Three-fourths of this rate (or cents 5.82) will be the charge for the renewal of the rails, and one-fourth (or cent 1.94) for that of the bridges. This computation can be adjusted if experience proves it to be necessary. On this basis, the working of the fund during the past half year leaves the account in debit, on January 31st, 1876, to the extent of £3,320 viz., for the Great Western line proper, £1,882, and for the Galt and Guelph and Wellington, Grey, and Bruce lines £1,438. The other reserve funds have been maintained on the same principle as heretofore, the question of the train mileage charge for the locomotive and car renewals being still under consideration with the auditors. The deficiency in the stock of cars, referred to in the car superintendent's report, was only discovered after the appointment of that officer. The amount required to replace this deficiency will be charged against the car renewal fund.

The cash receipts on capital account for the half year amounted to £65,546 as follows:

SHARE ACCOUNT.

Nominal amount of final instalment on 37,889 new shares issued at the price of £10 for each £20 10s. share	£194,182
Second and third instalments in arrear 31st July, 1875	1,822
	£196,004
Less received on account of final instalment as per last half year's report	15,179
	£180,825
Deduct calls in arrear 31st January, 1876	£4,328
Proportion of discount on final instalment	99,457
	103,779
	£77,046

LESS BOND ACCOUNT.

Balance of 6 per cent. bonds due 15th November, 1873, paid off	500
	£76,546

The charges to capital account during the half year have amounted to £300,102. This sum includes the amount of £99,457, being the balance of discount on the final instalment of the new shares, and £179,509 for investments in the bonds of the London, Huron and Bruce, and Wellington, Grey, and Bruce railways. The balance of £21,136 embraces a transfer to capital account of £3,786 for an expenditure prior to December, 1873, for construction cars and tools, which has hitherto been included in the engineering stores account. The remaining expenditure, amounting to £17,350, is composed chiefly of the proportionate charges to capital for steel rails, and the renewal of wooden bridges in stone and iron. The total capital expenditure to 31st January, 1876, amounted to £9,183,649, leaving a credit balance on that account of £396,947.

GRAND TRUNK RAILWAY COMPANY.

The directors have not yet been able to make as much progress as they could wish in the negotiations commenced last summer for the division of competitive traffic with the Grand Trunk. The resolution of the shareholders, adopted on the 11th November last, confers on the directors all the power which they require; and the general managers of the two companies have held several conferences, and have collected the greater part of the preliminary information. The directors, however, received in January fresh overtures from the Grand Trunk Company, which have led to urther negotiations both here and in Canada; and a proposal, dated the 15th inst., has been made by the directors to the Grand Trunk Board.

DETROIT AND MILWAUKEE RAILROAD COMPANY.

At the date of the last report, the scheme for the reconstruction of this company, initiated by the Committee of London bondholders, had not made much progress. Subsequently, however, a different plan was brought forward by a section of the American bondholders specially interested in the City of Detroit; and the directors of the Great Western suggested that a gentleman in the confidence of the promoters of this plan, should confer in London with the Bondholders' Committee and this Board. It was, however, decided by the

London Committee to send out a representative to America with power to conclude arrangements on the spot, and Sir Charles Young proceeded accordingly to Canada in January last, and held frequent conferences with the representatives of the Great Western Company. The directors hope that a satisfactory arrangement will be made, under Sir Charles Young's auspices, between the several sections of bondholders and this company, but the negotiations are not yet complete.

LONDON, HURON, AND BRUCE RAILWAY.

This line of 69 miles was partially opened for traffic in January last. It is well constructed, and the directors have reason to expect that its traffic will steadily improve. The total cost to this company will probably be between £160,000 and £170,000, after allowing for the contribution made in aid of its construction by the Ontario Government and various municipalities. This net cost is from £20,000 to £30,000 less than the amount which the shareholders authorized the directors to contribute. The London, Huron, and Bruce directors have executed and issued to this company, pending a final settlement of the account, a 6 per cent. Bond for £180,000, valued at 90 per cent., or £162,000. The temporary advance of £57,299, shown in the balance sheet, is being liquidated by the proceeds of sale of the Government and Municipal Bonds.

The directors introduced into the Dominion Parliament, during the present session, a carefully considered Finance Bill, which has since become law. A copy of the Act is appended to this report.

The main objects of this enactment are:—(1) To enable the shareholders to charge to capital the revenue over-draft arising from the insufficiency of the net receipts (since February, 1874, and, if necessary, until February, 1877) to meet the entire charge for bond and debenture interest. The shareholders have hitherto approved of the payment in full of this interest, and the necessary funds, not provided by revenue, have been supplied by the share capital raised at £10 per share in October, 1874. (2) To enable the shareholders to charge to capital the amount by which certain assets were overvalued in past years, to provide for which £6,500 has been set aside this and last half year. (3) to enable the shareholders to agree with the preference stockholders for the funding of the overdue preference interest in additional preference stock. (4) To enable the directors to exercise the borrowing powers of the company, authorized by the shareholders, either in terminable bonds or perpetual debenture stock, at their discretion; and to enable the shareholders to increase the share capital to the extent of any reduction of the loan capital. Provision is also made for the increase of the borrowing powers of the company, rendered necessary by the acquisition of the bonds of the Wellington, Grey, and Bruce, and London, Huron, and Bruce Companies. Resolutions will be proposed to the shareholders authorizing the directors to exercise the three first named powers, and also to raise, should they think fit any part of the capital required for the Wellington, Grey, and Bruce, and London, Huron, and Bruce bonds in terminable bonds instead of in debenture stock, the resolution adopted at the last meeting conferring power as to the latter only.

The President and Mr. George Cockburn, at the pressing request of their colleagues, spent the greater part of February and March last in Canada and the United States, and devoted much attention to several questions of importance to the company, the solution of which was greatly assisted by their presence. One of the most pressing of these, besides the subjects referred to in the four last paragraphs (16 to 19), was a reform in the arrangements for through business between the Western States of America and Europe, over the lines of this company, a reform shown to be necessary by a comparison between the progress in this class of traffic made by the Great Western and by other systems. The directors are glad to be able to report that fresh arrangements have now been made to this end, which, in their opinion, cannot fail to bring to the Great Western Railway a much greater share of this valuable business. The president and Mr. Cockburn have expressed to their colleagues, in the strongest terms, their sense of the firmness, ability and above all comprehensive grasp of intricate questions, with which Mr. Broughton is administering the affairs of the company, and the directors hope that the confidence which they feel in him may be echoed by the proprietors.

The directors announce with deep regret the severe loss which they have sustained in the death of their esteemed colleague, Mr. Seymour Clarke, the vice president of the company, from whose intimate acquaintance with every branch of railway business they derived the greatest advantage.

On behalf of the Board of Directors.

HUGH C. E. CHILDERS, President.

Railroad Earnings.

The earnings and expenses of the Michigan Central Railroad in March, 1876, as compared with the same month in 1875, were as follows:

	1876.	1875.
Gross earnings	$583,981 52	$611,210 85
Operating expenses	388,180 12	458,376 96
Net earnings	$195,801 40	$152,833 89

The gross and net earnings of the St. Louis, Kansas City and Northern Railway Company for the quarter ending April 1, 1876, were as follows:

	Earnings.	Expenses.	Net earn'gs.
January	$246,098	$131,687	$114,411
February	282,879	150,318	132,560
March	271,230	140,014	131,215
Total	$800,207	$422,020	$378,187

The following are the earnings of the Central Pacific Railroad Company:

For the month of April, 1876	$1,468,000
For the month of April, 1875	1,266,984
For the month of April, 1874	1,110,623
Earnings first four months, 1876	4,562,000
Earnings first four months, 1875	4,873,344
Earnings first four months, 1874	3,645,649

The earnings of the Toledo, Peoria and Warsaw Railway Company for the first four months of 1876, as compared with the earnings for the same months of 1875, were as follows:

	1875.	1876.
January	$71,436 97	$99,208 42
February	61,808 83	112,239 79
March	72,804 72	102,736 66
April	74,809 35	118,042 94
Totals	$280,859 87	$432,227 81
Increase		151,367 94

The gross earnings of the Pacific Railroad of Missouri for the month of April, and from January 1 to April 30, compare as follows:

April, 1876	$283,732
April, 1875	180,045
Increase	$103,707
From January 1 to April 30, 1876	$1,183,956
From January 1 to April 30, 1875	951,388
Increase	$232,568

The estimated earnings of the Ohio and Mississippi Railroad Company during April, were:

1876	$306,636 71
1875	279,360 95
Increase	$27,275 76

Total earnings, four months, viz: January, February, March and April:

1876	$1,229,852 89
1875	1,094,918 97
Increase	$134,933 92

The following are the earnings of the St. Louis, Kansas City and Northern Railway Company:

For first week in May, 1876	$53,720
For first week in May, 1875	44,380
Increase	$9,340

Rapid Transit in Brooklyn.

At a meeting of the Brooklyn Common Council held on the 8th inst., the Committee on Railroads, to whom was referred the petition of the Brooklyn Elevated Railway company asking permission to operate their road through certain streets and avenues, reported in favor of the following route: commencing on Water street, near the Fulton Ferry, running thence to Pearl street, thence to Willoughby street, thence along Willoughby street to Gold street, thence to Macomber square, thence along Macomber square and De Kalb avenue to Grand avenue, thence along Grand avenue to Lexington avenue. A branch is also to be constructed from Pearl and Sands streets along Sands street to Washington street, thence over the streets lying between that point and Fulton Ferry, on a line parallel with the lands owned and occupied for the purpose of the New York Bridge Company, and thence along the streets and avenues mentioned for that purpose in the act incorporating said company. The railroad company is also authorized to construct and maintain their road upon, over, and along a branch, beginning at the junction of Sands and Pearl streets, and thence along Sands street to the New York Bridge, and thence upon said bridge, or parallel thereunto, and upon lands adjacent thereto, along, across, and over the intersecting streets to East River. The company shall not be authorized to locate the supporting columns of said railway within the roadway between the curb-stones, except at Macomber square, at which point and on said square said company are hereby permitted to place such columns for said railways as shall be necessary for the purposes of said company. The provisions of their charter require the company to commence the construction of the road on May 26.

Claremont and White River Junction R. R.

At the annual meeting of the stockholders of this company held at Cornish Flat, N. H., on the 3d inst., the following gentlemen were unanimously re-elected directors: Hosea W. Parker, Otis F. R. Waite and R. W. Love, Claremont; Orlando Powers, J. M. Davidson and S. W. Bryant, Cornish; J. F. Raynsford, F. J. Morgan and W. C. True, Plainfield. At a meeting of the directors Hon. H. W. Parker was elected President, T. A. Gleason Clerk, and Dr. George W. Hunt of Cornish, Treasurer. Otis F. R. Waite, H. W. Parker and F. J. Morgan were authorized to negotiate with any parties for the construction of the road. It is understood that favorable proposals have been received for the early completion of the line.

☞ At the annual meeting of the stockholders of the Lake Shore and Michigan Southern Railway Company, held at Cleveland, Ohio, on the 3d inst., the following gentlemen were chosen directors for the ensuing year: Cornelius Vanderbilt, William H. Vanderbilt, Augustus Schell, S. Barger, Robert L. Crawford, Jno. E. Burrill and Francis P. Freemen of New York, Henry B. Paine and Amasa Stone of Cleveland, William L. Scott, Charles M. Reed and Judah C. Spencer of Erie, Pa., Albert Keep of Chicago. Nearly $37,000,000 of stock was voted on.

American Railroad Journal.

Saturday, May 13, 1876.

Financial and Commercial Affairs.

The movements in the financial line through the week have been fairly active. The Stock and Gold Board dealings have been on a more liberal scale. Money has been steadier in price within the range of 2@4, generally 3@4 per cent on call, with, however, ample supplies available to responsible borrowers on these terms. In the commercial line business has been comparatively moderate, as well in domestic produce as in foreign merchandise; and the demand for aid in the way of discounts has been less urgent with choice to prime mercantile credits quoted at from 4½@6 per cent per annum. The last City Bank statement indicated some changes of moment chiefly the result of the recent Geneva award bond negotiation of the Treasury Department and consequently of a temporary nature. The legal tender reserve was cut down nearly four millions. All the other more important averages exhibited an increase, the specie board of nearly 2½ millions, and the deposits about 8½ millions, while the addition to the loan item reached about 4⅞ millions. The circulation was contracted slightly. The U. S. Sub Treasury currency balance was augmented $4,146,004, and the specie reserve reduced $8,703,062, the latter in great part through the May coin interest disbursements on the public debt. National Bank notes received at the Treasury Department last week for redemption were to the amount of $3,740,000. The City Banks have had their deposits enlarged $3,139,900; and their legal tender reserve reduced $3,907,108. The specie average has been increased $2,727,800. The loan and discount item was augmented

$4,898,400. The circulation was diminished $68,400. The U. S. Sub Treasury in this city closed the week with a currency balance of $39,815,944 against $35,669,940 the preceding week; and a coin hoard of $43,677,055 against $52,380,117 on the previous return. The City bank exchanges in currency reached $417,271,310, or a daily average of $69,545,218. The customs revenue of the port during the week was $1,742,000. The City banks reported their average of gold last week at $19,804,400, and their greenback average at $39,182,200. Their deposits stood at $205,669,000. The loan item was $257,015,600. The circulation was $16,199,400.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $7,569,350, as against $9,533,625, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, May 1st was $411,456,078. The outstanding amount of legal tender notes is $370,596,038. The National bank circulation is now $336,520,986, including $2,091,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $7,140,000; special deposit of legal tenders for the redemption of certificates of deposit, $34,230,000; Coin, $76,600,000; Coin certificates, $27,200,000.

The week's import entries of Foreign Merchandise at New York were $5,052,744, including $816,780 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 99½ millions; and from Customs, 130 millions.

A moderately active speculative movement has been reported in Gold, the quotations for which have shown less important changes. The customs demand has been moderate, and the export drain more extensive. The extremes of the price during the week have been 112¼@112⅞, closing on Wednesday at 112¼, as against 112⅞ on Wednesday of the preceding week. The specie outflow last week was $2,701,583, against $523,995 the previous week. The imports of specie at this port last week were $11,175, and since January 1st $1,557,704 as against $5,779,146 same time last year. The customs demand for gold last week averaged $290,334 per day. Foreign Exchange has been in moderate request closing less firmly. Bankers sixty day bills on London closed on Wednesday at $4 88@$4 88¼ sight bills on London at $4 89½@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,065,313. The week's imports of Dry Goods and general merchandise were to the specie value of $5,052,744 as against $8,567,835 the corresponding week of 1875.

Government Securities have been more sought after on investment account, and toward the close quoted firmer. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $345,962,580.

U. S sixes of 1881 closed on Wednesday of this week at 122⅝@122⅞; U. S. Five-Twenties of 1865, at 114⅝@114⅞; U. S. Five-Twenties of 1865, consolidated, 118⅞@119⅛; U. S. Five-Twenties of 1867, 121@121¼; U. S. Five-Twenties of 1868, 122¾@123; U. S. Ten-Forties at 118¾@119; U. S. Fives of 1881, (Funding Loan) 117¼@117½; Six per cent. currency Sixes, 127¼@127½.

State and Railway bonds have been attracting more attention from investment buyers at steadier prices. And in the line of Railway and Miscellaneous share property a livlier movement has been reported with prices, though very irregular, quoted generally stronger toward the close.

General business has been on a moderate scale in Produce and Merchandise. Breadstuffs, Provisions and Cotton quoted lower. Export dealings have been less extensive. Dry Goods, Boots and Shoes, Hardware, Earthenware and Cooperage stock, in limited request. The Metal trade has been slow as a rule, though rather more cali has been noted for Iron. Sales have been reported of 400 tons No. 1 and 800 tons No. 2 American Pig on the basis of our quotations; 1,000 tons No. 1 Wrought Scrap at $28; 1,000 tons English Rails, 750 tons American do., and 1,200 tons of Steel Rails on private terms. Eglinton Pig Iron quoted here at $27@$28; Glengarnock $29@$30; Coltness $30 50@$31; No. 1 American Pig at $22@$23; No. 2 do. at $20@$21; Forge, $17 50@20; American Rails at works, $40@$45; Old Rails $22 50@$25. Wrought Scrap, $28@$30. Ocean freights have been moderately active especially for Grain room on berth and charter also for Provisions and Cotton room, at firmer rates though closing irregularly.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Cincinnati Bonds.

Messrs. Kuhn, Loeb & Co. invite subscriptions to the new City of Cincinnati 6 per cent. gold loan. Some round lots of these Bonds having been taken by the leading Insurance Companies, and other careful investors, $1,500,000 are now offered for competitive subscription at the minimum price of 103 per cent. Considering the scarcity of similar sound securities the Bonds will no doubt find ready takers at full prices.

☞ The St. Croix Courier says that the directors of the Grand Southern Railway have closed a contract for the building of the road with Joseph N. Green, Esq., C. E, of New York and Edward Appleton, Esq., C. E, of Boston. Being both Civil Engineers of ability and experience the undertaking could not have fallen into better hands and besides this they are responsible men and able to furnish all the sureties the directors require.

☞ The Grand Rapids, Greenville and Alpena railroad was sold on the 6th inst. by Circuit Court Commissioner Wilson, under a decree of foreclosure to Wm. W. Niles of New York.

Illinois Central Railroad.

During the month of April, 1876, 909.12 acres of land were sold for $5,781 92. The cash collected on land contracts during the same time was $16,929 64. The traffic on the main line in Illinois was $423,126 50, against $465,772 74 in April, 1875. The traffic of the Iowa lines, (leased at 35 per cent of gross receipts) was $122,955 30, against $144,686 30 in April, 1875. The total traffic on the main and leased lines in April was $546,081, against $610,459 in April, 1875. For the four months ending April 30, the traffic was $2,348,148, against $2,278,690 for the four months ending April 30, 1875.

☞ A dispatch from Sandusky, to the Ohio State Journal says that the prospect of immediate work there on the Wheeling and Lake Erie Narrow Gauge Railroad is good. Richie & Co., of New York and Chicago, offer to build and equip the road for $18,000 per mile—$10,000 in bonds, $5,000 in stock, and $3,000 in local subscriptions—and agree to have the first hundred miles from Sandusky south completed January 1, 1877. The contract will probably be awarded them.

☞ The Richmond (Va.) Enquirer says a number of New York capitalists, who are having surveyed the route from Buchanan to Clifton Forge, Va., say they have found the grade nowhere more than twelve feet to the mile, and being satisfied that it will be a good investment, have decided to put up the necessary funds and build the railroad between those points as soon as practicable.

☞ The directors of the Ware River Railroad Company recently elected, are: Chester W. Chapin and J. A. Rumrill of Springfield; C. A. Stevens of Ware, E. B. Gillett of Westfield, Wm. Mixter of Hardwick, and W. W. Whitney and C. A. Perley of Boston.

☞ A certificate was filed in the office of the Secretary of State of Ohio on the 1st inst. changing the name of the Atlantic and Lake Erie railway to the Ohio Central Railway company, by decree of the Fairfield Court of Common Pleas.

☞ The Appleton, Wisconsin, Post says it is presumed that work will soon be commenced on the extension of the Manitowoc Railroad. It is the intention of the company to complete the road within the next ninety days.

☞ The New Bedford Mercury learns that the consolidation of the New Bedford Railroad Company with the Boston, Clinton and Fitchburg Corporation will certainly take place, and probably at an early day.

☞ A new railroad from Philadelphia to Atlantic city is proposed, to be called the Philadelphia and Atlantic city Railroad; $800,000 is the estimated cost of the road, and it is designed to have it running for the season of '77.

☞ The Boston, Clinton and Fitchburg Railroad will relay their track between Fitchburg and South Framingham with steel rails.

☞ The Scioto Valley railroad will run a train of cars to Chillicothe on the 1st day of June—a distance of forty-five miles from Columbus.

☞ The Columbia and Port Deposit Railroad is open for travel and freight as far as Paqua, 14 miles below Columbia.

PROPOSALS

ARE INVITED FOR

$1,500,000

City of Cincinnati

MUNICIPAL GOLD BONDS

of $1,000 EACH, bearing SIX PER CENT INTEREST payable semi-annually May 1 and November 1, the principal maturing in 1906; both principal and interest being payable in U. S. GOLD COIN, at the AMERICAN EXCHANGE NATIONAL BANK in NEW YORK (or at the option of the holder, at the agency of the city, in LONDON, at the rate of one pound sterling to five dollars gold). These bonds are authorized by an act of the Legislature of the State of Ohio passed February 24, 1876, and were confirmed by vote of the people of the City of Cincinnati of 21,433 out of a total vote of 30,756, and by a resolution of the city Council, as provided by law. The bonds are PURELY MUNICIPAL IN CHARACTER; they are secured by the entire taxable property of the city, amounting in assessed value to $184,498,565, as well as the real estate owned by the city, valued at $22,000,000, exclusive of the Southern Railroad, for the completion of which they are issued.

MUNICIPALITIES in the State of Ohio are now authorized by law to provide for the conversion of their Coupon Bonds into Registered Stock.

The undersigned will receive sealed proposals at the

AMERICAN EXCHANGE NATIONAL BANK

until May 16, at noon, for any part of the above Bonds.

Bidders will state the exact amount of Bonds wanted, and no bid less than 103 PER CENT and accrued interest will be considered; the undersigned reserving the right to make pro rata awards in case the total amount bid for exceeds the amount offered, awards to be first made to the highest bidders.

Awards will be made May 16, and the bonds will be ready for delivery and payment May 20.

KUHN, LOEB & CO.,

Bankers, 31 Nassau Street.

New York, May 1, 1876.

CAR WORKS FOR SALE.

THE works of the Ohio Falls Car and Locomotive Company will be sold, at public auction, at the Court-house door, in Charlestown, Clarke county, Ind., on SATURDAY, June 10, 1876, between the hours of 9 o'clock A. M. and 4 o'clock P. M. These are the largest and most complete car works in the country; are located adjacent to Jeffersonville, Ind., and are well adapted to other branches of manufacture. For printed circular containing full description of the property and terms of sale, which are extremely liberal, address JOS. W. SPRAGUE, Agent for Trustees, Jeffersonville, Ind. 4t20

☞ The road bed of the Gallipolis, McArthur and Columbus Railroad was offered at Sheriff's sale on the 29th ult., but no person bid. More than $300,000 worth of work has been performed between Karne's and Gallipolis.

Proposed Railroad Route from Concord to Springfield.

The Springfield, Mass., Republican says that the old plan of opening a connecting line from Concord, N. H., to that city by means of the Monadnock, Ware River and Boston and Albany Railroads is again revived, and in such a way as to make its accomplishment seem more probable than ever before, and then adds:

Presidents Jonas Livingstone of the Monadnock Railroad and Minot of the Concord Railroad are interested, and propose that their roads and the Ware River Railroad subscribe $75,000 apiece, and the towns along the line a like amount, making $300,000 which is thought to be enough to build the missing link of 18 miles between Peterboro' and Hillsboro,' a route of easy construction along the Contoocook valley. Peterboro' has already subscribed $20,000 toward the road, and it is understood that the towns will be satisfied to receive stock for their subscriptions, while the other subscriptions will probably be secured by bonds. A party of railroad officials interested, with Engineer Haywood, are expected to make an excursion over the route soon. This connection will place Concord 20 miles nearer New York than any other route, will be an excellent outlet for the freight of Southern New Hampshire, and will also be convenient for summer tourists to the White Mountains and the New Hampshire lakes.

Portland Cement.

The first Portland Cement works in the United States are soon to be put in operation at Kalamazoo, Mich. This cement takes its name from its resemblance to the celebrated Portland stone quarried on Portland Island, England. It is used in the construction of piers, docks, cassions—in fact, nothing can take its place in underwater masonry. The value of these works may be inferred from the fact that we import annually from England and Germany over 1,000,000 barrels of this cement.

☞ At the annual meeting of the stockholders of the Wheeling, Pittsburg and Baltimore (late Hempfield) Railroad Company, held at Washington, Penn., on the 1st inst., the following board of directors was re-elected. John M. Reed, W. S. Bissell, S. B. Hayes, Wm. Workman, W. W. Smith, Wm. Keyser, J. B. Ford. The board subsequently organized by the re-election of John M. Reed, President; J. B. Washington, Secretary; W. H. Ijams, Treasurer; W. T. Thelin, Auditor, J. L. Randolph, Chief Engineer; Thomas R. Sharp, Master of Transportation; J. L. Wilson, Master of Road; N. Guilford, General Freight Agent; L. M. Cole, General Ticket Agent; R. T. Devries, General Agent.

☞ The new arrangement for carrying through passengers between all points on the Pennsylvania railroad and New England without change of cars went into effect on the 8th inst. Upon the arrival of the southern train at Jersey City it was run on board the steamer Maryland, which carried it thence across the harbor, and the East river to Harlem river, where the train took the rail again and proceeded eastward.

☞ The officers of the Atlantic and Pacific Telegraph Company, elected on the 9th inst, are: Thomas T. Eckert, President; W. J. Syms, First Vice President; Albert B. Chandler, Second Vice President and Secretary, and Alfred Nelson, Treasurer.

Pittsburg, Wheeling and Kentucky Railroad.

The Wellsburg (West Va.) Herald says that the contract between the Ohio Board of Commissioners and Henry K. List and others of the Pittsburg, Wheeling and Kentucky Railroad Company, blocked out some two months ago, has been approved by the Commissioners, and their Committee, Ewing, Schultz and Shepperd, directed to execute and sign the same in their behalf. The contract, as now signed, gives the company six months from about the 1st of May during which to commence operations, and eighteen months during which to complete them; on failure of either, all their rights under or by virtue of the said agreement to terminate and return to the grantors. It is further reported that arrangements have been made to provide the necessary funds required by the proposition of the Pennsylvania Company, and that work will be actively commenced about the 1st of June.

☞ In the United States Circuit Court at Omaha, Nebraska, on the 5th inst., Justice Miller rendered a decision in the case of the United States vs. the Burlington and Missouri River Railroad, in Nebraska, involving the title to 150,000 acres of land lying on the north side of said road, confirming the title of the road thereto and dismissing the bill.

ABSOLUTE SAFETY
AT
SEA!

LIFE SAVING SUITS
FOR
Ocean Travel.

The Continuous Disasters at Sea
and the almost countless lives that have been lost, urge the introduction of more effective appliances for saving life than have yet been generally adopted. In response to the great public demand, the American Life Saving Suit Company now presents a

Practical Life-Saving Suit.

This suit having been tested and approved by the most scientific and practical authorities, we now offer as a means of absolute safety from death by drowning. The invention now offered claims its superiority over all similar inventions, in that it floats the body in a vertical position in the roughest sea, preserves the natural caloric of the body for any number of days, with capacity for carrying provisions for ten days; and signals to attract attention from passing vessels.

This suit embodies three principles, which are imperative in a life-saving dress:

First—A buoyancy which supports the body in a vertical position, and maintains it as from a natural law.

Second—Protection from water and weather, and consequent chill.

Third—A commissariat department, to which is attached signals, with capacity for carrying valuables, etc., etc.

This suit is put on over ordinary clothing except shoes and hat, and can be put on inside of five minutes, and is let to passengers on transatlantic steamers at the low price of FIVE DOLLARS A TRIP.

"This life-dress is one of the most valuable inventions—perhaps *the most valuable*—to be found anywhere. It is an absolute preserver of life in the event of wreck or fire or any form of sea-accident, by which the vessel is destroyed. Had the *Schiller*, or any of the lost fleets of past years, been amply provided with these suits, no one life—except, perhaps, some infant's—need have been lost. Scarcely one of all the ships which in the past have sailed silently away and have never afterwards furled their sails and come to the shore again, would have gone down unstoried, with no survivor left to tell the dismal tale of collision, of ice-pack, of breakers, of hidden rock, of fire, or of destructive gale, had each and all borne these suits as a part of the outfit. With the history of the past strewn with wrecks of preciously freighted ships, who shall say that any device which robs shipwreck of its chief terrors, is not one of vast importance and priceless value?"

This Company also own THE BEST LIFE PRESERVER IN THE WORLD—*can be adjusted in one second.* It can be carried in the pocket. No person traveling either on the lakes, or river steamers, should be without one.

Call and see both the above, or send for pamphlet.

Steam Dummies.

A sub-committee of the Committee on Science and the Arts, of the Franklin Institute, made a report last evening upon the use of steam and other motors upon street cars. The objections to the use of steam are summarized under four heads: The freightening of horses; the difficulty of controlling the car; heat from the boiler; cinders and smoke.

The first objection is answered by the fact that noiseless engines do not freighten horses, and that horses soon become used to engines that are not noiseless. The car is more easily controlled than a horse car. The heat of the boiler is kept out by a non conducting partition, and the escape of cinders and smoke are prevented by available appliances.

The conclusion of the report is that the broadest field should be opened by the legislative and municipal authorities for the introduction of this improvement, which is imperatively demanded. It makes practicable rapid transit in the ability to stop and start quickly, and to maintain a much higher rate of speed than with horses. It meets the public need by the ability to put an increased number of cars upon the street just at the hours when they are required: and it opens the way to low fares by the use of coal, as a relief from "the high price of horse feed."—*Phila. Ledger, May* 4.

☞ The Governor of Connecticut, in his inaugural message, says that the depression of values has reduced "the grand list of the State" nearly $7,000,000; but the finances are in a creditable condition. The bonded debt is $5,014,000. About $1,250,000 have been expended on the new State House at Hartford, which is being built within the estimate of a total cost of $2,500,000. During the last year the railroads of Connecticut carried 11,000,000 passengers without one fatal accident.

☞ Rapid progress is being made with the Western Counties Railway between Yarmouth and Digby, N. S. Only six miles of the Yarmouth end remains to be graded, and not more than a third of the section between Digby and Weymouth. As soon as the frost is out of the ground track-laying will begin, and one half of the line will be ready in a few months, the whole before the end of the year.

☞ A certificate was filed with the Secretary of State of Ohio on the 29th ult., changing the route of the Michigan and Ohio railroad so that it will run through the counties of Franklin, Pickaway, Fairfield, Hocking, Vinton and Gallia, terminating at some eligible point at or near Gallipolis.

☞ The Pullman Palace Car Company are about introducing the new hotel cars to run between Chicago and Philadelphia during the Centennial Exposition. They are fitted up with all the modern improvements, combining a drawing room and dining room car during the day and a sleeping car during the night.

☞ At a convention of friends of the Middleboro' Railroad, held in New Bedford, Mass., on the 1st inst., measures were taken for the formation of a company to build a narrow gauge road, and a committee was appointed to select a list of directors.

☞ The bonded indebtedness of the city of Cumberland, Md., is $349,900, with a non-bonded debt of $5,028 71. The property belonging to the city is estimated to be worth $345,200.

Railroad Building.

The number of miles of railroad built in the United States during the year 1875 was 1,483, against 2,025 miles in 1874, 3,883 miles in 1873, and 7,340 miles in 1872. Nearly all the new roads are short lines, intended to serve local wants, the average length of each being only 17 miles. In the South railroad building has almost wholly stopped. In the Northwest it has fallen off 90 per cent since 1872. In New England the amount is very little less than last year. New York built 200 miles, against 125 miles in 1874. California 174 miles, and Illinois 172. The States of Alabama, Florida, Kansas, Kentucky, Louisiana, Minnesota, Mississippi, Oregon, Rhode Island, Tennessee, Virginia and West Virginia, and all the Territories except Utah, built none at all. The first of the railroad States is now Illinois, with 6,931 miles; Pennsylvania is second, with 5,805 miles; New York third, with 5,450; and Ohio fourth, with 4,405.

North Western (Ca.) Railway.

The annual meeting of this company was held in Hamilton on the 2d inst. The report submitted to the directors showed that the Lake Erie division of the road had earned during the past year ending the 31st December $78,893. The working expenses were $49,078, being a fraction over 62 per cent, leaving the net revenue $29,815, while there has been an increase in the working expenses of $4,500 more than a corresponding decrease took place in the earnings over the year 1874. The directors state that the western division, from Hamilton to Georgetown, has been contracted for, and is expected to be opened about the end of this year.

☞ A novel locomotive has been made in California to run on the long flumes that are used to float lumber down from the mountains. The wheels fit on the edge of the sides of the flume, and at the ends of the car are paddle wheels dipping into the water, and which are turned by the swift current. By a simple arrangement this power is made to propel the locomotive up the flume, and it runs back itself.

☞ The Ohio State Journal says that M. M Greene, President of the Columbus and Toledo railroad, has ordered the rails, and track laying will begin as soon as the weather will permit. The first rails on the road will be laid at Marion and extend in the direction of Columbus.

☞ The Seattle and Walla Walla Railroad Company have contracted with J. M. Colman, of Seattle, Washington Territory, to complete the first section of fifteen miles of their road. Work will be commenced immediately.

☞ The question of the appointment of a receiver for the Atlantic, Mississippi and Ohio railroad has been postponed until June 1.

Little Rock, Mississippi and Texas Railway.

The Spirit of Arkansas, published at Little Rock, learns from President John H. Reed, of Boston, Mass., who has been spending some days in the city and State, that "the above-named company has determined to erect its depot buildings and shops in the eastern portion of our city, and also that it has agreed to build a railroad and wagon bridge across the Arkansas river at the end of Collins street, provided the approaches are furnished. The east-end property owners have agreed to purchase the necessary land, and we may now look forward to these important improvements. Mr. Morley, the Chief Engineer, will rebuild a portion of the road beyond Pine Bluff, and make other improvements, after which work will be commenced nearer home—probably about November 1st."

☞ The following gentlemen have been elected directors of the Kansas Pacific and Colorado Central Railroad consolidated companies. Robert E. Carr, John D. Perry, Carlos A. Greely, Adolphus Meir, Stephen Edgell, Jay Gould, Oliver Ames, Sidney Dillon, and James Smith.

The Coal Trade.

The return of the trade from all the regions for the week ending the 29th ultimo foots up 470,063 tons, against 346,261 tons for the corresponding week last year, showing an increase of 123,802 tons. The total amount of anthracite mined for the year is 4,535,356 tons, against 4,450,023 for same period last year, an increase of 85,333 tons. The quantity of bituminous coal sent to market for the week was 66,049 tons, against 75,736 tons for corresponding week last year, a decrease of 9687 tons. The whole bituminous tonnage from the beginning of the coal year is 960,553 tons, against 901,407 tons in corresponding time last year, an increase of 59,070 tons. The total tonnage of all kinds of coal for the week is 536,112 tons, against 421,997 to corresponding date last year, an increase of 114,115 tons, and the total tonnage for the coal year is 5,495,909 tons, against 4,651,500 tons to same date last year, an increase of 844,409 tons. The quantity of coal and coke carried over the Pennsylvania Railroad the last week was 99,784 tons, of which 82,249 tons were coal and 17,543 tons coke. The total carried this year is 1,135,785 tons, of which 930,231 were coal and 206,054 coke. This total embraces all the coal carried over the road, east and west. We continue to quote freight charges to New York at 85 cents, Providence at $1 20@$1 25 and to Boston at $1 35@$1 40 per ton. At Perth Amboy for the week ending on the 29th ultimo the receipts of coal were 24,563 tons and the shipments 22,914 tons, leaving 112,554 tons on hand. Freights to Boston, 95 cents; New Haven, 65 cents; Hartford, $1; Providence, 80 cents.—*Phila. Ledger, May* 8.

☞ The Newark (N. J.) Steel Works, Benj. Atha & Co., made, in the month of March last 200 tons of steel, mostly for files, tools and machinery. The works have three trains of rolls and five steam hammers. They employ 90 men, and report trade a little better than last year. They supply all the steel used by the Nicholson File works.

☞ The Adirondack Steel Works, Gregory & Co., Jersey City, N. J., are in operation single turn, and part of the week one-third overtime. With the present force, 70 to 80 men, about 38 tons of steel per week is the product. Business is a little better than a year ago.

☞ Thomas L. Nelson has been appointed a Commissioner on the accounts of the Providence and Worcester Railroad.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, May 20, 1876.

Charlotte, Columbia and Augusta Railroad.

Col. John B. Palmer, President of the Charlotte, Columbia and Augusta Railroad Company, has just completed the sale of sufficient bonds to retire the entire floating debt of the company. The bonds sold comprise $500,000 of the first mortgage and $500,000 of the second mortgage. This makes the entire bonded debt of the company $2,000,000 first mortgage bonds, and $500,000 second mortgage bonds; the remaining $500,000 second mortgage bonds, in accordance with the terms of the negotiation, having been canceled and destroyed. The features of the negotiations are, the retirement of the floating debt, and, at the same time, the reduction of the bonded debt $500,000. The road is about two hundred miles long, which makes the first mortgage debt about $10,000 per mile, and the second mortgage debt about $2,500 per mile. A comparison of the net earnings for the last four years show that, after paying interest on this debt, the road has earned over 3 per cent on the stock; and taking last year's net earnings separate, about 4 per cent on the stock upon which the company is liable to pay dividends. Col. Palmer is to be congratulated on the success of his negotiations and the prospects of his company.

Eastern Railroad.

At a special meeting of the stockholders of the Eastern Railroad Company, held in Boston on the 16th inst., the following resolutions, offered by Hon. Charles Levi Woodbury, were adopted by a vote of 8,095 to 467:

Voted, that this corporation hereby accept the act of the Legislature of Massachusetts, approved April 28, 1876, entitled "An act for the relief of the Eastern Railroad Company and the securing of its debts and liabilities," being chapter 236 of the acts of 1876.

Voted, that the directors be and hereby are authorized to make and issue the certificates of indebtedness of the corporation, and to secure the same and the existing debts and liabilities of the corporation by mortgage as authorized by said act, and to the amount and in manner therein set forth, said certificates and mortgage to be in such form as the directors shall approve.

Railways in Brazil.

The London Investor's Guardian says that the Emperor of Brazil has reasons of importance for his approaching visit to England, viz:

About two years since his majesty consulted Sir John Hawkshaw as to the practicability and possible advantages of a line of railway through Brazil, towards Uraguay and the Riverine of Paraguay, which would largely extend the internal trade and develop the land resources of Brazil. Our great engineer went over to Brazil and made a personal inspection of the country. He finally came to the conclusion that his majesty would be justified in pledging the revenue of Brazil to the extent of a guarantee of 7 per cent interest on the intended system. The operation will be a large one, and it is for the purpose of consulting and arranging with the leading capitalists of Europe, and especially of England, that the present journey of the emperor has been undertaken.

☞ The work of constructing the Manchester and Keene Railroad, (the extension from Greenfield, N. H., the terminus of the Peterborough Railroad, to Keene,) was formally commenced in Hancock, near Robinson's farm, on the 15th inst. This line, when completed, will open a new route from Boston by the way of the Boston and Lowell, Nashua and Lowell, and Wilton and Peterborough Railroads to Keene, and it will be a competing route for the business which now passes over the Fitchburg and Cheshire Railroads to Southern Vermont, to Saratoga and the West.

Atchison, Topeka and Santa Fe Railroad.

At a meeting of the stockholders of the Atchison, Topeka and Santa Fe Railroad Company, held at Topeka, Kansas, on the 12th inst., the following gentlemen were elected directors: Thomas Nickerson, Ginery Twitchell, Joseph Nickerson, J. T. Burr, Alden Speare, G. B. Wilbur, F. H. Peabody, B. P. Cheney and C. W. Pierce, of Boston, Mass.; C. K. Halliday and D. L. Lakin of Topeka; George Opdyke of New York, and Daniel L. Gilmore of Emporia, Kansas. Subsequently Thomas Nickerson was elected President; F. H. Peabody, Vice President; Edward Wilder, of Topeka, Secretary and Treasurer; and G. L. Goodwin, of Boston, Assistant Treasurer.

☞ Articles of incorporation were recently filed at Topeka, Kansas, of the Fort Scott, Winfield and Western Railroad Company, the object being to construct a railroad from Fort Scott west to Chanute, Fredonia, Elk Falls, Winfield, and further west, as fast as the settlement of the country will warrant its construction. It will pass through the counties of Barbour, Neosho, Wilson, Chautauqua, and Cowley, a portion of Kansas at present without railroad facilities. The directors named in the articles of incorporation are: John B. Lynn and Martin L. Robinson, of Winfield, D. H. Haines and E. S. Cummings, of Elk Falls, Isaac Hudson and O. V. Small, of Fredonia, and George M. Shelley, James Bewsher, and Homer Reed, of Kansas City.

☞ Messrs. Porter, Bell & Co., of Pittsburg, recently shipped light locomotives to New Orleans to replace mules in hauling horse cars. These engines are covered in to resemble street cars, and are perfectly successful. Being noiseless they do not freighten horses, and they haul a long train of crowded cars with ease. On one day 5,200 passengers were carried by two locomotives.

☞ At a meeting of the Central Railway Company, held at Fredericton, N. B., on the 3d inst., a board of directors was elected with Alex. Gibson

as President, Julius L. Inches Secretary, and C. A. Hallett Engineer.

Northern Central Railway.

At the Annual Meeting of the Stockholders of the Northern Central Railway Company, held in Baltimore on the 24th of February, the following report of the directors was presented and adopted:

OFFICE OF NORTHERN CENTRAL RAILWAY CO., BALTIMORE, February 24, 1876.

To the Stockholders of the Northern Central Railway Company:

Your directors submit the following report of the operations of the company for the year ending December 31st, 1875.

The revenue of your main line, with its leased and controlled roads, was as follows:

From passengers	$816,006 21
" freight	3,691,762 48
" express	85,726 22
" mails	47,480 00
" miscellaneous sources	285,272 81
Total	$4,926,247 72

And the operating expenses were:

For conducting transportation	$1,070,244 59	
For motive power	863,727 60	
For maintenance of way	1,079,024 55	
For maintenance of cars	275,568 38	
For general expenses	73,558 56	
		3,362,123 68
Leaving as net earnings		$1,564,124 04

In comparison with the year 1874, there was an increase in gross earnings of $249,747 27, equal to 5.34 per cent; and a decrease in the operating expenses of $21,430 27, equal to 0.63 per cent. The increase in the net earnings was $271,177 54, or 20 97 per cent.

The operating expenses were 68.25 per cent of the gross earnings, which, in comparison with 1874, shows a reduction of 4.15 per cent.

In addition to the net earnings as above stated, of	$1,564,124 04
There was received from dividends and interest	59,632 00
And contribution for operating Elmira, Chemung, and Canandaigua Divisions, (from Pennsylvania Railroad Company)	82,883 27
Total	$1,706,639 31

Which was applied as follows:

Dividend Chemung R. R.	$1,659 00	
Interest on funded debt	609,120 00	
Interest on Income bonds	280,000 00	
Interest, discount, gold premiums and taxes	114,230 50	
Rental Shamokin Valley and Pottsville R. R	52,167 00	
Rental Elmira and Williamsport R. R	165,000 00	
Rental Elmira, Jefferson and Canandaigua R. R.	25,000 00	
		1,247,176 50
Balance net income for 1875		$459,462 81

Equal to 7.86 per cent upon the capital stock of the company.

The above statements exhibit the actual results of the operations of your lines during the year 1875. But your Board has considered it wise to incur an additional expense of $173,950, in replacing locomotives and cars worn out or destroyed in previous years. While the cost of replacing this rolling stock must necessarily be charged to the expense accounts, it could not be included in the operating expenses of any one year without conveying an erroneous idea of the results of that year. For this reason the amount so expended is reported as an extraordinary expense, in a separate item. It was used to pay for the following new equipment:

5 first-class freight locomotives of the Consolidation class, 20×24 inch cylinders, at $11,000	$55,000 00
105 eight-wheeled coal cars, 15 tons capacity, at $550	57,750 00
72 eight-wheeled box cars, at $600	43,200 00
4 first-class passenger cars, at $4,500	18,000 00
	$173,950 00

It will be understood that this item covers only the cost of replacing some of the locomotives and cars that were worn out in previous years, and that the entire cost of keeping all the rolling stock on the line January 1, 1875, in as good condition as at the beginning of the year, and, in fact, of making a marked improvement in it, has been included in the regular charges to the expenses of the motive power and car departments.

There are still some vacant numbers in locomotives and cars to replace, but by pursuing the same course as that which was adopted last year, it is hoped that all these can be replaced during this year and the next, out of the surplus net income of the company, over moderate dividends. The policy of your board will be thoroughly conservative in all departments, so that the property of the company may be made more valuable each year to its owners.

The net income for the year 1875, as above stated, was		$459,462 81
From which deduct extraordinary expenses in replacing rolling stock worn out and taken out of service in previous years	173,950 00	
	$285,512 81	
Add balance to credit of net income January 1st, 1875	82,704 80	
Balance to credit of net income December 31st, 1875		$368,217 61

Equal to 6.3 per cent for dividend purposes after payment of extraordinary renewals.

Although the results of the operation of your lines during the year 1875 were very favorable, your board considered it best that no dividends should be declared until the financial condition of the company should be strengthened by a reduction of the bills payable, and until the means should be provided for the construction of the necessary facilities at Baltimore to accommodate the growing traffic of the road. Both these objects having been accomplished, and there being, in the judgment of your board, a reasonable certainty, under the proposed modification of your bonded debt, and the reduction of interest liability consequent thereupon, that the payment of regular semi-annual dividends can now be commenced and continued, it has been determined to pay in April next, out of the amount of $368,217 61 standing to the credit of net revenue, and which is equal to 6.3 per cent upon the share capital, a dividend of three per cent, leaving a surplus of $192,957 61 to credit of net earnings.

As will be seen by the treasurer's statement, the bills payable of this company, January 1st, 1875, were $639,821 47

On January 1st, 1876, the bills payable were 466,420 95

Showing a decrease of $173,400 52

Assets on hand January 1st, 1876, in securities that may be sold $641,802 82

Real estate in the City of Baltimore, off the line of road, and not required for its purposes, which has been estimated, at current market rates, to be worth 300,000 00

$641,802 82

These two items, at very low valuations, being more than equal to all bills payable.

The following tables exhibit the sources of revenue and expenses of the several lines of the company in the year 1875, compared with those for 1874:

Receipts from—	Main Line.	Green Spg. Br.	Sham. Div.	Elmira Div.	Chem. Div.	Canand. Div.	Total.
Freight	$2,358,657 97	$12,820 28	$878,091 45	$491,691 41	$168,488 23	$282,018 14	$3,691,762 48

* July to December, 1874, inclusive. † August to December, 1874, inclusive.

The total number of passengers carried was as follows:

	1875.	1874.
Northern Central Railway	1,102,497	865,680
Green Spring Branch	11,916	7,441
Shamokin Railroad	82,182	68,425
Elmira Railroad	116,919	124,733
Chemung Railroad	150,800	177,021
Canandaigua Railroad	103,872	103,701
Total	1,568,186	1,347,001

Net increase, 221,185.

PASSENGERS ONE MILE.

	1875.	1874.
Northern Central Railway	19,743,159	19,444,830
Green Spring Branch	56,758	38,888
Shamokin Railroad	933,000	845,734
Elmira Railroad	4,320,387	4,608,480
Chemung Railroad	2,268,513	2,469,656
Canandaigua Railroad	2,507,506	2,451,483
Total	29,829,323	29,858,571

The amount received for the transportation of—

Passengers in 1875	$816,006 21
Passengers in 1874	864,618 64
Decrease in 1875	$48,612 43

The decreased passenger earnings, with an increased number of passengers carried, is owing to the fact that the average distance traveled by each passenger was less—it having been reduced from 22 2 miles in 1874, to 19 miles in 1875, showing that the increase in the number of passengers carried was made up of local travel to and from the city of Baltimore.

The number of tons of freight moved was as follows:

	1875.	1874.
Northern Central Railway	2,760,192	2,284,695
Green Spring Branch	36,145	19,734
Shamokin Railroad	912,023	706,071
Elmira Railroad	547,742	469,021
Chemung Railroad	838,696	978,628
Canandaigua Railroad	699,337	752,442
Total	5,793,635	5,210,591

TONS ONE MILE.

	1875.	1874.
Northern Central R'y	166,552,942	135,928,995
Green Spring Branch	279,352	154,538
Shamokin Railroad	17,658,360	13,448,848
Elmira Railroad	36,296,735	30,963,426
Chemung Railroad	16,356,856	18,233,268
Canandaigua Railroad	21,396,312	18,251,462
Total	258,540,557	216,980,532

Showing an increase in the tonnage mileage of 19.154 per cent; a very encouraging statement when the continued depression of all manufacturing interests throughout the year is considered.

Tabular statement of the average earnings and expenses per ton of freight per mile on the Northern Central Railway, and lines controlled by it. —1875.

Name of Road.	Average cost of transporting each ton of freight per mile.	Average earnings on each ton of freight per mile.	Profit and loss on each ton of freight per mile.	Length of road.
Northern Central R'y—				
Baltimore Div.	1.361	1.651	P 0.290	91
Susquehanna Div.	0.521	1.200	P 0.679	47
Main Line	0 923	1.425	P 0.502	138
Green Spring Branch	4.124	4.581	P 0.457	9
Shamokin Division	0.918	2.141	P 1.223	28
Elmira Division	1.065	1.354	P 0.289	78
Chemung Division	0.690	1.030	P 0.340	22
Canandaigua Division	1.238	1.318	P 0.085	47
Total average	0.959	1.433	P 0.474	

The earnings per mile of road were as follows:

Northern Central Railway, 138 miles	$23,517 00
Baltimore Division, 91 miles	21,346 45
Susquehanna Division, 47 miles	27,740 87
Shamokin Division, 28 miles	14,643 68
Elmira Division, 78 miles	8,322 56
Chemung Division, 22 miles	10,783 73
Canandaigua Division, 47 miles	7,854 29
Green Spring Branch, 9 miles	1,591 89

The tonnage of the main line of the Northern Central Railway was increased 475,497 tons, with an increase in earnings of $204,528 21. On the Shamokin Railroad the increase in tonnage was 205,952 tons. Increase in earnings, $86,194 12.

On Elmira R. R.: Increase in tonnage, 78,221. Increase in earnings, $42,873 10.

On Chemung R. R.: Decrease in tonnage, 139,-932. Decrease in earnings, $22,500 82.

On Canandaigua R. R.: Decrease in tonnage, 53,105. Increase in earnings, $16,191 98.

On Green Spring Branch: Increase in tonnage, 16,411. Increase in earnings, $5,257 91.

The total number of tons and tonnage mileage, and the revenue derived from the same on all lines of the company, were:

	Tons.	Money.	Tons 1 mile.	Rate p. ton per m.
1875.	5,793,635	$3,691,762 48	258,540,557	1.433
1874.	5,210,591	3,360,217 98	216,980,532	1.549
Inc.	583,044	$331,544 50	41,560,025	....
Dec.	.....	.....	.....	0.116

The coal tonnage of the Northern Central Railway in 1874 was 762,023 tons, and in 1875 1,-077,121 tons. There was an increase in the trade going on to the Pennsylvania Railroad at Marysville and Dauphin of 259,895 tons, owing to coal from the Shamokin and Lykens Valley regions, destined to tide water at Philadelphia, being sent via the Pennsylvania Railroad from Marysville, instead of being delivered to the Reading Railroad Company as heretofore. There was an increase of 3,373 tons to points on the Cumberland Valley Railroad. The total tonnage to Baltimore was 267,935 tons, an increase of 61,217 tons in 1875.

The coal tonnage of the Shamokin Branch in 1875 was 788,034 tons; in 1874, 601,988 tons, showing an increase of 186,046 tons.

The coal tonnage of the Elmira and Williamsport Railroad in 1875 was 338,938 tons, and in 1874, 278,418 tons; an increase of 60,520 tons. The increase from the McIntyre Mines, near Ralston, was 20,297 tons. In the north-bound anthracite trade there was an increase of 40,223 tons.

The coal tonnage of the Chemung Railroad was reduced from 744,176 tons in 1874, to 645,-125 in 1875, a total reduction of 99,051 tons. Of this reduction the tonnage from the Blossburg coal region decreased from 493,558 tons in 1874, to 323,238 in 1875, a loss of 170,320 tons; and the anthracite coal trade from this company's line and from the Lehigh Valley Railroad was increased 71,769 tons.

On the Canandaigua Railroad, the coal tonnage of 1874 was 550,682 tons; in 1875, 516,709 tons, a reduction of 33,873 tons. There was a decrease of 118,803 tons in shipments to Coal Point, and an increase of 79,930 tons in shipments to other stations. On the Green Spring Branch the coal tonnage of 1874 was 5,436 tons; in 1875, 12,014 tons, an increase of 6,578 tons.

For information in detail as to the operations of the transportation department during the year, attention is directed to the report of the General Manager, which will be published in pamphlet form in connection with this report. A steady improvement in the condition of the track and of the equipment was made during the year. In the track, 6,623 tons of steel rails were used for repairs, the entire cost of which was charged in the expenses, although the increased price paid over that at which iron rails could have been purchased was $165,000.

From unavoidable detention in preparing and properly maturing the plans, and getting the work done by experienced and satisfactory contractors on proper terms, the improvements in Baltimore, and at Canton, which were in contemplation at the date of the last report, have not progressed as rapidly as was expected. They are now, however, all practically completed, with the exception of the grain elevator and the warehouse for rolling freight, the foundations for which are finished. The superstructure of the grain elevator is contracted for, and by the terms of the contract is to be finished and ready for use within five months—being in time for the next crops. The warehouse for rolling freight will also be completed within that time. The coal wharf at Canton, the extension of the car shops at Baltimore, and the new building for the general office of the company in Baltimore are now ready for use. The real estate referred to in the last report as necessary for the increased business in Baltimore, has been secured by the purchase of the two entire blocks of ground between Madison Street, North Street, Monument Street, and the Falls, and between Buren, Madison and Monument Streets, and the Falls. In addition to which there has been purchased the large lot on the south-west corner of Monument Street and the Falls, with the brick buildings on it, suitable, with small expenditure, for a delivery freight warehouse, and the lot on the north-east corner of Buren and Monument Streets, for the purpose of laying a connection by an easy curve from the track of the Western Maryland Railroad on Buren Street to connect with this company's Monument Street track; thus avoiding the necessity of hauling cars with Monument Street freight over the crowded part of the North Street track. These purchases of real estate were made upon favorable terms, and it is believed that they will afford all necessary facilities for doing a largely increased business in Baltimore.

The addition to the car shops at Baltimore, heretofore referred to, completes those shops, which now comprise within themselves all the necessary space, machinery, and tools for repairing and maintaining the motive power and rolling stock of the roads owned and controlled by this company, as well as those of the Baltimore and Potomac Railroad, and the Washington, Alexandria, and Fredericksburg lines. Between four five hundred men are now employed at these shops, but they have a capacity for the employment of a much greater number when needed, and for keeping in repairs a largely increased equipment. It will, therefore, not be necessary for some years to incur any expenditures for the purpose of extensions or enlargements of shops at Baltimore.

It is gratifying to be able to report that although more real estate has been purchased than was at first contemplated, the estimated expenditures given in the last report, for this purpose, and for the work of construction required, will be exceeded but little, if at all. The entire amount of the estimate was $690,000, the outlay to this time has been $374,519 14, and the amount required to complete the improvements, basing the revised estimates upon contracts actually made, is placed at $312,071 45, making a total cost of $686,590 59.

Upon the completion of these improvements your company will be able to concentrate a much larger tonnage than heretofore at the port of Baltimore. We shall no doubt transport a large amount of grain, coal, lumber and other freight seeking a market at and through the City of Baltimore; and also receive, store, and forward large amounts of coffee, sugar and general merchandise to the many points accessible by our line and its connections—which comprise nearly every point of importance throughout the west and north west.

The improvements at Canton will enable this company to bring over its lines, to the port of Baltimore, all the various anthracite and bituminous coals from the several regions of Pennsylvania, as well as all other products of that State seeking markets at Baltimore. The facilities that may be needed by the Western Maryland Railroad Company for handling and shipping Cumberland coals, the transportation of which that company has already commenced from the canal at Williamsport, and for other products for Baltimore harbor by that line, can also be provided on this company's property at Canton.

Your board believe that the Northern Central Railway, with its facilities, will each year be of more value to the city of Baltimore and its business interests, and to the country the road traverses.

During last spring, a contract was entered into between the Western Maryland Railroad Company, the Baltimore and Potomac Railroad Company, and this company, by which the former was

accorded, for a very moderate consideration, the right to run its passenger and freight trains over the tracks of the Baltimore and Potomac Railroad, and those of this company from the south end of the Baltimore and Potomac tunnel to a connection with a track to be constructed by the Western Maryland Railroad Company, from the junction of Madison and Buren streets to the depots which that company was to provide for its own use. Under the contract the Western Maryland Railroad Company is only to use the main tracks of this company for the passage of its trains, and is to provide all its own terminal facilities. This has already been done by that company, it having purchased a well-located block of ground at the foot of Buren Street, upon which the necessary station and sidings have been built, and to and from which its trains are now being run. The trackage receipts under this contract will be another and a constantly growing source of income to this company, besides giving to the Western Maryland Railroad Company, in which the City of Baltimore is largely interested, all the advantages to be derived from its new and central location.

During the past year a proposition was made to your Board of Directors by a committee of the citizens of Elmira, and by the Tioga Railroad Company, a responsible corporation, to aid in the construction of an extension of the Tioga road from the State line of Pennsylvania to Elmira, under the charter of the Elmira State Line Railroad—about twenty miles in length, by which a connection would be formed with the Elmira line of your company about two miles from Elmira, and secure to your company a permanent connection, and a valuable coal traffic for your roads, to Watkins and Canandaigua. After full examination of the subject your Board agreed to aid this work by the purchase of $100,000 of the first mortgage seven per cent. bonds of the Tioga Railroad Company, conditioned upon that company, for its own and the Elmira State Line Road, entering into a traffic agreement with your company for ninety-nine years, which contract has since been executed. The bonds are to be paid for as the work progresses, and it is believed the road will be completed during the present year. Your Board believe this will secure to your northern lines a valuable traffic.

The question of suspending the payment of interest on the seven per cent. Income Bonds of this company, as set forth in the Treasurer's report, until the company should be entirely free from all floating debt, was considered; but it was proposed by holders that the conversion of these bonds into obligations secured by mortgage, bearing a lower rate of interest, would benefit the company and also the holders, by giving them a marketable security.

With a view to thus reducing the annual interest account of the company, negotiations were opened by your General Counsel, under direction of the Board, during the past summer, with holders of a large majority of the three millions of 7 per cent. income bonds due January 1st, 1922, resulting in their agreeing to accept in exchange for the income bonds at par, five per cent. currency bonds at par, having 50 years to run, secured by mortgage. To provide for this exchange, and to redeem one million other income convertible bonds, and to provide for future use of the company an additional million of bonds, if required for its other purposes, a mortgage for five millions of dollars was executed to the Fidelity Insurance, Trust and Safe Deposit Company, of Philadelphia, as trustees, covering the entire property of the company, subject to all existing mortgages, and it has been duly recorded. It was also agreed that, to give additional security to the bonds, all the stock held by this company in the lines north of Elmira should be transferred to the trustees of the new mortgage—the voting power and operating facilities to remain with this company—all of which is fully set forth in the mortgage, as approved by your Board of Directors.

Your board believe that this exchange of securities, by which an annual saving in interest of sixty thousand dollars will be effected in the three millions of income bonds, is a favorable one for this company and the holders of those income bonds. They now ask the approval of the mortgage, and authority to issue three millions of bonds thereunder, for the purpose of taking up and cancelling the three millions of seven per cent. income bonds of 1922, as they are presented for exchange.

The board also ask authority from the stockholders to use one million of these bonds in exchange for the present one million convertible incomes due in 1880, at a rate of interest not exceeding 6 per cent. currency. This exchange, if effected, will reduce the mortgage liability for interest ten thousand dollars more per annum—the remaining $1,000,000 to be reserved, and not issued until required by the wants of the company, and under the approval and authority of its stockholders.

Under the authority given at the general meeting of the stockholders, held February 25, 1875, one million dollars of bonds, under the consolidated mortgage created and executed May 26th, 1874, were sold through the house of Drexel & Co., realizing 87½ per cent. net, clear of commissions. The proceeds are being used in expenditures for terminal facilities, real estate and construction in Baltimore, and to reduce the bills payable of the company.

Accompanying this report will be found the statements of the Treasurer, showing the Income and Expenditures for 1875, and the general financial condition of the company.

Through the reorganization of the management of the company, the board has been enabled to fill a number of the principal offices in the various departments of the service with gentlemen holding similar positions in the Pennsylvania Railroad Company, thus obtaining the services of officers of skill and experience in the management of railways without any charge to your company for salaries.

Under the plan adopted, entire harmony of working has been secured between the Northern Central Railway lines and those operated by the Pennsylvania Railroad Company, tending to the mutual economy and advantage of all the lines.

Your board trust that the results attained during the past year will prove satisfactory to the shareholders. The property of the company has been much improved and its facilities enlarged. It is believed that your road can not only sustain its earnings of the past year, but, with a return of moderate prosperity to the country at large, it can satisfactorily increase them.

The board desire to express their acknowledgements to the officers of the company and the employees in the several departments for their prompt performance of duty and the thorough and efficient management of the property entrusted to their charge.

All of which is respectfully submitted,
By order of the board of Directors,

THOMAS A. SCOTT,
President.

New Route from the Oil Regions to the Seaboard.

The Pittsburg Post, in noticing the arrival at Richmond, Va., of a cargo of oil via the Ohio River and the Chesapeake and Ohio Railroad, where it was placed on shipboard without the necessity of recoopering—the trip requiring 75 hours—says:

The new route is rather circuitous and considerably longer than that of the Pennsylvania Railroad or the Baltimore and Ohio Railroad, requiring longer time for the oil to reach the seaboard, but the question of cost, and not of time only, enters in the shipment. The distance from Pittsburgh to Huntington, where the oil is transferred from the river to the railway, is 329 miles. It had been calculated that this portion of the route would be gotten over in forty-eight hours, when, in fact, it required but thirty-six hours. Huntington is a small town in the southern part of West Virginia, equally near the respective borders of Ohio and Kentucky. The Chesapeake and Ohio Railroad has its northern terminus here. It runs directly south through Richmond and ends near the Chesapeake Bay, at the town of City Point. The oil is received from the cars at Richmond, the rates of charge from there to Europe being the same as from Philadelphia, New York, or any other American port. The practicability of the new route having been established, another cargo of 4,500 was shipped a few days ago from the American, Citizens, Star and Miller refineries.

Atchison, Topeka and Santa Fe Railroad.

We gave in our issue of May 6th the financial tables of the report of this company for the year ending December 31, 1875, showing the gross earnings to have been $1,520,588 31, the expenses $698,750 47, and the net earnings $821,607 84—an increase, compared with the year 1874, in earnings of $269,552 62, in expenses of $141,108 63, and in net earnings of $128,443 99. From the full report which has since been issued we have obtained the following additional information. The directors say:

The increase of earnings and expenses for the year are attributable, in part, to the leases made Oct. 1, 1875, with the Kansas City, Topeka and Western Railroad Company, a road running from Kansas City to Topeka (a distance of 67 miles), and the Pueblo and Arkansas Valley Railroad Company, a road running from the west line of the State of Kansas (in process of construction) to Pueblo, Col., 148⅛ miles. The Colorado and New Mexico Railroad Company from the State line to Granada, Col., a distance of 11 miles, being consolidated into the P. and A. V. Railroad Oct. 1, the lease with this company is canceled. The aggregate net earnings of these leases from Oct. 1 to Dec. 31, 1875, were $40,525 57.

The amount due for transportation done for the United States Government to December 31, 1875, is about $120,000. The case has been argued in the Court of Claims for our approved account to April 1, 1875, $68,690 13, and will speedily reach the Supreme Court, where alone the question can be finally decided.

The notable event of the year, and the one which promises to be a source of large revenue to the company, is the construction of the Pueblo and Arkansas Valley Railroad, from the terminus of your road to Pueblo, Col., which will be completed on or before March 1, 1876.

This road has been leased by your company for the term of thirty years without any guaranty; and the value of this enterprise to the company cannot be over estimated. It gives us a western terminus, which commands a large amount of traffic both in freight and passengers east and west. It opens a new route for the tourist to "the Switzerland of America," which cannot fail of extensive patronage by the six thousand annual visitors to that attractive region. It furnishes a ready market for much of the produce of Kansas in the mining regions of Colorado. It provides for the use of the company, and of the settlers all along our line, a superior quality of coal at a cheap price. It brings our road nearer by a hundred miles to the vast and rich territory lying south and west of Kansas than any other railroad. We become the direct avenue for the business of Southern Colorado and New Mexico, and the San Juan country; by our conjunction with the Denver and Rio Grande Railroad at Pueblo, we can scarcely fail to secure a large share of the trade pertaining to those sections.

Scarcely less important than the accession of a commanding terminus on the west is the possession of a connecting line, under our own control, with a great railroad centre on the east. This your Board has also acquired during the past year. The lease of the Kansas City, Topeka and Western Railroad from Topeka to Kansas City, brings us into connection with the whole railroad

system of the older States, and gives us control of a complete line of road through from the Missouri river to the Rocky Mountains. A reference to the map of the United States will readily convey an idea of the great value of this connection to your property. This lease is for a term of thirty years, and without guaranty.

The last report of the State Board of Agriculture, Kansas, gives the following, viz: In 1873 Kansas raised 29,000,000 bushels of corn; in 1874, only 16,000,000 bushels; 1875 shows a crop amounting to 81,000,000 bushels. The wheat crop of 1874 was 9,000,000 bushels, while that of 1875 is 13,000,000 bushels. The year has been remarkable for its abundant harvest. More than a million acres have been added during the past year to her cultivated area. It argues strongly for the increase of the value of your property that it is in the State of Kansas. Her growth has no parallel in the history of any State. Admitted into the Union in 1861 with a population of 107,206, it grew even in time of war, and in 1865 had a population of 135,807, and now it has within its borders more than half a million people. Kansas has to-day a larger population than Vermont or New Hampshire, more than twice as large as that of Rhode Island, and four times as many people as Nebraska.

It must be remembered that Kansas contains 81,318 square miles, or more than 52,000,000 acres, and that at present less than 5,000,000 acres are improved; the remainder it wild prairie. And as an indication of the enterprise of the State, and of the belief of capitalists in it as a good place for investment, it may be mentioned that already Kansas is the eighth State in the Union in the extent of its railroads. New York, Pennsylvania, Ohio, Indiana, Illinois, Iowa and Missouri, and these only, have each more miles of railroad than Kansas. The six New England States together have only twice as many miles of road as this new Commonwealth less than twenty years old. Yet only two roads cross the State from east to west, one of which is our own; and the other is from sixty to a hundred miles distant from ours. It is evident that both of these roads must have a constantly increasing business.

The tide of emigration will of course follow the line of the railroads; and as it is admitted that along our road are situated the best lands of the State we may naturally expect that we shall have a large part of the new population on our territory. As shown in the last report of your Board the per cent. of increase, both in population and in acreage of cultivated land, was considerably greator in the counties along our road than in any other part of the State. It is perfectly safe to assume that this percentage will be increased during the year to come.

The superintendent, in his report, states that the track and road bed have been much improved during the year at a total cost of $103,565 81. For the coming year there will probably be required, to maintain the track in a good state of repair, about 1200 tons of re-rolled iron, and about 35,000 cross ties. The bridges, generally, are in good order, and it will not be necessary to renew anything this year. The locomotives are all in good condition and will need only the usual running repairs during the year. If the present prospect for business in 1876 is realized, not less than ten or fifteen new freight engines should be added to our equipment. A large addition will also be needed to the freight cars to do the business of 1876. In regard to the wheat traffic, the cattle business, wool shipments, etc., the superintendent says:

The prospects for 1876 are that with an average season the wheat crop will be fully one-third greater than this year; and, from present indications, it will continue to increase from year to year at a rapid rate. We may fairly consider the transportation of this grain as our surest and most valuable traffic. Kansas wheat is of such superior quality that it can alway pay remunerative freights, and at the same time give good profits to the producer. The price for best quality wheat at points as far west as Newton, ranged as high as $1 25 per bushel during the best of the season.

The drive of Texas cattle was lighter than usual the past year; but there was a large increase in the shipments from Colorado. The reports from large owners of cattle in Texas indicate that the drive of 1876 will be larger than for several years past; but this business is of an uncertain nature, and not much calculation can be made upon it until the cattle are located. The proposed change in the "Dead Line" law will shut out Great Bend as a shipping point in Texas cattle; the new line cutting this road north and south near Dodge, leaving a trail open to Wichita. The country south of Dodge is of such a favorable character for holding cattle in, that it will no doubt be largely occupied the coming year. The establishment of a military post a hundred miles south of Fort Dodge seems likely to insure that section from Indian depredations; which danger has hitherto prevented the cattle trail from spreading so far westward. West Las Animas will probably be the principal shipping point of Colorado cattle. The adjacent country is of a favorable description; and the establishment of large slaughter houses at this point will tend to make it a good market. Messrs. Reed, Haines & Co. of Chicago, parties with considerable capital, have built a permanent stone building on our grounds, near Las Animas station, with all appliances for dressing beef in large quantities for Eastern markets. Their first shipments were made near the close of the year; but up to the present writing they have shipped 40 cars of dressed beef. If this company meets with fair success it is their intention to put up a packing house another season.

The wool shipment from Colorado and New Mexico for 1875 was 2,575,350 pounds against 1,670,850 pounds in 1874. This traffic also bids fair to increase rapidly, as the profit of sheep raising is attracting much attention.

The passenger earnings for the eight months of 1875, to Aug. 31, showed a falling off from the corresponding months of 1874, of about $48,000; but, in the succeeding four months, the earnings in 1875 were $148,106 against $105,190 in 1874, showing a gain of $42,916. We can reasonably expect a large increase to our passenger business in 1876. Immigration prospects were never better, both to our Kansas lands and to the rich mining districts of the San Juan country; and, in addition to this class of travel, we ought to control a fair share of the tourist travel to Colorado.

The percentage of expenses to earnings was somewhat increased by the heavy tonnage of free freight carried for the benefit of the grasshopper sufferers and on account of Mennonite contracts.

The total tonnage of free freight was as follows:

	Pounds.
On account of Mennonite contracts....	1,798,000
On account of grasshopper sufferers...	9,972,000
Coal and other Co. material.....	86,766,000
Total	98,536,000

The previous statement of cost of handling freight per ton per mile is based on paying freight only. By including free freight, we have the actual cost per ton per mile, 1 73-1000 cents.

The Acting Commissioner of the Land Department, in his report, says:

Our bills receivable Dec. 31, 1875, amounted to $1,982,054 42. Of this amount $112,241 15 (which is less than five per cent of the whole amount) remains due and unpaid. This would show still better, had all dead sales been canceled, and which are included in the due and unpaid.

There has been 75,415.33 acres of land sold during the year for $416,409 85 at an average of $5 59 per acre. More acres were sold in the last four months of the year than in the first eight months. The total amount of sales for the last three months exceeded the total amount of sales or the first nine months, showing that the remarkably fine crops of 1875 are having the effect of rapidly restoring confidence where so recently all business had been prostrated by the grasshopper panic of the fall before, added to the financial depression of the country.

Immigration is beginning to move into Kansas, and particularly to the line of our road, in such force as to indicate an unusually active season. Business of all kinds is looking up. A large area of land has been sown to fall wheat, estimated to be three times the area that was sown in the fall of 1874; and it gives promise of yielding a good crop. The outlook is so encouraging that we feel warranted in estimating that the sales of 1876 will be double those of the previous year.

Oakland and Berkeley Branch Railroad.

The Oakland and Berkeley Branch of the Northern Railway is owned by the managers of the Central Pacific Railroad Company, and is being constructed by the Western Development Company. Charles Crocker, of the Central Pacific, when before the City Council for the right of way through certain streets in West Oakland, stated that the Northern Railway would run direct to Tehama via Martinez and Suisun, and would probably be, eventually, pushed on as the main line to Oregon. He also stated that his company would construct a branch to Bantas, on the Central Pacific, so as to drain all the eastern and southern roads of their fast as well as their heavy trains, thus avoiding the heavy grades and circuitous route by Livermore. The Northern Railroad has already been completed some twenty miles beyond Tehama, and work on that end is being vigorously pushed. The Oakland and Berkeley branch is also being pushed with all the men whose labor can be turned to account between Oakland Point and Berkeley. The track, with the exception of the crossing of the Seventh street local road, has been completed up to where the line puts out across the eastern arm of the bay between the Point and the Willows, and about two hundred men are engaged in grading between the Willows and Berkeley. The road will cross from the Point to the Willows, a distance of 2,500 feet, on piles, and more than one-half of this distance has already been piled, and it is expected that trains will cross to the Willows within three weeks, and that in the course of four or five weeks the locomotive will roll into Berkeley. It is reported, also, that the heavy work on the road—the deep cuts and fills and the tunneling in the vicinity of San Pablo—is being pushed with vigor, and it is believed that before the end of September, Martinez will be within one hour of Oakland. —*Oakland Tribune, May 5th.*

☞ Certificates of incorporation of the Grand Rapids, Paulding and Decatur Railroad, from Grand Rapids, Michigan, to the Indiana State line, capital stock $400,000, by Calvin L. Noble and others; and of the Cincinnati, Reading, Sharon and Hamilton Railroad, from Cincinnati to Hamilton, capital stock $200,000, by W. H. Hill and others, were filed with the Secretary of State of Ohio on the 10th inst.

☞ The officers of the Delaware and Hudson Canal Company, elected on the 9th inst., are: Thomas Dickson, of Scranton, Pa., President; Colonel F. Young, of Honesdale, Pa., General Manager; Jas. C. Hartt, of New York City, Treasurer, and George L. Haight, of New York City Secretary.

☞ The $1,500,000 Water Loan Bonds of the city of Providence, bearing 5 per cent. interest in gold and having 30 years to run, has been awarded to Messrs. Blake Brothers, of Boston, at $106 11-100. The aggregate amount of bids was about $6,000,000.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, May 20, 1876.

Financial and Commercial Affairs.

During the week the offerings of Money have been very liberal, generally far in excess of the urgent requirements of responsible borrowers, whether for speculative or for legitimate business purposes; and rates have been ruling easy with no present indications of an early change in these conditions of the loan and discount market. Operations at the Stock and Gold Boards have been on a restricted scale, and the needs of prominent dealers, in the financial line, have been promptly provided for on the basis of 2¼@4, mainly at 3@ 3½ per cent on call. In the line of mercantile credits very little animation is noted. Really choice to prime commercial paper is scarce and in demand, with discount rates quoted at from 4½ @6 per cent per annum. General merchandise interests at the moment show little evidence of activity. In the line of domestic produce the current movements are comparatively liberal, notably so in Breadstuffs, Provisions and Cotton, which however, are irregular in price. The export trade in Breadstuffs, Cotton, Pork, Lard and Bacon is fair. The City banks are stronger, while the U. S. Sub Treasury is weaker, in its reserves, than on the preceding weekly exhibits. The U. S. Sub Treasury currency balance was reduced $165,122, and the specie reserve $1,475,997. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4,-451,000. The City Banks have had their deposits enlarged $2,231,300; and their legal tender reserve $3,461,200. The specie average has been reduced $928,400. The loan and discount item was cut down $1,206,800. The circulation was

diminished $58,900. The U. S. Sub Treasury in this city closed the week with a currency balance of $38,264,718 against $39,815,941 the preceding week; and a coin hoard of $42,201,059 against $43,677,056 on the previous return. The City bank exchanges in currency reached $381,-427,075, or a daily average of $63,571,178. The customs revenue of the port during the week was $1,640,000. The City banks reported their average of gold last week at $18,881,000, and their greenback average at $42,643,400. Their deposits stood at $207,900,300. The loan item was $255,808,800. The circulation was $16,140,500.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $9,549,-325, as against $7,569,350, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, May 1st was $411,-456,078. The outstanding amount of legal tender notes is $370,527,876. The National bank circulation is now $335,970,306, including $2,099,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $10,800,527; special deposit of legal tenders for the redemption of certificates of deposit, $36,530,000; Coin, $72,941,134; Coin certificates, $27,977,600.

The week's import entries of Foreign Merchandise at New York were $4,865,677, including $758,099 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 102½ millions; and from Customs, 182½ millions.

Gold has not varied much during the week. The speculative dealings have been comparatively moderate. The export drain has been to a fair aggregate. The customs call has been light. The market closed firmer. The extremes of the price during the week have been 112¼@112¾, closing on Wednesday at 112⅝, as against 112¼ on Wednesday of the preceding week. The specie outflow last week was $1,571,859, against $2,701,583 the previous week. The imports of specie at this port last week were $25,527, and since January 1st $1,583,231 as against $6,022,045 same time last year. The customs demand for gold last week averaged $273,333 per day. Foreign Exchange has been in fair request and held more firmly, but closed dull. Bankers sixty day bills on London closed on Wednesday at $4 88@$4 88¼; sight bills on London at $4 89⅛@$4 89¾ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $3,780,250. The week's imports of Dry Goods and general merchandise were to the specie value of $4,865,677 as against $4,550,362 the corresponding week of 1875.

Government Securities have been in generally good demand on investment account, and have been quoted, in most instances, stronger, on restricted offerings of the principal issues. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $345,321,850.

U. S sixes of 1881 closed on Wednesday of this week at 122¾@122⅞; U. S. Five-Twenties of 1865, at 114⅝@114⅞; U. S. Five-Twenties of 1865, consolidated, 118⅞@119⅛; U. S. Five-Twenties of 1867, 121@121¼; U. S. Five-Twenties of 1868, 123@123¼; U. S. Ten-Forties at 118½@118¾; U. S. Fives of 1881,(Funding Loan) 117⅜@117⅝; Six per cent. currency Sixes, 127@127½.

State and Railway bonds have been more active, having been more freely purchased by investment buyers; and at the close, quoted generally stronger. And in the line of Railway and Miscellaneous share property business has been much less extensive and prices have been very irregular, closing rather weak, in most instances.

Domestic produce movements show considerable life. Breadstuffs, Provisions and Cotton fairly active, but at irregular figures. Navel Stores quiet and drooping. Petroleum in better demand, and, at the close, steadier. Wool has been dull and heavy, influenced in part by recent failures in the manufacturing line. General merchandise has been comparatively quiet. Metals have been moderately dealt in. Iron quoted easier in price. Sales have been reported of 2000 tons No. 1 and 2000 tons Forge No. 2 American Pig, and 700 tons Scotch Pig on the basis of our quotations. Eglinton Pig Iron quoted here at $27 50@$28 50; Glengarnock $29 50@$30; Coltness $30@$31; No. 1 American Pig at $22; No. 2 do. at $20; Forge, $17 50@20; American Rails at works, $40@$45; Old Rails $22 50@$25. Wrought Scrap, $28@$30. Ocean freights have been more active especially in the line of Grain room on berth and charter, with rates however closing somewhat irregularly.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ Judge Ames, of the Supreme Court, has declined to grant the petition of the President of the Eastern Railroad for the appointment of Trustees for that company under the recent act of the Legislature until certain questions are decided by the full court. The ground of Judge Ames' action is that there is a doubt whether the court, notwithstanding the act of the Legislature, has any authority to appoint Trustees, and this point will be argued before the full court in June.

☞ The whole amount ($1,500,000) of the six per cent gold loan of the City of Cincinnati was taken at 103½@105.

Railroad Earnings.

The earnings of the Chicago and Alton Railroad for the first week in May, 1876, were $89,083 60, against $79,993 02 for the first week in May, 1875, an increase of $9,090 58. From January 1 to May 7, 1876, the earnings were $1,450,888 26, against $1,459,722 42, for the corresponding period of 1875, an increase of $9,134 16.

The earnings of the Ohio and Mississippi Railroad for the first quarter of May, 1876, were $82,-416 98, against $65,589 87 for the first quarter of May, 1875, an increase of $16,827 06.

The earnings of the Michigan Central Railroad for the first week in May, 1876, were $148,804 86, against $127,126 45, for the first week in May, 1875, an increase of $21,678 41.

The earnings of the Chicago, Milwaukee and St. Paul Railway for the first week in May, 1876, were $170,000, against $168,937, for the first week in May, 1875, an increase of $1,063. From January 1, to May 7, the earnings were $2,433,262, against $2,100,745 for the corresponding period of the previous year, an increase of $332,715.

The earnings of the Missouri, Kansas and Texas Railroad for the first week in May, 1876, were $43,142, against $38,753 for the first week in May, 1875, an increase of $4,389.

The earnings of the Toledo, Peoria and Warsaw Railway for the first week in May 1876, were $30,663 97; for the first week in May, 1875, $16,-653 18—increase, $14,010 79.

☞ The earnings of the Atchison, Topeka and Santa Fe Railroad for the month of March, 1876, were $180,246 52, the expenses $85,580 35, and the net earnings $94,666 17. For the three months ending March 31, 1876, the earnings were $441,795 61, the expenses $225,568 31, and the net earnings $216,227 30. For the month of March, 1875, the earnings were $104,051 52, the expenses $46,001 20, and the net earnings $58,050 32. For the three months ending March 31, 1875, the earnings were $251,120 47, the expenses $131,-593 54, and the net earnings $119,526 93.

☞ The Cement Companies and others have long felt the necessity of having some accurate way of ascertaining the strain that their Cement will stand. The Riehle' Bros., proprietors of the Philadelphia Scale and Testing Machine Works, have just made a Machine for this purpose for a Company in New York, that is likely to be very popular, being very simple, cheap and accurate.

☞ John A. Jones, Master in Chancery of the Circuit Court of the United States, Southern District of Illinois, sold at auction, on the 17th inst., under a decree of the court, the Lafayette, Bloomington and Mississippi Railroad, leased line of the Toledo, Wabash and Western, for a debt of $1,-445,941 91, with interest. It was bought by Mr. John T. Martin on behalf of the bondholders for $500,000.

☞ Thos. D. Messler has been elected Third Vice-President of the Pennsylvania Company, and Assistant to the President of the Pittsburg, Cincinnati and St. Louis Railway Company. Mr. Messler's office will be in Pittsburg.

☞ Judge Emmons, of the United States Court, has granted a decree for the sale of the Paducah and Memphis Railroad.

Louisiana Consolidated Bonds.

The following notice was issued by the Committee on Securities at the Stock Exchange, on the 17th inst.:

Upon a report of this committee the Governing Committee has ordered that the consolidated bonds of the State of Louisiana issued under an act to provide for funding obligations of the State by exchange for bonds, etc, approved January 24, 1874, dated 1st of January, 1874, payable to bearer, 40 years from date with interest at 7 per cent per annum, coupons payable January and July, the 1st, Nos. 1 to 8,229, inclusive, each for $1,000; Nos. 1 to 871, inclusive, for $500 each, to be placed in the regular list called L uisiana consolidated bonds, and that bonds Nos. 1 to 3,541, inclusive, each for $100, to be called small bonds.

EDWARD BRANDON, Chairman.

Cheshire Railroad.

The annual meeting of the Cheshire Railroad Corporation was held at Keene, N. H., on the 10th inst. Forty-seven hundred and thirty five shares were represented. The following Board of Directors was elected: Ephraim Murdock, Jr., President; John Henry Elliot, Clerk; Samuel Gould, George F. Williams, John B. Meer, William A. Russell and Edward C. Thayer. It was voted to issue two hundred thousand twenty year bonds to provide for the indebtedness falling due in 1877. The gross earnings for the past year have been $656,264 70; gross expenses and interest, $683,234 59; deficit, $26,969 89. This deficit has been caused by a purchase of $58,000 worth of steel rails, and by a great reduction in rates on freight.

☞ In the United States Circuit Court at Chicago, on the 11th inst. Judge Drummond refused the application of Osterberg for a personal deed of the Rockford, Rock Island St. Louis Railroad, but stated that such deed would be given him as Trustee of the road for the bondholders provided the court was convinced by an examination of Osterberg's accounts, which has been ordered, that he is a proper person to be intrusted with such deed.

☞ The steamer Morgan City, 1,700 tons, sister ship of the Algiers, arrived in New York from the Harlan & Hollingsworth Works, Wilmington, Delaware, on the 5th inst., and sailed on her first voyage to New Orleans on the 13th. This is the fourth ship constructed for Morgan's New York, New Orleans and Texas lines within a year. Messrs. Chas. A. Whitney & Co. are the agents at New York and New Orleans.

☞ The Yolo (Cal.) Mail says that the tracklayers on the Knight's Landing and Tehama Railroad have finished putting down the rail to Black's station, six miles northwest of Cacheville, and are continuing the work towards Antelope, where it is thought they will reach by the middle of May.

☞ The Milwaukee Wisconsin says that the Green Bay and Minnesota Railway Company intend to extend the line of their road to La Crosse by laying a branch road from Marshland Junction to Onalaska, the same to be completed by the 1st of July next.

☞ The St. John, N. B., News says that six miles of the Quaco and St. Martins Railway are now graded and ready for the rails.

Commerce of New York.

The foreign imports at New York for the month of April, 1876, are officially stated as follows:

	1875.	1876.
Entered for consumpt'n.	$12,554,059	$8,976,397
Do. for warehousing	9,454,372	8,224,335
Free goods	6,605,645	6,485,507
Specie and bullion	1,423,291	117,993
Total entered at port...	$30,037,367	$23,804,232
Withdrawn fr. wareh'use	9,987,429	7,665,238

The foreign imports at New York for four months from January 1, were:

	1875.	1876.
Entered for consumpt'n	$59,380,932	$47,912,226
Do. for warehousing...	34,764,095	32,801,126
Free goods	30,335,381	31,266,884
Specie and bullion....,	5,601,152	1,576,452
Total entered at port..	$130,081,560	$113,556,688
Withdrawn fr. wareh'se	34,916,033	28,394,631

The foreign imports at New York for ten months of the fiscal year, were:

	1875.	1876.
Six months ending January...	$175,110,736	$148,376,529
January	24,831,250	29,756,259
February.....	36,923,360	27,977,330
March...	38,289,583	32,018,867
April....	30,037,367	23,804,232
Total ten months..	$305,192,296	$261,933,217
Deduct specie	9,498,073	7,474,032
Total merchandise	$295,694,223	$254,459,185

The duties received at New York for ten months ending with April, were:

	1874-'75.	1875-'76.
July	$9,654,569 49	$9,273,546 61
August	11,802,593 20	11,417,505 51
September	11,400,273 11	10,163,829 28
October..	8,678,567 56	8,208,316 27
November	6 864,435 53	7,034,576 39
December....	6,812,995 27	5,349,574 79
January.....	8,072,846 12	8,160,728 44
February.....	11,811,046 95	9,473,003 56
March...	10,323,619 78	10,237,275 36
April....	9,603,087 82	7,764,457 04
Total...	$94,024,034 83	$87,082,813 25

The exports from New York to foreign ports in the month of April, were:

	1875.	1876.
Domestic produce..... ..	$18,933,522	$17,456,396
Foreign free goods.....	226,017	286,205
Do. dutiable.....	441,316	517,250
Specie and bullion.....	6,018,678	3,919,512
Total exports..... .	$25,619,533	$22,179,363
Do. exclusive of specie.	19,600,855	18,259,851

The exports from New York to foreign ports for four months from January 1, were:

	1875.	1876.
Domestic produce.....	$74,002,675	$76,097,653
Foreign free goods.....	1,002,664	1,406,528
Do. dutiable	1,581,066	1,805,659
Specie and bullion.....	23,320,593	15,267,457
Total exports	$99,906,998	$94,577,297
Do. exclusive of specie.	76,586,405	79,309,840

The exports (exclusive of specie) from New York to foreign ports for ten months ending with April, were:

	1875.	1876.
Six months ending January 1	$140,508,524	$134,944,600
January..	19,291,403	21,800,226
February	18,111,985	18,304,987
March...	19,582,162	20,944,776
April....	19,600,855	18,259,851
Total produce....	$217,094,929	$214,254,440
Add specie...	54,924,155	32,468,769
Total exports.....	$272,019,084	$246,723,209

Southern Pacific Railroad.

The Bakersfield Californian says that the iron is laid on the Southern Pacific for seven miles above Caliente, and the road bed is ready for a long distance beyond. All the tunnels are through except one, which has but 100 feet unfinished. The track, it is expected, will be laid to Tehachapi within sixty days. The tunnel through the San Fernando mountain is finished for 4,480 feet, leaving 2,542 feet to be taken out. At the rate of twenty-four feet a day it will take till July 1st to complete the work. By that time the track will be laid from Tehachapi to San Fernando, and the cars will doubtless be in Los Angeles by the 4th of July.

☞ The aggregate extent of line in operation in France at the close of last year was 12,376¼ miles, as compared with 11,950 miles at the close of 1874. It follows that the extent of new line opened in France in 1875 was 426 miles.

CAR WORKS FOR SALE.

THE works of the Ohio Falls Car and Locomotive Company will be sold, at public auction, at the Courthouse door, in Charlestown, Clarke county, Ind., on SATURDAY, June 10, 1876, between the hours of 9 o'clock A. M. and 4 o'clock P. M. These are the largest and most complete car works in the country; are located adjacent to Jeffersonville, Ind., and are well adapted to other branches of manufacture. For printed circular containing full description of the property and terms of sale, which are extremely liberal, address JOS. W. SPRAGUE, Agent for Trustees, Jeffersonville, Ind. 4t20

FURNISH CHILLED WHEELS for Cars, Trucks and Tenders. CHILLED DRIVING WHEELS and TIRES for Locomotives. ROLLED and HAMMERED AXLES.

WHEELS and AXLES FITTED COMPLETE.

ABSOLUTE SAFETY
AT
SEA!

LIFE SAVING SUITS
FOR
Ocean Travel.

The Continuous Disasters at Sea and the almost countless lives that have been lost, urge the introduction of more effective appliances for saving life than have yet been generally adopted. In response to the great public demand, the American Life Saving Suit Company now presents a

Practical Life-Saving Suit.

This suit having been tested and approved by the most scientific and practical authorities, we now offer as a means of absolute safety from death by drowning. The invention now offered claims its superiority over all similar inventions, in that it floats the body in a vertical position in the roughest sea, preserves the natural caloric of the body for any number of days, with capacity for carrying provisions for ten days; and signals to attract attention from passing vessels.

This suit embodies three principles, which are imperative in a life-saving dress:

First—A buoyancy which supports the body in a vertical position, and maintains it as from a natural law.

Second—Protection from water and weather, and consequent chill.

Third—A commissariat department, to which is attached signals, with capacity for carrying valuables, etc., etc.

This suit is put on over ordinary clothing except shoes and hat, and can be put on inside of five minutes, and is let to passengers on transatlantic steamers at the low price of FIVE DOLLARS A TRIP.

"This life-dress is one of the most valuable inventions—perhaps *the most valuable*—to be found anywhere. It is an absolute preserver of life in the event of wreck or fire or any form of sea-accident, by which the vessel is destroyed. Had the *Schiller*, or any of the lost fleets of past years, been amply provided with these suits, no one life—except, perhaps, some infant's—need have been loss. Scarcely one of all the ships which in the past have sailed silently away and have never afterwards furled their sails and come to the shore again, would have gone down unstoried, with no survivor left to tell the dismal tale of collision, of ice-pack, of breakers, of hidden rock, of fire, or of destructive gale, had each and all borne these suits as a part of the outfit. With the history of the past strewn with wrecks of preciously freighted ships, who shall say that any device which robs shipwreck of its chief terrors, is not one of vast importance and priceless value?"

This Company also own THE BEST LIFE PRESERVER IN THE WORLD—*can be adjusted in one second.* It can be carried in the pocket. No person traveling either on the lakes, or river steamers, should be without one.

Call and see both the above, or send for pamphlet.

THE AMERICAN LIFE-SAVING SUIT CO.,

☞ The last section of the Oregon Central Railroad has been inspected by the Commissioners appointed to examine the road in behalf of the Government—Messrs. E. R. Geary, James H. Fish and C. H. Lewis—and accepted. The road was finished several years ago, but for some reason only one section was inspected after its completion.

The Bessemer Process.

About the time of the Crimean war, Mr. Bessemer made some suggestions to the British Government on the subject of a new projectile, by which rotation could be secured without rifling. The idea was ridiculed. Being in Paris soon after, Mr. Bessemer mentioned the matter to the Emperor Napoleon, who thought it worth a trial. Accordingly, experiments were made at Vincennes, and proved satisfactory. Eight out of ten boards, 100 meters apart, were pierced by the shots, which, being japanned, evidenced by abrasion the extent of their rotation. The experiments were continued, but stopped on account of the weakness of the guns employed, it being necessary to fire a 90-pound elongated shot from a 30-pounder smooth bore. In point of fact the metal of which ordnance were then cast, whether iron or bronze, was not strong enough to bear so great a strain. Hence, Mr. Bessemer's attention was turned to the possibility of improving it; and the French Emperor informed Mr. Bessemer, by autograph letter, that he might draw on Barings to any amount for his expenses.

The natural outcome of Mr. Bessemer's meditations upon the purification of iron was the suggestion that by blowing air or steam into it while fluid, its impurities—carbon, phosphorus, silicon and the like—would be burned away, and a "mild steel," easy to cast and of considerable strength, would be the result. This was not reached at one leap, nor without great labor and numerous experiments. A small furnace was put up, and air forced by an air-pump through a bath of molten iron. The heat produced was so intense as to melt the Stourbridge fire bricks, of which the furnace was built, and reduce them from 4½ inches in thickness to a mere shell half an inch thick. Later experiments were made on quantities of iron varying from 10 to 15 cwt., and the result was deemed so successful that Mr. Bessemer, after taking out several patents, proclaimed his method to the world in a paper read at the Cheltenham meeting of the British Association in 1856, under the title, "On the Manufacture of Iron and Steel without Fuel."

The new process was severely criticised, and was met with the objection that phosphorus and sulphur, two deadly enemies to iron, were not removed. The remedy was, however, soon found in the exclusion of all iron containing these two elements from the operation of the Bessemer converter, which was the improved form of the crucible-shaped vessel used at first. This, and the easy adaptation of the process to the manufacture of true steel by adding to the decarburized iron a specified proportion of the useful alloy called spiegeleisen, were rapid developments of the invention, which soon assumed a permanent place in the industries of iron producing countries. The quantity of Bessemer steel made annually in England alone is over 500,000 tons.

Few inventions have spread themselves over the world so rapidly as the Bessemer process, or have been more liberally acknowledged in foreign countries. The first public body to recognize its value was the Institution of Civil Engineers (of which Mr. Bessemer is an associate), who awarded him the Telford Gold Medal for his invention. The Iron Board of Sweden made Mr. Bessemer an honorary member of that body, and the freedom of the city of Hamburg was presented to him by the municipality. The King of Wurtemburg also presented him with a gold medal, accompanied by a letter acknowledging in the most flattering terms the advantages which the invention had conferred on his kingdom. In 1872 the Society of Arts presented him with the Albert Gold Medal. In Austria the invention had been most successful, and the Emperor conferred on Mr. Bessemer the distinguished honor of a Knight Commandership of the order of his Imperial Majesty, Francis Joseph. Among these foreign recognitions of the value of the Bessemer process, none could exceed that of America, which is indeed unique. In one of her great opening territories, where iron ore existed in myriads of tons, and which must ere long become the centre of a vast industry, the foundations of a new city have been laid, to which the name of Bessemer has been given in recognition of his invention. The Emperor Napoleon, who took so deep an interest in the invention, and who was, in fact, the indirect cause of the invention having been made, was desirous of presenting Mr. Bessemer with the Grand Cross of the Legion of Honor; but it was intimated that unless her Majesty the Queen would permit it to be worn in England the honor would not be conferred. Mr. Bessemer proceeded to Paris, and made application twice to the Foreign Office for the necessary permission and was twice refused. The Emperor, in consequence, was precluded from carrying out his original intention, but with his own hand, and with very flattering observations, His Majesty gave Mr. Bessemer a magnificent gold medal in lieu of the more highly prized decoration.

☞ A branch railroad from the Delaware and Bound Brook Railroad to Trenton will shortly be put under contract. The route has been surveyed, and the survey filed according to law.

The Coal Trade.

The return of the anthracite coal trade from all the anthracite regions for the week ending the 6th instant foots up 424,632 tons, against 311,366 tons for the corresponding week last year, showing an increase of 113,316 tons. The total amount of anthracite mined for the year is 4,969,318 tons, against 4,044,000 for same period last year, an increase of 916,138 tons. The quantity of bituminous coal sent to market for the week was 63,775 tons, against 76,258 tons for corresponding week last year, a decrease of 12,483 tons. The whole bituminous tonnage from the beginning of the coal year is 1,042,321 tons, against 977,735 tons in corresponding time last year, an increase of 64,586 tons. The total tonnage of all kinds of coal for the week is 488,457 tons, against 387,624 to corresponding date last year, an increase of 100,833 tons, and the total tonnage for the coal year is 6,002,459 tons, against 5,021,735 tons to same date last year, an increase of 980,724 tons. The quantity of coal and coke carried over the Pennsylvania Railroad the last week was 98,924 tons, of which 81,775 tons were coal and 17,149 tons coke. The total carried this year is 1,234,709 tons, of which 1,012,606 were coal and 223,203 coke. This total embraces all the coal carried over the road, east and west. At Port Richmond for the week ending on the 13th instant there were receipts of 45,000 tons of coal and shipments of 29,000 tons, leaving 183,500 tons on hand. We continue to quote freight charges to New York at 85 cents, Providence at $1 20@$1 25, and to Boston at $1 35@$1 40 per ton. At Perth Amboy for the week ending on the 6th instant the receipts of coal were 19,974 tons and the shipments 18,351 tons, leaving 105,487 tons on hand. Freights to Boston, 95 cents; New Haven, 65 cents; Hartford, $1; Providence, 80 cents.—*Phila. Ledger, May* 15.

☞ At the half-yearly meeting of the Grand Trunk Railway Company of Canada, held in London, Eng., on the 27th of April, Sir James Ramsden, Mr. Kirkman D. Hodgson, M. P., Mr. Grosvenor Hodgkinson, and Captain Tyler, were re-elected Directors of the Company.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, May 27, 1876.

Pittsburgh, Fort Wayne and Chicago Railway.

The annual meeting of the stockholders of the Pittsburgh, Fort Wayne and Chicago Railway, operated by the Pennsylvania Company, was held in Pittsburgh on the 17th inst., and General George W. Cass, J. F. D. Lanier, Hon. S. J. Tilden and General J. N. M'Cullough, were re-elected Directors for terms of three years. The total earnings of the road during the year were $7,863,664 28, while the total cost of maintaining the road was $4,690,537 72, leaving a net profit of operating of $3,264,832 66. Out of the above stated profits of operating the road, the lessee, by the terms of the lease, has to make payments for dividends on original stock of the company, dividends on guaranteed special stock, and other objects aggregating $2,745,800, leaving a profit to the lessee, after paying every charge, of $519,032 66. Of these profits the lessee reports having expended for equipment and construction the sum of $233,948 26, for which, if approved by the Board, there will be issued a like sum in guaranteed special stock in payment. The profits of the lessee will then consist of guaranteed special stock, $233,948 36; cash, $285,048 40; total, $519,032 66.

Concord Railroad.

From the report of the Concord Railroad Company, just issued, we learn that the earnings of the road for the year ending March 31, 1876, were $950,358 45, and the total expenditures $675,059 97. In addition to the latter there has been paid, in taxes and for rent of roads which they operate, $124,268 47, leaving a balance of $151,030 01. Of this $150,000 has been paid in two dividends of five per cent. The aggregate receipts have fallen off, owing to the general depression of business, $52,500; but this has been in part offset by a reduction of $17,000 in expenses. The directors have leased the Nashua and Acton Railroad for ten years, subject to the approval of the stockholders at the annual meeting on the 30th. They purchased the rolling stock, etc., for $70,000, and loaned to the road $72,500, the interest on which is to be yearly deducted from the rent. There have been no passengers injured during the year, and but one fatal accident has occurred.

Pueblo and Arkansas Valley Railroad.

The annual meeting of the stockholders of the Pueblo and Arkansas Valley Railroad Company took place at Pueblo, Colorado, May 17. The following gentlemen were elected Directors for the ensuing year:

Joseph Nickerson, Thomas Nickerson, F. H. Peabody, B. P. Cheney, Charles Ridgely, M. D. Thatcher, J. N. Carlile and O. H. P. Baxter.

On Wednesday afternoon the Board of Directors met and the annual election of officers was held with the following result: President, Joseph Nickerson; Treasurer, Thos. Nickerson; Secretary and Assistant Treasurer, M. D. Thatcher.

The Boston stockholders of the Company expressed their entire satisfaction with the result of their investment and stated that the business done by the road was far in advance of their expectations.

The Secrerary was directed to make arrangements immediately for the construction of the telegraph line from West Las Animas to Pueblo.

It is the intention of the Company to begin the erection of their permanent depot buildings on block No. 42 during the month of June.—*Pueblo Chieftain.*

American Railway Master Mechanics' Association.

NINTH ANNUAL CONVENTION.

The first session of this Convention was held at the Hall of the Franklin Institute, Philadelphia, on the 14th inst., Mr. N. E. Chapman, first Vice President, in the chair. On roll call, 65 were marked as present.

The Secretary and Treasurer made their reports, which were received and adopted.

The Committee on Improvements in the Construction of Locomotive Engines made a report. Under the head of spark arrestors one in use on the Camden and Atlantic Railroad seems to be all that is desired. It has been in use for a year through a pine and scrub oak country, where before its adoption, the engines were continually setting the underbrush on fire. Since its adoption no fires have occurred, and it will hereafter be used on all the engines of the road.

On the subject of heavy freight engines the committee reported that they had examined several styles, which had been referred to them for examination, and had concluded that the "Combination Engine" was in every respect the most desirable. When first projected by Mr. Alexander Mitchell, of the Lehigh and Mahanoy Railroad, it was thought by engine builders to be so much an innovation that the projector was compelled to have it built on his own responsibility. The advantages over other heavy freight engines were at once acknowledged, and it is now one of the recognized patterns. The Pennsylvania Railroad have adopted it for their freight traffic. It effects a saving all round, in labor, repairs, fuel, cost, etc., equal to one-fifth over the cost of the ten-wheel engines. It will draw eighty or ninety loaded cars at the rate of fifteen miles per hour, or two-fifths greater load than the ten wheel class.

The report was received, and discussion upon it was set down for 11 o'clock the following morning.

On motion, the sessions of the Convention were set down to take place from 9 to 1 o'clock, and from 2 to 5 o'clock.

The report of the Committee on Metals for Locomotive and Tender Bearings was read by the Secretary. Circulars were sent to the officers of all the roads, and replies to questions contained therein showed that the metal used by fifteen roads who had sent in replies was composed of a

composition of tin and copper, varying in proportions from five to nine of copper to one of tin. Several use a bearing composed of a skeleton or shell of brass, filled in with a white metal composed of lead, tin and antimony. With solid brasses it has been found that it is impossible to prevent hot boxes. A number prefer the use of Babbitt metal, some placing the advantage as high as two to one as compared with any other metal.

A discussion on this subject ensued, and the differences of opinion were very marked. It was suggested by Mr. Watson, that the difference in wear was due to the fact that all sorts of composition had been used and called Babbitt metal.

The next paper was on the question: "Is it economical to use injectors on locomotives, and if so, to what extent?" The Secretary read the report of the committee to whom the subject had been referred. It detailed experiments with pumps and injectors, and gave as a conclusion that the great advantage of the latter over the former, was, that their action was continuous and not spasmodic or at the will of the engineer. This resulted in keeping the temperature of the boiler more even, and created less expansion and contraction of the tubes and plates.

A discussion ensued, which was principally confined to the question of what was the proper place to introduce the water into the boiler. The general sentiment appeared to be that the front end away from the fire box was the most economical way, especially if the injectors were used. The discussion was then closed, and the subject was continued in the hands of the committee for another year. On motion, Messrs. Woodcock, Forney and Peter Clark were appointed as such committee.

The afternoon session commenced at two o'clock The report of the committee on "the best material, form and proportion of locomotive boilers and fire-boxes" was read by the Secretary.

Reports had been received from nineteen railroads. Those who have used steel boilers most largely gave them an undoubted preference. The committee called attention to the superior tensile strength of steel over iron. The cost of building the boilers is no greater, and the first cost entire is but one or two hundred dollars greater. The same thickness should be used as is usual with iron.

The same companies also give a preference to steel fire-boxes. Out of 1040 engines using them, the number of sheets ruptured within two years was 125. Of these 121 were side sheets; 118 of these ruptures occurred near the vertical or centre line; most of the cracks commenced near a stay bolt. The question demanding solution is, Why is it that the side sheets only of comparatively deep fire-boxes are ruptured? The quality of the water used in the boilers has, without doubt, a great deal to do with the rupture. Water which has a large proportion of carbonate of lime deposits this in a scale, and at such points the sheet not being in direct communication with the water gets much hotter, and expands unequally and loses its tensile strength. The quality of metal, therefore, does not always prevent rupture. The committee are of opinion that ruptures are due to a combination of causes.

Ruptures have occurred under almost all circumstances, except when there was water in the boiler and on the grate. No cracks in those reported have been in a horizontal direction. Diagonal cracks result from tensile strains in both vertical and horizontal directions. The report proposed to remedy these tensile strains by a modification of the form of the sheet by corrugating it at the point where the cracks always occurred

The average of 14 steel fire boxes reported in use for four to six years is 187,000 miles, and the boxes are still in good condition. On roads where good and comparatively pure water is used, the lifetime of a steel fire box may be stated at 300,000 miles. From all data it is concluded that the character of the water determines the life of the fire box rather than the quality of the metal. Corrugated steel sheets are now being used quite generally. There are not sufficient data to make a comparison between them and iron fire boxes.

For bituminous coal a large and deep fire box, and for anthracite coal a long and shallow fire box are acknowledged to be the best forms. It should be borne in mind that the greatest heat developed is radical, and is not contained in the heated gases. From this fact it is concluded that an increase of heating surface is not always productive of beneficial results, though a large fire box would probably produce a saving in fuel. Positive knowledge, however, on this subject, is less than in any other connected with locomotives. Many questions suggest themselves which can only be solved by experiment. Special attention to these questions is recommended for the coming year.

Mr. Wm. Fuller made a communication to the committee, which was embodied in their report on the subject of flanging steel in boiler making. More steel is destroyed in overheating than from any other cause, and in making the flanges certain appliances and forms of forges are recommended to prevent this. One great obstacle in the use of steel for boilers is the lack of intelligent workmanship.

On the subject of smoke-stacks, the committee report that the difference in results is due largely to the kind of coal used, the result of an experiment in which the sparks drawn through the tubes of the engine were collected and tested showing that 9¾ per cent. of the combustible portion of the coal used passed off unconsumed in sparks.

A vote of thanks was tendered to the committee for their thorough investigation and report.

The Convention then adjourned until the following morning, at 9 o'clock.

Second Session.

The convention assembled at 9 o'clock A. M., President H. M. Britton, of Boston, of the New York and New England Railroad, in the chair. Mr. J. H. Setchel, of Cincinnati, of the Little Miami Railroad, secretary.

Resolutions in respect to the memory of Mr. E. Pierce, of the Pittsburg, Cincinnati and St. Louis Railway, who died suddenly shortly after the last meeting, were read and adopted.

The discussion on the "Best Material, Construction, Operation and Management of Locomotive Boilers" was resumed.

Mr. Woodcock, of the Central Railroad of New Jersey, said a large percentage of trouble with engines was due to the failures of the fire-box sheets, and economy in repairs would be promoted by finding the causes of their failure. The obstacle he had met with in this investigation was the fact that two engines, built as nearly as possible from the same metal, by the same workmen, and put to the same service, would not wear equally well. He expressed the opinion that the thickness of the sheets should not be over a quarter of an inch. On his road they were making all the firebox plates of that thickness. They have some five-sixteenths thick, but they have nearly all cracked. He believed improvement was to be looked for in corrugating the plates.

Mr. Hudson, of the Rogers Locomotive Works, was not satisfied with the recommendation of the committee to use the lowest grades of steel for fire-boxes, because the lower the grade the greater the contraction on cooling. Corrugating, while it mitigates the difficulty, does not remove it.

Mr. Coolidge, of the Fitchburg Railroad, said he thought the whole subject had resolved itself into the very simple one of the purity of the water. The examples given by the committee showed that where the water was bad plates cracked.

Mr. Sedgley, of the Lake Shore Railroad, said that in his experience the quality of the steel determined the life of the plate. He had used every kind of steel, and had a low opinion of crucible steel for fire-box plates. He thought one cause of cracking was that the water was driven away from the plate by steam when the engine was working, and steam was generated rapidly, and the plate thus unprotected was raised to a high temperature. If this were not the case, he could not see how the plates could be injured by the heat produced by steam at 140 pounds pressure.

Mr. Briggs, of the Franklin Institute, make a few remarks in explanation of the process of ebullition in a steam boiler.

These remarks threw new light on many points touched upon in debate in reference to the distribution of heat in the boiler.

Mr. Wells, of the Jeffersonville, Madison and Indianapolis road, one of the committee, gave an explanation of the experiments made by the committee before arriving at the conclusions made in their report.

Mr. Setchel, of the Little Miami Railroad, called for the report on the Roberts engine, which subject had been referred to the committee.

Mr. Sedgley, said that, as the engine referred to was the only one of its class, experience in its use would suggest many changes in its construction. It has been running an express train at the rate of 50 miles an hour, drawing five cars with perfect ease.

Mr. Hudson, as a member of the committee, though not assisting to make the report, dissented from the report, if it was understood to recommend the consolidation or any other engine; he thought the needs of each road and the views of its officers would govern in that matter.

A long discussion ensued, the members of the committee stating that, though not intending to recommend any particular engine, they thought they would not be justified in withholding the facts in reference to the consolidation engine which had come to their notice.

Mr. M. N. Forney, editor of the *Railway Gazette*, read the report of the Committee on Locomotive Tests. The object of such tests is to indicate how freight and passengers can be moved at the least cost, and the money test is the test of value. If an engine saves in fuel, the use of it may cost more for train hands, oil, wear and tear of track, etc. The report detailed the results of several experiments made with a variety of engines.

At the afternoon session this report was taken up and discussed at length.

The experiments made by Mr. Dripps, of the Pennsylvania Railroad, with a dynograph upon engines of three different patterns to determine the amount of friction relatively with heavy and light engines, were regarded by many of the members as adding largely to the stock of knowledge on such subjects. Others thought that the conditions of the test were not such as with locomotives in actual service.

Mr. P. H. Dudley was unanimously elected one of the twelve associate members of the Association.

St. Louis was selected as the place of holding the next annual Convention.

The election of officers being in order, on motion of Mr. Sedgley, the election was postponed for one year, which was passed, and in effect re-elected the same officers, who have held their places from the organization of the association. They are as follows: President, H. M. Britton, Boston; First Vice President, N. E. Chapman, Cleveland; Second Vice President, W. A. Robinson, Canada West; Secretary, J. H. Setchel, Cincinnati.

The Convention then adjourned to meet in St. Louis the second Tuesday of May, 1877.

☞ The Boston Journal says that the entire capital of the Boston, Lawrence and Haverhill Railroad Company ($150,000) has been subscribed. The first assessment has been paid, and work on the road will be commenced as rapidly as the terms of the legislative act will allow. The road will be narrow gauge, and will have two termini in Boston, one at the Lowell Railroad depot and the other at the foot of High street. It is proposed to tap the Boston, Revere Beach and Lynn Railroad at Revere, so that the Lawrence and Haverhill people can have direct communication

with the beach. It is expected that the road will be in operation by November next.

Northern (N. H.) Railroad.

The earnings of this road for the years ending March 31, 1875 and 1876, were as follows:

	1875.	1876.
From passengers	$202,531 90	$181,319 97
" merchandise	408,675 53	295,148 53
" mails	14,917 50	14,910 00
" rents	2,379 52	3,106 36
" express	7,500 00	7,500 00
" miscellaneous	121 12	.....
	$536,125 57	$503,984 86

Balance of interest account		45,906 49
Total income		$173,240 91
From which deduct—		
Paid dividend Dec. 1, 1875, $2 50 per share	$74,952 50	
Dividend payable June 1, 1876, $2 50 per share	74,952 50	
		149,905 00
Balance of income account		$23,335 91

During the year 456 tons of iron and 200 tons of steel rails, and 52,020 new sleepers have been laid in the track, and about 3300 tons of rails have been repaired and relaid. One new mail and eleven freight cars have been built as additions to the equipment of the road, and one passenger engine and seventeen freight cars have been rebuilt to supply the place of others; and the road and furniture have been kept in good repair. The report says:

The statement of earnings and expenses from the agent's department, if compared with that of the previous year, would indicate a large decrease of income during the past year. But a part of the difference which thus appears arises merely from a change in the form of the accounts; the statement of last year having included certain receipts which now appear in the item of balance of interest account.

The actual falling off in the total income of the road during the year from that of the previous year, has arisen from those general causes which have so severely depressed the business of railroads, in common with other enterprises, during the year. And the competition for the through business has been still greater and more injurious than before. As suggested in our report of last year, a regard for the present interests of this road only would render it advisable to decline doing that business at the very low rates which have prevailed during the year. But since the various other roads interested have been willing to continue it, the directors of this road have hesitated to interrupt, by its own action, a main line which is so important to other interests in this section of the country if not at present profitable to our own stockholders, especially so long as they have hope that with the revival of the general business of the country, and with less suicidal competition between the roads themselves, the through business will regain some of the profit which formerly resulted from it.

For many years past this road has had great and just cause of complaint on account of the unequal and excessive charges made on its business over the roads below in the line to Boston. But negotiations now in progress will, we hope, soon result in contracts to remove the grounds of this complaint, and favorable for the future income this road. And the adjustment of accounts which have long been in controversy and unsettled, probably will make a considerable addition to our income account; and whatever shall be realized from that source will appear as a gain in the accounts of the road, because it has not been retained in them heretofore on account of the items being unsettled and uncertain.

Various circumstances—the depression of business, lower rates of dividends, and the general distrust of railroad investments, arising from the still greater misfortunes which have befallen so many other roads—have combined to unduly depress the market value of the stock of this road. But it is a favorable circumstance in the condition of the road, that its entire indebtedness is small and within its ample means to pay, so that the future income, whatever it may be, will remain for the stockholders without being required for other purposes.

The equipment of the road March 31, 1876, was as follows: 12 passenger and 15 freight locomotives, 424 long and 100 short merchandise cars, 14 passenger, 1 mail, 2 mail and smoking, 7 baggage and 19 gravel cars. Number of miles run by passenger trains, 191,287; by freight trains, 262,747; by other trains, 4,952—total, 458,986. Number of passengers carried, 163,229; do. carried one mile, 6,057,335. Tons of merchandise carried, 345,713; do. carried one mile, 21,491,953.

President.—Onslow Stearns.

Directors.—Onslow Stearns, John A. Burnham, George W. Nesmith, Uriel Crocker, Josiah Minot, Charles F. Choate, Edward Lawrence.

Treasurer.—J. Minot.

Superintendent.—George E. Todd.

☞ At the annual meeting of the Manchester and Keene Railroad Company, held at Keene, N. H., on the 17th inst., the following gentlemen were elected directors: Theodore H. Woods, Henry Colony, Geo. B. Twitchell, Edward Gustine, George Bolster, Milan Harris, Ansel Dickinson, Christopher Robb, Daniel H. Goodell, and Gilbert Wadleigh. Theodore H. Wood was elected President, and Thos. E. Hatch, Clerk. The contract for building this road is signed and work has been begun upon it in Hancock.

Texas and Pacific Railway.

The earnings of the Texas and Pacific Railway Company for the twelve months ending March last were $1,518,491 97; operating expenses, $854,918 49; leaving as net earnings, $663,572 98. The average number of miles of road in operation during the year was 324, the net earnings of which were about $2,050 per mile. The amount of the first and of the consolidated mortgage bonds of the company aggregates $25,000 per mile of six per cent. gold bonds, the interest upon which is $1,500 per mile in coin. Notice is given that the interest on the consolidated mortgage bonds of the company, due June 1, will be paid at the Philadelphia office, or at the agency in this city, No. 50 Exchange place.

Railway Features of the Centennial Exposition.

The visitor to the Centennial Exposition who desires to examine all its direct and indirect railway features has before him a task of no small magnitude. Instead of being concentrated at any one point, or at several points, they are to be found at numerous places, and in nearly all the leading departments. Some of the more noticeable things may be grouped as follows:

RAILWAY PREPARATIONS FOR THE TRANSPORTATION OF FREIGHT AND PASSENGERS TO AND FROM AND ON THE CENTENNIAL GROUNDS.

Most of these preparations have already been described in our columns in articles relating to the Centennial track and Centennial depot of the Pennsylvania Railroad Co., the extensive preparations made by the Philadelphia and Reading Railroad Co., for local travel by steam, the passenger railway concourse in front of the Main Exhibition Building, which is the central point of the horse passenger railway operations, and the West End Narrow-gauge road, which traverses the Exposition grounds, and is devoted to the transportation of passengers over its magnificent distances. It has just fairly commenced active labors, and by the special features of its track, its open cars, and the variety of patterns of locomotives used, it will constantly present to the eyes of all visitors some of the striking features of the American railway system. The following description is given of one of the locomotives used on this road, which was manufactured at the Brooks Locomotive Works at Dunkirk, N. Y.:

It is what is known as a "Mogul," with six driving-wheels, 36 inches in diameter, and cylinder 11 inches in diameter. The boiler, tank, stack, and ash-pan are made of steel, from the Otis Steel Co., of Cleveland, Ohio, and the axles and frames are of best hammered iron. The head-light and steam-gauge were manufactured by the Buffalo Steam-Gauge and Lantern Co., and bear evidence of faithful workmanship. The tender and truck wheels, nicely painted and lettered, are from the Ramapo Wheel and Foundry Co., of Ramapo, N. Y., and the "Little Giant" injector, nickel plated, was furnished by the Rue Manufacturing Co., of Philadelphia. As the engine is designed for passenger traffic, it is equipped with a Westinghouse Air Brake, and also a West steam bellringer. The cab is of black walnut, highly polished, and, in a panel, under the window on either side there is a large nickel plate, on which is engraved "Brooks Locomotive Works, Dunkirk, N. Y." The engine weighs 33,000 pounds, and has a tractive power of 750 gross tons, on a level, exclusive of curves.

The tender is beautifully painted. Upon each side of it there is an elegantly executed representation of the coat of arms of the United States, and on each end the coat of arms of New York and Pennsylvania.

The engine is to be entered for competition at

the Centennial, but instead of being placed in the building, it has been put into actual operation upon the Centennial Narrow-gauge Railway.

SPECIAL RAILWAY EXHIBITS OUTSIDE OF LEADING BUILDINGS.

This class comprises the famous John Bull engine, one of the first used in this country, and two old-fashioned passenger cars, which are stationed upon a track located several hundred feet west of the southwestern portion of Machinery Hall.

Hunt's Automatic Railway, a contrivance for unloading cars, etc., located near the John Bull engine.

The Pennsylvania Standard Railway Track, upon which postal cars are placed. This is located near the Government Building.

The Empire Transportation Co. exhibit, for which a special building has been erected at a point a short distance north of the north-eastern portion of Machinery Hall. This is the most comprehensive railway exhibit on the grounds. We will describe it at length as soon as possible.

Between the western end of Horticultural Hall and the eastern end of the American Restaurant across the ravine, workmen have been engaged during the present week in arranging the tracks, braces and timbers for a railway modeled on the Mount Washington Inclined Railway, the plan of which is so familiar to American tourists. There will be two rails with a ratchet safety-bar in the centre.

A handsome model railway ticket office has been erected by the Pennsylvania Railroad Co. on the Exposition grounds. It is located near the main entrance, and adjoins the Judges' Hall. It is to be used as a general ticket office for the four great trunk lines, and a place for furnishing information in regard to routes of travel.

RAILWAY EXHIBITS IN THE ANNEX TO THE MAIN BUILDING.

This annex is located a short distance north of the western end of the Main Building, and contains a number of cars and other railway appliances, including the following:

Pullman palace hotel and parlor cars; ordinary and narrow-gauge passenger cars, from the shops of Harlan & Hollingsworth, at Wilmington, Del.; Jackson & Sharpe Co., at Wilmington, Del.; and the Wason Manufacturing Co., at Springfield, Mass.

Street cars from the shops of John Stephenson & Co., New York; J. G. Brill & Co., Philadelphia; and J. M. Jones & Co., West Troy.

Bell punches and fare registers from the Towle Manufacturing Co., New York, and conductors' railway ticket punches from L. O. Crocker, East Braintree, Mass.

The catalogue also assigns to this building the following articles:

Car models from John A. Haase, James Hayden, and Stephen Ustick, all of Philadelphia; a steel car from the La Mothe Manufacturing Co., of New York; an improved car window from Samuel Darling, of Providence, R. I.; a plan or model of an elevated railway for cities from Richard Price Morgan, Jr., of Bloomington, Ill.; and a self-coupler for cars from R. L. Williams, Middle Granville, N. Y.

Miller's elastic surfacing liquid, applied to the bare wood of carriage and car bodies, is exhibited by Rogers, Dick & Levis, of Fort Wayne, Ind.

Isaac Dripps, of Philadelphia, exhibits safety ventilating heaters for railroad passenger cars.

Wm. G. Creamer & Co., of New York, exhibit railway car ventilators, lamps, and car trimmings.

Joseph A. Miller, of Providence, R. I., exhibit models for locomotive boilers.

The Allegretti Refrigerator Co., of New York, exhibit a railroad refrigerator car.

William & Harvey Rowland exhibit locomotive and car springs.

MISCELLANEOUS OR INDIRECT RAILWAY EXHIBITS.

In this category will be found contributions to the mineral and agricultural departments of the Exposition, which were collected by railway companies; and also the exhibits contained in various departments of the Government buildings. The latter contain a number of models from the patent office, some of which relate to civil engineering and railways; railway and general postal-route maps; and model mail cars of a small size, exhibiting the practical working of the mail-bag catcher upon a miniature track.

RAILWAY EXHIBITS IN THE MAIN BUILDING.

In the gallery at the western end of the Main Building the American Society of Civil Engineers has fitted up rooms containing a large number of drawings, photographs, and models, illustrating bridges, bridge construction, and exhibits relating to railways and rolling stock, as well as to all the branches of American engineering.

In a number of the foreign departments extensive exhibits of models, drawings, or photographs relating to engineering, are made.

Many appliances, instruments, implements, or heavy articles relating to railways or intended for railway use, are intermingled with the home and foreign departments of the Main Building.

In the department assigned to metallurgical products iron or steel rails, or both, are exhibited by the Cambria Iron and Steel Co., Johnstown, Penn.; the Cleveland Rolling Mill Co., of Cleveland, Ohio; Cooper, Hewitt & Co., of New York; Edgar Thomson Steel Co., limited, of Pittsburgh; Philadelphia and Reading Railroad Co.; S. J. Mintzer and Charles M. Nes, Philadelphia; Albany and Rensselaer Iron and Steel Co., Troy, N. Y.; railway axles by Hussey, Wells & Co., of Pittsburgh;—steel railway axles and springs by Singer, Nimick & Co., Pittsburgh; Morse & Bennett, New York; Cox, Justice & Co., Philadelphia;—anti-friction metal for solid bearings of machinery and railroads by the Guille Anti-friction Metal Co., of New York; bridge iron by Carnegie Brothers & Co., of Pittsburgh; railroad car forgings by Wilson, Walker & Co., of Pittsburgh; Bessemer car wheel and malleable charcoal irons by Rhodes & Co., Cleveland, Ohio; railroad iron by the Danville Iron Co., Danville, Penn; street passenger railroad iron by the Co operative Iron and Steel Works, of Danville, Pa.; steel and iron railroad bars by the Lackawanna Iron and Coal Co., of Scranton, Penn.; cold blast charcoal car wheel iron by Vesuvius Furnace, Etna Iron Works, Ironton, Ohio; Jefferson Furnace Co., Oak Hill, Ohio; Laurel Furnace, Robert Scott & Co., Riverton, Ky.; wrought iron work for the Main Exhibition Building by A. & P. Roberts & Co., Pencoyd Iron Works, Philadelphia.

The British department contains among its exhibits steel rails, rail sections, and railway chairs from West Cumberland Iron and Steel Co., Workington, Cumberland. C. E. Linders, of London, contributes to the hardware branch pneumatic railway signals.

The Canadian department contains car wheels from John McDougall, Montreal; and from Coldbrook Rolling Mills, St. John, New Brunswick.

Belgium sends bridge platforms from the works of Jowa, Delheid & Co., Liege; rails, tires, and axles from the Angleur Steel Manufacturing Co., Renory, near Liege; tramway rails and a system of tramway rails on cast-iron sleepers, from Jammapes Forge Foundry and Rolling Mill Co., Jammapes, Hainaut.

Sweden sends railway crossings from Ankarsrums Works, Ankarsrum.

The government of New Zealand sends photographs of the railway engines used in that country.

Denmark sends a register for cars from C. Ferslew & Co., Capenhagen.

Victoria sends seats for railway carriages from Cornish & Co., Melbourne; and a railway truck spring from Edward Stoneham, Richmond.

The Department of Railroads and Commerce of the Swiss Confederation sends standard drawings which form part of the government regulations for Swiss railways, and a report of the Gothard Railway; the railroads of Jura-bernoise send photographs of railway works and railway construction; the Gothard Railway Co. sends longitudinal sections of the line and tunnel; the Swiss Society of Engineers and Architects sends development and longitudinal sections of the Swiss railways; several of the Swiss railway companies send plans, photographs, etc., of their lines, rolling stock, etc.

The French Department of Public Works sends a number of exhibits relating to railroads, steel rails, depots, rolling stock, etc.

The Netherlands send a number of drawings, models, maps, photographs, etc., illustrating their railway system and various public improvements. A prominence is given to these exhibits of the really great works of modern times, which forms one of the most pleasing and appropriate features of the Main Building.

The royal directory of railroads at Stockholm sends a map of the railways in Sweden; Walfrid Sahlbom sends a map showing the development of the railway communication in Sweden during the period intervening between 1864 and 1874.

C. Pihl, of Christiana, chief director of the Norwegian railways, sends drawings, descriptions, and models of Norwegian narrow-gauge railways.

The United States Department of Scientific and Philosophical Instruments contains among its exhibits surveyors' and engineers' instruments from William Kuebler, Philadelphia; civil and mining engineers' instruments and apparatus from W. & L. E. Gurley, Troy, engineers' and surveyors' instruments from James Prentice, New York; surveying, engineering, mathematical, optical, and astronomical instruments from Heller & Brightly, Philadelphia; engineering and telegraph instruments from Knox & Shain, Philadelphia; railway signals from the Western Electric Manufacturing Co. Chicago, Ill.

A gold and silver model of a Pullman palace sleeping car, and a silver model of a Woodruff sleeping car, are also exhibited in the Main Building.

An exhibit of cereals by the Philadelphia and Reading Railroad Co. has been placed in the Main Building.

Lonard Paupier, of Paris, sends scales for railroads.

From Switzerland, M. Hipp, of Neuchatel, sends an apparatus for controlling the speed of railway trains.

RAILWAY EXHIBITS IN MACHINERY HALL.

There has been more of an attempt to mass a series of railway exhibits in Machinery Hall than in any other single portion of the Centennial Exposition, and in the north-western portion of that building there is a continuous section of considerable size devoted to locomotives, scales, car wheels, brakes, gauges, and various contrivances intended exclusively for railway use. But it would be a great mistake to suppose that these articles comprise the only railway exhibits in Machinery Hall, because a number of other foreign railway exhibits are in other portions of this building, and a large number of articles connected with the miscellaneous departments of American machinery are also intended for railway use. The business of transportation has indeed become so extensive and complicated that it presses all the arts into its service, and a large proportion of all the noticeable and extensive exhibits comprise features that have a direct or indirect bearing upon the construction or operation of railways.

The American Tubular Iron and Steel Association of Philadelphia exhibits tubular iron and steel car axles.

The Pennsylvania Combined Iron and Steel Association exhibits combined iron and steel rails.

D. M. Meeker & Sons, of Newark, N. J., exhibit part of the cylinder of the first steam engine used in America. This interesting object is located near the central aisle in the western portion of Machinery Hall. A letter from Hon. J. P. Bradley, Judge of the Supreme Court of the United States, states that it was imported from England in 1753, by Col. John Schuyler for the purpose of pumping water from his copper mine opposite Belleville, near Newark, N. J.

Post & Co., of Cincinnati, Ohio, exhibit steam

gauges, railway passenger car trimmings, and locomotive head lights.

Jones & Laughlins, of Pittsburgh, exhibit T rails.

The New York Belting and Packing Co., of New York, include in their exhibit car springs.

L. Sykes & Son, of Philadelphia, include in their exhibit car tracks, bridges, and track bolts.

A. H. Woodruff, of Lansing, Iowa, exhibit reverse and expansion gear for locomotives and propellor engines.

The catalogue assigns to the railway department proper the following articles:

Locomotives and Tenders, from Burnham, Parry, Williams & Co.; the Rogers Locomotive and Machine Works, Paterson, N. J.; the Danforth Locomotive and Machine Co., at Paterson; Porter, Bell & Co., Pittsburgh; Dickson Manufacturing Co., Scranton, Penn.; and the Philadelphia and Reading Railroad Co.

Models of locomotives, locomotive works, or other exhibits relating to locomotives, to James H. Pease, Reading, Penn.; James W. Wright, Minneapolis, Minn.; John R. Rowand, Philadelphia; Shaw & Grey, South Boston, Mass.; and H. W. Griggs, Milwaukee, Wis.

Scales, Testing Machines, etc., for railway and other purposes, to Riehle Bros., Philadelphia; Fairbanks & Ewing, Philadelphia; Brandon Manufacturing Co., of Brandon, Vt.; John C. Dell, Philadelphia; Buffalo Scale Co., of Buffalo, N Y.; Shive Governor Co., of Bethlehem, Penn.; Becker & Sons, of New York; F. Meyers, Newark, N. J.; S. S. Hitchcock, Des Moines, Iowa; Cleveland Scale Works, Cleveland, Ohio; Chicago Scale Co., Chicago, Ill; C. Leslie Reilly, Philadelphia; James D. Willoughby, Philadelphia; John Chatillon & Sons, New York; Thomas Morton, New York; Automatic Scale Co., Harrisburg; Price, Lipsett & Co., Philadelphia; I. S. Spencer's Sons, Guilford, Conn.; Solomon S. Gray, South Boston, Mass., and National Scale Co., Philadelphia.

Car Brakes of various forms and descriptions have been placed on exhibition by the Henderson Hydraulic Car Brake Co.; Thomas E. Thompson, of Philadelphia; Nils Nelson, of Minneapolis, Minn.; the Westinghouse Air Brake Co., and John Raddin, of Lynn, Mass.

Car Couplings are exhibited by J. J. Lahaye, Reading, Penn., and Aaron K. Kline, Somerville, N. J.

Springs for cars and locomotives, or car seats, etc., are exhibited by Z. Cobb & Sons, Wilmington, Del.; the Culmer Spring Co., of Pittsburgh; A. French & Co., Pittsburgh; N. & A. Middleton & Co., of Philadelphia; the New Jersey Car Spring and Rubber Company, of Jersey City, N. J.; Nicholas Pickering & Co., of Philadelphia; and William H. Schoem, of Wilmington, Del.

Car or Locomotive Wheels, or both, are exhibited by the Cayuta Wheel and Foundry Co., of Waverly, N. Y.; Lobdell Car Wheel Co., of Wilmington, Del.; Ramapo Wheel and Foundry Co, of Ramapo, N. Y.; George B. Bryant, of Pottsville, Penn.; Davenport, Fairborn & Co., of Erie, Penn.; Barnum-Richardson Co., of Lime Rock, Conn.; A. Whitney & Sons, Philadelphia; American Paper Car Wheel Manufacturing Co., of Hudson N. Y.; Sax & Kear, Pittston, Penn.; McKee & Fuller, Catasauqua, Penn.; Hamilton Steeled Wheel Co., of Philadelphia; Nashua Iron and Steel Co., Nashua, N. H.; Jersey City Wheel Foundry and Machine Works, of Jersey City, N. J.; and John Raddin, Lynn, Mass.

Locomotive or Car Wheel Tires are exhibited by the Standard Steel Works, Philadelphia; the Midvale Steel Works, Philadelphia; W. Bailey Lang & Co., New York; and the Nashua Iron and Steel Co., of Nashua, N. H.

Railroad Switches, Frogs, etc., are exhibited by the Wharton Railroad Switch Co., of Philadelphia; Frederick C. Weir, of Cincinnati; Jersey City Iron Works, Jersey City; C. H. White, Detroit, Mich.; the Pennsylvania Steel Co., of Harrisburg; and William Wharton, Jr., of Philadelphia.

Various things connected with railway tracks, crossings, etc., are exhibited by the Wharton Railroad Railroad Switch Co.; the Pennsylvania Steel Co.; the Diamond State Iron Co., of Wilmington, Del.; Pratt Manufacturing Co., New York; and William Wharton, Jr., of Philadelphia.

A railway station indicator is exhibited by C. S. Barton, of Philadelphia.

A snow plow for locomotives, axle grease and oil are exhibited by Peter Girard, of Philadelphia.

A brake shoe is exhibited by James Bing, of Philadelphia.

A patent car truck is exhibited by the Miltimore Car axle Co., of New York.

Car and other bearings, and articles of phosphor-bronze, composition, Babbitt and type metal, are exhibited by George K. Tryon & Son, of Philadelphia.

A railroad car axle, with independent wheels, is exhibited by Samuel L. Harrison, of San Francisco.

Cast steel rails, made direct from iron ore, are exhibited by William Fields, of Wilmington, Del.

Bolt rail joints are exhibited by Fisher & Norris, of Trenton, N. J.

H. & B. T. Bean, of Pawling, Penn., exhibit a mail-pouch holder and catcher for railroad cars in motion, and draw head for cars.

Electric railways signals, office indicators, switch locks, and a circuit closer are exhibited by Rousseau's Railway Signal Co., of New York.

Models for automatic railroad crossings, gates and signals are exhibited by Emil P. Spahn, Newark, N. J.; and balance folding gates for railway crossings are exhibited by Elmer Ridge, of Philadelphia.

The exhibits from Great Britain embrace rail way cattle wagons, made by Alfred Welch, London; continuous railway crossings and switches from Richard Price Williams, London; Railway signal model of railway junction from Brierley Sons & Reynolds, London; saddle rail and permanent way construction from William Seaton, London; signal switches, etc., from Saxby & Farmer, London.

The Canadian department embraces a drawing of an engine and tender from F. W. A. Meyer, Montreal; railway collision springs and a self-acting coupler from R. D. Chatterton, Coburg; railway springs from Jones & Burland, Montreal; a cattle car and refrigerating tender from Kennard Knolt, Petersville; a dumping car from H. J. Peters, Quebec;—car couplers from W. Wright, Oakville; S. Cornell, Widden; R. N. Chisholm, Oakville; E. O. Richard & Brother, St. Roch; and Wm. Dunn, St. Mary's; car brakes from R. Gardner & Son, Montreal; and E. O. Richard & Brother, St. Roch; car wheels and axles from Car Wheel Co., Toronto; J. McDougall & Co., Montreal; and J. Harris & Co., St. John, N. B.;—bent posts and rafters for railroad cars from W. G. Von Staden Strathroy; rail joint and nut lock from R. Taylor, Guelph; a safety switch from Wm. Dunn, St. Mary's; railway signals from W. C. Nunn, Belleville; and J. W. Morris, Hamilton; a grain car from R. Brydon, Newbury; a self-acting track reliever for cars from R. U. Ramsay, Coburg; flanges from F. B. Edgecomb, Fredericton, N. B.; a locomotive ash pan cleaner from E. Kennedy, St. John, N. B.; and spark arresters from D. Hewkesurnt, Digby, N. S.

The French department contains an exhibit relating to a special system for mountain railroads from Leon Edoux, Paris; car brakes from S. Joliot, Vincennes; an automatic clutch from Le Bas, Paris; forged iron wheels for locomotives and cars from Arbel Lucien, Rive-de-Gier (Loire); and wheels manufactured by hydraulic pressure from Brunon Bros., Rive-de-Gier (Loire).

The exhibits from Germany embrace blocks for brakes from Glockner Bros., Tschirndorf, near Halban; a railway switch from Camozzi & Schlosser, Frankfort-on-the-Main; and a drawing of a wire-rope railway from Baron F. F. von Ducker, Buckeburg.

The exhibits from Austria embrace a locomotive spark-guard from Karl Tagleicht, Vienna.

The exhibits from Switzerland embrace a model of an apparatus for heating railway carriages for the Swiss Manufacturing Co., Neuhausen, near Schaffhausen.

The exhibits from Belgium embrace car wheels from Durieux & Co., Louvain; railway stock from Valere Mabille, Marremont; sleepers and cushions for mining railway from Achille Legrand, Hyon, near Mons; and a railway brake, signals, and gates from F. L. J. Leonard, Fayt, near Seneffe.

The exhibits from the Netherlands embrace a railroad switch from W F. Heshuijsen, Sandpoort.

The exhibits from Sweden embrace a drawing of a narrow-gauge locomotive by C. R. Bjorkman, Kristinehamn; a locomotive and locomotive axles from the Motala Machine Company, Motala; automatic railway couplings from N. W. Nilsson, Christianstad; railway tires and axles from Sandvikens Iron Works Stock Co., Sandviken; model of an axle box for railway cars from C. A. Adelskold, Stockholm; railway wheels, tires, and axles from Arboga Foundry and Machine Manufacturing Co., Arboga; railway wheels from Harald Asplund, Kristinehamn; and from Carl Ekman, Finspang; railway axles and springs from Bruks Aktiebolag Fagersta, Westonfors; axles from Kopings Machine Manufacturing Co., Koping; railway wagon wheels and axles from Surahammars Works, Surahammar; railway switches from Ankarsrums Works, Ankarsrum; and a drawing of a railway switch, from Herrman Ostrand, Helsingborg.—*Railway World.*

Atlantic, Mississippi and Ohio Railroad.

The Baltimore Sun of May 19th published a circular addressed by the holders of the consolidated bonds of the Atlantic, Mississippi and Ohio Railroad Co., in Virginia, to the holders of the underlying bonds of the separate divisions of same road. The interest on the consolidated bonds is in default for nearly two years, and an application is now before the United States Circuit Court at Richmond for the appointment of a Receiver, with a view of obtaining a change in the administration. The Sun says that "whatever may be the opinion respecting the present administration of the company, it seems unwise for the bondholders to fall out, and therefore the statement contained in the circular is reassuring. If, as is rumored, provision is not made for the interest due on the divisional bonds on the 1st July next, the holders of these bonds may be called upon to take active measures for their own protection."

☞ The Pittsburg Chronicle says that the new railroad between Brownsville and Connellsville is all under contract, and the work of grading the same is rapidly progressing. The road will open up rich coal regions, and, it is expected, will be in running order by the 1st of January, 1877.

☞ The Taylor's Falls (Minn.) Journal says that a local company has been formed to build a railroad from Hudson to River Falls, with a fair prospect of success; and that A. B. Stickney, of the St. Paul, Stillwater and Taylor's Falls Road, is taking a lively interest in it.

☞ The Wisconsin Valley Railroad Company are now building 75 box cars, and have just leased 50 flats from the United States Rolling Stock Company, being unable to build as fast as the rapidly increasing business of the road demands extra cars. This addition gives the road a total of 875 freight cars.

☞ The St. Croix Courier says that operations will be commenced almost immediately upon the Grand Southern Railway.

RAILROAD AND CANAL DIVIDEND STATEMENT.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, May 27, 1876.

Financial and Commercial Affairs.

Money has been offered very freely during the week, and at extremely low rates to responsible borrowers, closing on call at 2@4, and on best mercantile credits at 4@6 per cent per annum. Though some increase of activity has been noted in the financial and commercial lines, the demand for accommodation has not been particularly urgent, and has been very readily met at the ruling figures. The City Bank loan and discount averages fell off over 2½ millions, which indicated less pressure for aid. An important gain of legal tender notes was reported by the banks, whose specie reserve was reduced about half a million. Both the currency and coin balances of the U. S. Sub Treasury were diminished, through the week's operations. The customs of the port added nearly two millions to the coin resources of the office. The U. S. Sub Treasury currency balance was reduced $1,139,646, and the specie reserve $1,360,-929. National Bank notes received at the Treasury Department last week for redemption were to the amount of $5,439,000. The City Banks have had their deposits enlarged $93,200; and their legal tender reserve $3,046,000. The specie average has been reduced $481,700. The loan and discount item was cut down $2,598,800. The circulation was diminished $27,800. The U. S. Sub Treasury in this city closed the week with a currency balance of $37,125,171 against $38,-264,718 the preceding week; and a coin hoard of $40,840,180 against $42,201,059 on the previous return. The City bank exchanges in currency reached $345,609,496, or a daily average of $57,601,583. The customs revenue of the port

during the week was $1,912,000. The City banks reported their average of gold last week at $18,399,300, and their greenback average at $45,689,800. Their deposits stood at $207,993,500. The loan item was $253,210,500. The circulation was $16,112,700.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $12,090,725 as against $9,549,329, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, May 1st was $411,456,078. The outstanding amount of legal tender notes is $370,527,876. The National bank circulation is now $335,200,000, including $2,099,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $10,422,813; special deposit of legal tenders for the redemption of certificates of deposit, $37,555,000; Coin, $71,362,996; Coin certicates, $27,004,800.

The week's import entries of Foreign Merchandise at New York were $6,393,015, including $1,019,144 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 105 millions; and from Customs, 135½ millions.

Gold has shown rather more activity, almost wholly in the speculative line, and the later dealings indicated a firmer range. The customs call was more extensive, and the export drain fair. The extremes of the price during the week have been 112¼@112⅞, closing on Wednesday at 112½, as against 112⅝ on Wednesday of the preceding week. The specie outflow last week was $1,519,588, against $1,571,859 the previous week. The imports of specie at this port last week were $3,190, and since January 1st $1,586,421 as against $6,246,912 same time last year. The customs demand for gold last week averaged $318,667 per day. Foreign Exchange has been in moderate request and quoted easier. Bankers sixty day bills on London closed on Wednesday at $4 87½@$4 88½; sight bills on London at $4 89⅛ @$4 90½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,262,023. The week's imports of Dry Goods and general merchandise were to the specie value of $6,393,015 as against $5,844,895 the corresponding week of 1875.

Government Securities have been fairly active, the demand on investment account having been more animated, and have been quoted generally firmer in price. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $344,883,850.

U. S sixes of 1881 closed on Wednesday of this week at 122½@122¾; U. S. Five-Twenties of 1865, at 114⅞@115⅛; U. S. Five-Twenties of 1865 consolidated, 119@119¼; U. S. Five-Twenties of 1867, 121¼@121⅜; U. S. Five-Twenties of 1868, 122¾@123; U. S. Ten-Forties at 118½@118¾; U. S. Fives of 1881, (Funding Loan) 117¼@117⅜; Six per cent. currency Sixes, 127⅛@127½.

State and Railway bonds have been fairly active and generally quoted somewhat firmer, with the more substantial loans offered with reserve. And in the line of Railway and Miscellaneous share property more activity has been noted though prices have been variable closing in most instances with more steadiness.

General business has been quite active in the line of domestic produce, though generally at lower figures for Provisions and Cotton, and at the close for Breadstuffs. Foreign merchandise has been quiet and irregular. In the line of dry goods, the features of the week's movements have been extraordinarily large sales at auction of domestic Cotton at, on the whole, fair prices. Metals have been more active, but without important changes in values. Eglinton Pig Iron quoted here at $27 50@$28 50; Glengarnock $29 50@$30; Coltness $30@$31; No. 1 American Pig at $22; No. 2 do. at $20; Forge, $17 50@20; American Rails at works, $40@$45; Old Rails $22 50@$25. Wrought Scrap, $28@$30. Ocean freights have been fairly active especially in the line of Grain accommodation, largely for the Continent, at generally firmer rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—International R. R. 1st mort., 70; Warren R. R. 2d mort., 106; Chesapeake and Ohio 1st mort., coupon on, 28; Rensselaer and Saratoga 1st mort., 116½; Chicago, Rock Island and Pacific 6s, S. EXECUTIVE OFFICE,
TEXAS AND PACIFIC RAILROAD COMPANY,
PHILADELPHIA, May 19, 1876.

☞ THE INTEREST COUPONS MATURING June 1, 1876, on the consolidated mortgage bonds of this company, will be paid on presentation at the office of the company, in Philadelphia, or at its agency, No. 50 Exchange Place, in the City of New York, unless the bonds have been registered, in which case they will be paid only when presented with a power of attorney (properly authenticated) of the party in whose name such registry has been made.

F. S. BOND, Vice President.

☞ The article from the Railway World, giving the "Railway Features of the Centennial Exposition," which we transfer to our columns, will be found both interesting and instructive. It is probably not as compete as it ought to be, but suppose that whatever omissions there may be will be supplied in subsequent numbers of that paper.

☞ We give on another page a pretty full report from the columns of the Ledger, of the proceedings of the Ninth Annual Convention of the American Railway Master Mechanics' Association, held in Philadelphia on the 14th and 15th of this month, to which we refer our readers. It will well repay a careful perusal.

☞ The directors of the Kansas City, Topeka and Western Railroad Company, (formerly Kansas Midland), elected on the 12th inst. are: D. L. Lakin, F. W. Giles, Jacob Smith, F. Wilder, Topeka; A. J. Dull, Harrisburg, Pa.; Thomas Nickerson, Joseph Nickerson, F. H. Peabody, Boston. F. H. Peabody was elected President, and Thomas Nickerson Secretary and Treasurer.

Railroad Earnings.

The earnings of the Chicago and Alton Railroad for the second week in May, 1876, were $104,430 04, against $88,597 82 for the second week in May, 1875, an increase of $15,832 22. From January 1 to May 15, 1876, the earnings were $1,555,018 30, against $1,548,320 24, for the corresponding period of 1875, an increase of $6,698 06.

The earnings of the Ohio and Mississippi Railroad for the second quarter of May, 1876, were $75,046 17, against $61,964 87 for the second quarter of May, 1875, an increase of $13,081 30.

The earnings of the Michigan Central Railroad for the second week in May, 1876, were $141,637 63, against $129,877 12, for the second week in May, 1875, an increase of $12,260 51.

The earnings of the Chicago, Milwaukee and St. Paul Railway for the second week in May, 1876, were $167,000, against $173,503, for the second week in May, 1875, a decrease of $6,503. From January 1, to May 15, the earnings were $2,600,519, against $2,274,248 for the corresponding period of the previous year, an increase of $326,271.

The earnings of the Missouri, Kansas and Texas Railroad for the second week in May, 1876, were $44,797 49, against $49,109 31, for the second week in May, 1875, a decrease of $4,311 82.

Philadelphia and Erie Railroad.

The Philadelphia and Erie Railroad Company make the following exhibit of business for the month of April, 1876:

Gross earnings	$300,832 73
Gross expenses	188,112 24
Net earnings	$112,720 49
Gross earnings first 4 mos. 1876	$1,005,960 87
Gross earnings first 4 mos. 1875	909,087 93
Increase	$96,872 94
Net earnings first 4 months 1876	$306,729 73
Net earnings first 4 months 1875	269,299 23
Increase	$37,430 50

St. Louis, Rockford and Chicago Railroad.

It is announced that the name of the Rockford, Rock Island and St. Louis Railroad will be immediately changed to the "St. Louis, Rockford and Chicago Railroad," and pass under control of the new corporation, composed of H. Osterberg, Charles H. Deere, John M. Gould, W. C. Brewster, C. D. Sweeny, George Skinner, and Walter Trumbull. The company, on purchasing the road, will at once execute mortgages, in accordance with the instructions of the Frankfort committee, giving a fresh lien to the Austrian German Bank, of Frankfort, for $260,000, borrowed to complete the purchase of property, and a second lien to the purchasing bondholders to cover their 20 per cent. assessment and the value of their bonds as fixed by the court. This includes Miss Hooper, who holds bonds, and Captain Robinson, who holds certificates for bonds. The new second mortgage bonds will be for $1,000,000, running for ten years, and bearing 7 per cent. interest in gold.

☞ Mr. Sandford Fleming, C. E., has reported on the Newfoundland Railway Survey to the Government of that Island. The length of the road is to be 360 miles, and the estimated average cost $38,600 per mile, or about £2,500,000 stg. for the whole line.

Commerce of Chicago.

According to the detailed reviews of the trade and commerce of Chicago during the past year, the aggregate wholesale business in produce, merchandise and manufactured goods is placed at $657,000,000, against $639,000,000 in 1874. The only falling off was in transactions in farm products, and this was due largely to the less number of hogs. The number of hogs brought to Chicago in 1875 was 3,912,110 against 4,258.379 in 1874. In cattle there was an increase from 843,966 head in 1874, to 920,843 in 1875. The total receipts of grain last year, reducing flour to bushels, were 79,505,050 bushels, against 95,611,718 bushels in 1874, a decline of 16,000,000, of which over 8,000,000 bushels were in corn and 5,500,000 bushels in wheat. The Tribune of that city states that the increased value of the goods sold does not fairly illustrate the increase in the volume of business. Prices last year averaged ten per cent. less than in 1874, and consequently the average bulk or quantity of goods handled was over twenty per cent. greater than in 1874. The same was true of the sales of manufactured goods. To the increase in value, therefore, must be added the increase in quantity necessitated by the reduction in prices.

☞ Judge Welford, of the Circuit Court of Richmond, Va., has appointed Col. Thomas J. Evans a commissioner to take an account of all the property, real and personal, and of all the rights and interests of or belonging to the Chesapeake and Ohio Railroad Company, and an account of all the indebtedness of the company of every description whatever.

☞ The Erie Railway Company announce that the laying of the third rail between Buffalo and Elmira has been completed, and test trains were run in both directions over the entire distance on the 22d inst. The completion of the third rail enables the Erie to run narrow gauge cars between all points of the West and Philadelphia without change.

☞ A committee of the Mississippi Legislature has reported that the debt of the State on the 1st of last January was $3,341,162, and the available assets $709,558. The value of the taxable property of the State is: Real estate, $95,872,497; personal estate, $35,539,555—making a total of $131,412,052.

☞ The New Almaden Quicksilver mines have yielded 306,453 flasks of quicksilver, weighing 46,893,654 pounds, since the year 1853. These mines are near San Jose, Cal., 1,300 feet deep, and employ about 600 men. From January, 1864, to December, 1875, the mining work amounted to 129,724 feet, costing $1,000,000.

☞ At the annual meeting of the Windsor and Forest Line Railroad, held at E. Jones's Hotel, Marlow, N. H., on the 10th inst, a board of directors was elected with James Burnap, Esq., of Marlow, as President.

☞ At a private meeting of friends of the Middleborough Railroad, held in New Bedford on the 21st inst., it was decided to push the project of a narrow gauge road, and several thousand dollars were subscribed to the stock.

Wealth and Resources of Peru.

The vast resources of Peru and her inexhaustible mineral wealth are an abundant guarantee for the future. In our number for December, 1874 we gave a detailed account of the guano deposits in the south, which amount to 7,400,000 tons, worth upward of £55,500,000. This alone is a solid guarantee to the foreign creditors for more than the sum total of the whole debt—a guarantee such as no other State which has raised a loan in the European money markets has ever offered before. The Peruvian Government has invited a further examination of the deposits, if the bondholders should think it desirable, and will give every facility for a minute survey. Meanwhile a commission, under Capt. Black, has been engaged in the survey of other deposits to the north of Lima, and has reported that nearly a million tons can be extracted from Lobos de Tierra, Chimbote, and Santa, and that a new deposit of 90,000 tons has been discovered on the mainland a few miles north of Casma. Don Manuel Pardo has endeavored not only to meet immediate demands by a careful survey of the guano deposit, but also to provide for the distant future, when those deposits become exhausted. He has adopted measures to control a new rental from the nitrate deposits of Tarapaca, which, on the exhaustion of the guano will still enable Peru to meet all her obligations to foreign creditors.

The value of nitrate as a fertilizer was known to Sir Kenelm Digby and John Evelyn more than two hundred years ago. But there is no subsequent mention of it until 1825 and 1829, when some trials were successful, though its price was too high for its profitable application as a manure. It was the discovery of the vast and practically inexhaustible deposits of nitrate of soda in the Peruvian Province of Tarapaca which made it possible to bring its use within the reach of agriculturists. In 1853 the old nitre was quoted at £29 a ton, while the Peruvian nitre could be had for £16.

The Province of Tarapaca was fully described in 1851, in a memoir by Mr. Bollaert; and the whole subject of the Peruvian deposits of nitrate of soda was ably discussed by that eminent agriculturist, Mr. Pusey, in 1853. The first Peruvian nitrate was sent to England in 1820, but the duty being too high, it was thrown overboard. In 1830 another cargo was sent to the United States and then to Liverpool, but proved unsalable at both places. Such is the risk of dealing in a new article; yet, in 1831, another cargo sold in England for £35 per ton, and from that time the demand has steadily increased. The chief expense in producing it was the difficulty of transit from the quarries to the ports of shipment.

Don Manuel Pardo has wisely adopted a measure by which all the nitrate establishments will be bought up by the Government; and the difficulty of transit has now been completely overcome by the construction of railways from the ports of Iquique, Patillos, and Pisagua to the nitrate works. The whole system of communication in the Province of Tarapaca includes 180 miles of rails. The nitrate of soda, next to guano, will thus become a chief source of Peruvian revenue.

Mr. Bollaert and Mr. George Smith made a survey of Tarapaca, for the Peruvian Government, in 1828, and described the deposits on the Pampa de Tamarugal. In his paper of 1851, Mr. Bollaert says that the deposits of caliche, or the raw substance, vary in breadth, averaging 500 yards across, with a depth of from 7 to 8 feet. Bollaert adds that the Pampa de Tamarugal contains sufficient nitrate for the consumption of Europe for ages. The deposits cover fifty square leagues, and, allowing 100 weight for each square yard, there are 63,000,000 tons. The caliche, or raw substance, is taken from the deposits to the paradas, or boilers, where it used to be broken with iron bars into small pieces; but now steam power is used. The pieces were boiled in the paradas, the fragments and sediment removed, and the water, saturated with nitre, was allowed to settle, when crystallization took place; from forty to eighty hundred weight were made daily in each parada. But since 1870 steam machinery has been introduced, and 2,500 hundred weight can be produced in a day. Potash, iodine, and borax are also produced in the Province of Tarapaca. In 1875 the quantity of nitrate of soda exported from the ports of Pisagua, Mejillones, and Iquique, in Tarapaca, was 7,229,507 quintals.

The wealth of Peru is very great, independent of her guano and nitrate deposits. The fertile valleys of the coast are occupied by vine, cotton and sugar estates, which only need a more regular supply of labor, now provided for by the treaty between China and Peru, to bring them to their full power of production. There are as many as 235 sugar estates on the coast, without including those of Abancay and other valleys of the interior. Then there are the exports of sheep and alpaca wool, of silver and copper ores, of cotton, of wine and spirits, and of cinchona bark. England is by far the largest customer of Peru. Out of 1,071 ships, with an aggregate tonnage of 698,931, which entered the port of Callao in 1875, as many as 324 (317,554 tons) were English. The United States comes next, with 119 ships, (135,-364 tons.) The Peruvian coasting trade is represented by 298 vessels, aggregating 46,820 tons. That trade is increasing we have a satisfactory proof from 355 more vessels having entered Callao in 1875 than in 1874. With England this increase of Peruvian trade has been very great. In 1874 it had reached £3,293,534, exclusive of guano, which amounted to 94,346 tons, worth £1,207,-679. The total exports are worth over £6,000,000.

Next to the guano and nitrate the most valuable article of export was alpaca wool, of which 3,435,786 pounds were sent to England, worth £443,323, besides 2,629,742 pounds of sheep's wool, worth £131,266. Then comes cotton, amounting to 99,492 hundred weight, worth £305,576, and 472,783 hundred weight of sugar, worth £512,-112. The copper ores amounted to 4,404 tons, worth £301,278. Cinchona bark amounted to 5,-972 hundred weight, worth £69,359; and the other exports were silver, wine and spirits, cocoa, coffee, matico, hides and chinchilla skins. The imports into Peru from England in 1874 are valued at £1,829,977.—*Geographical Magazine.*

Weight of English Railway Equipment.

The Edinburgh Review in an article on "Railway Profits and Losses," gives some curious figures illustrating the increasing weight of the working plant of English railways. In cases of collision it was found that old carriages suffered most. As trains became longer, therefore, and speed more rapid, it was necessary to make carriages larger and heavier, and experience has proved that increase of weight means decrease of tare. Of the carriages now used on the Metropolitan line, the first, second, and third class carriages weigh respectively 15, 14, 75, and 14.25 tons, and seat 48, 64, and 80 passengers. The weight of the locomotive engine has also steadily advanced. In the Liverpool and Manchester competition of 1829 the Rocket, which won the prize, weighed 4 tons 5 cwt., and its tender 3 tons 4 cwt. Five years later the Atlas, a six wheeled engine on the same railway, weighed 11.4 tons in working order. At first rails weighing 35 pounds to the yard were deemed adequate; but as these could not bear a 9 ton engine they were replaced by new rails weighing 66 pounds per yard. In 1830, 7-ton engines were deemed heavy; in 1840, 15-ton engines; in 1850, 25-ton engines; and in 1869, 35-ton engines. Now there are good engines on the Continent that weigh exclusive of tenders, 45 tons. Mr. Meyer's 12-wheeled engine, exhibited at Vienna in 1862, weighed 60 tons. There was a weight of 10 tons to each pair of wheels, and the tractive force was estimated at 22,000 pounds, equal to the draught of 2,300 tons exclusive of engine, on a level; 340 tons on an incline of 1 to 40; or 155 tons on one of 1 to 17. At the speed of 880 feet per minute the effect of this engine corresponds to 587 horse power.

Proposed Railway Consolidation.

A meeting of the stockholders of the New Bedford Railroad Company will be held in New Bedford on the 27th inst., to vote on the question of the consolidation of that road with the Boston, Clinton and Fitchburg Railroad. The terms of the proposed consolidation are as follows: The preferred stockholders of the Boston, Clinton and Fitchburg road are to pay to the new company $25 per share on every share held by them and receive a share of the new company, or they may for four shares of their stock receive three new shares. The unpreferred stockholders, viz: Those in the Mansfield and Framingham and the Agricultural Branch Railroad will pay $65 per share upon their stock and receive a new share, or for twenty shares of their old stock receive seven shares of the new. The stockholders in the New Bedford Railroad will receive $10 per share upon their stock, in cash, May 31, or for every ten shares may receive one share of the stock in the New Bedford Company. After receiving this money they are to have the option to surrender their stock and receive instead an equal number of shares in the new company, or to give it up and receive $100 in cash in addition to the $10 in cash or its equivalent in stock as paid May 31. They will have from June 1 to July 1 to decide.

☞ The trains on the Camden, Gloucester and Mt. Ephraim Narrow Gauge Railway have commenced their regular trips throughout its entire length, from Kaighn's Point to Mount Ephraim, connecting at Kaighn's Point with the ferry boats to Philadelphia. From Mount Ephraim the road will be extended to Blackwoodtown by another company, already organized, and only waiting for the completion of the first named road.

☞ In the United States Circuit Court at Chicago on the 17th inst., Judge Drummond granted the application recently made by Herman Osterberg for a deed of sale of the Rockford, Rock Island and St. Louis Railroad, as trustee for the bondholders whom he represents. The application was granted on account of the master's favorable report of Osterberg's accounts, which he has been investigating.

☞ Previous to the adjournment of the United States Circuit Court at Memphis on the 22d inst. Judge Emmons issued a decree ordering the sale of the 118 miles of the Mobile and Ohio Railroad within Tennessee, with the rolling stock, to satisfy the claims of the bondholders who hold the lien of the State on said road.

☞ The town of Bethel, Vt., has refused, by a vote of 236 to 3, to issue bonds to aid in building a railroad from Rutland to Bethel. All other towns on the line voted to issue bonds.

Railway Progress in Portugal.

The *Revista de Obras publicas* in a recent article gives some most interesting particulars about the Portuguese railways, and as information as to these lines is scarce and hard to procure, we give the following sketch of their progress and development.

Railway construction began in Portugal in 1853; but in the first 6 years only 50 kils. were opened, between Lisbon and the environs of Santarem, of 1.44 metre gauge, while in the 4 years 1859-63 some 457 kils. were opened, viz:—the lines from Lisbon to Badajoz and Oporto, and the gauge was assimilated to the Spanish. From 1864 to 1873 operations were entirely suspended; but since then they have been renewed with redoubled vigor, it having been decided to prolong the Lisbon lines to the Spanish frontier towards the south-east, as also the Algarbes line, and the Douro and Minho line; at the same time that surveys were being energetically prosecuted, in order to complete the Portuguese system.

The present condition of railway construction in Portugal is as follows:—

Lines.	Open Kils.	Construcing. Kils.	Projected. Kils.	Total. Kils.
Lisbon and Badajoz	278	..	..	278
Lisbon and Oporto	229	..	..	229
Barreiro and Beja	154	..	..	154
Beja and Faro	47	43	101	191
Beja, Evora and Estremoz	78	..	..	78
Estremoz and Crato	..	..	62	62
Setubal	13	..	..	13
Beja and Frontier	20	6	36	62
Oporto and Braga	55	..	..	55
Thence, to the Minho	..	34	46	80
Douro	38	20	40	98
Coimbra and Salamanca	..	..	204	204
Abrantes and Malpartida	..	..	144	144
Totals	912	103	633	1,648

Should all these lines be completed, the Portuguese system will be a very complete one, inasmuch as the Chief Towns of 14 out of the 17 Provinces which constitute Portugal, will then be provided with railway accommodation. There will remain but Villareal, already close to the Douro line; Braganza, which, from its exceptional position, will require a line of most difficult construction; and Leiria.

In addition to the lines above enumerated, Portugal possesses 104 kils. of narrow gauge lines.

☞ A certificate of incorporation of the Cincinnati, Batavia and Williamsburg Railroad has been filed with the Secretary of State of Ohio. This is an extension of line from Williamsburg, Clermont county, to Portsmouth, Scioto county, and runs through Brown, Adams and Scioto counties.

☞ At a meeting of the stockholders of the Texas and Pacific Railway Company, recently held in Philadelphia, $2,000,000 were subscribed to close the gap between Dallas and Fort Worth and from Sherman to Paris. It is expected to have trains running on these portions of the road within six months.

☞ D. O. Mills has been elected President, H. Myerington Vice President and Superintendent, Wm. Thornton Secretary, C. L. Anderson Chief Engineer, and C. P. Mason Purchasing Agent of the Virginia and Truckee Railroad Company. The office of the company is at Virginia City, Nevada.

☞ Governor Irwin of California, has appointed the following gentlemen as members of the Commission of Transportation: John T. Doyle, of San Mateo; Isaac W. Smith, of San Francisco, and General George Stoneman, of Los Angeles.

☞ At a meeting of the stockholders of the Boston, Acton and Nashua Railroad, held at Graniteville, N. H., on the 16th inst., the following Board of Directors was elected: Peter B. Brigham, John C. Moulton, Henry Parkinson, Benjamin Saunders, Joseph B. Clark, Charles G. Sargent, John Fletcher, Jr., James T. Burnap, Dana Sargent, Samuel M. S. Moulton, E. P. Brown, and C. V. Dearborn.

☞ A dispatch from Davenport, Iowa, of May 22, says that Mr. Osterberg, of the Rockford, Rock Island and St. Louis Railroad, has arrived there, and the formal transfer of the road was made. The name is changed to the St. Louis, Rock Island and Chicago Railroad. The head quarters of the road will continue to be at Rock Island, Ill.

☞ The Union Pacific Railroad Company ran its first through train over the Missouri river bridge on the 15th inst. to its eastern terminus at Council Bluffs in obedience to the writ of mandamus ordered by the Supreme Court of the United States.

☞ The Milwaukee Wisconsin says that seventy miles of the Peoria, Amboy and Fond du Lac Narrow Gauge Railway have been let for construction to Davenport & Co., New York, and work has already been commenced.

☞ The celebration of the completion of the Nevada County Narrow Gauge Railway was to have taken place on the 20th inst.

MACHINERY.

FOR SALE—TWO STEAM HAMMERS AND Complete set of Forge Tools for manufacturing heavy forgings, car axles, &c. Address G. M. CLAPP, 206 Broadway, room 9. 4t22*

FOR SALE—ONE STEAM ENGINE, 10×24, COMplete, nearly new, $500; one do., 7½×15, complete, in good order, $225; one upright do., 4×6, new, $120. J. AUSTIN & CO., 168 Fulton st., New York. 1t22*

CAR WORKS FOR SALE.

THE works of the Ohio Falls Car and Locomotive Company will be sold, at public auction, at the Courthouse door, in Charlestown, Clarke county, Ind., on SATURDAY, June 10, 1876, between the hours of 9 o'clock A. M. and 4 o'clock P. M. These are the largest and most complete car works in the country; are located adjacent to Jeffersonville, Ind., and are well adapted to other branches of manufacture. For printed circular containing full description of the property and terms of sale, which are extremely liberal, address JOS. W. SPRAGUE, Agent for Trustees, Jeffersonville, Ind. 4t20

ABSOLUTE SAFETY
AT
SEA!

LIFE SAVING SUITS
FOR
Ocean Travel.

The Continuous Disasters at Sea and the almost countless lives that have been lost, urge the introduction of more effective appliances for saving life than have yet been generally adopted. In response to the great public demand, the American Life Saving Suit Company now presents a

Practical Life-Saving Suit.

This suit having been tested and approved by the most scientific and practical authorities, we now offer as a means of absolute safety from death by drowning. The invention now offered claims its superiority over all similar inventions, in that it floats the body in a vertical position in the roughest sea, preserves the natural caloric of the body for any number of days, with capacity for carrying provisions for ten days; and signals to attract attention from passing vessels.

This suit embodies three principles, which are imperative in a life-saving dress:

First—A buoyancy which supports the body in a vertical position, and maintains it as from a natural law.

Second—Protection from water and weather, and consequent chill.

Third—A commissariat department, to which is attached signals, with capacity for carrying valuables, etc., etc.

This suit is put on over ordinary clothing except shoes and hat, and can be put on inside of five minutes, and is let to passengers on transatlantic steamers at the low price of FIVE DOLLARS A TRIP.

"This life-dress is one of the most valuable inventions—perhaps *the most valuable*—to be found anywhere. It is an absolute preserver of life in the event of wreck or fire or any form of sea-accident, by which the vessel is destroyed. Had the *Schiller*, or any of the lost fleets of past years, been amply provided with these suits, no one life—except, perhaps, some infant's—need have been lost. Scarcely one of all the ships which in the past have sailed silently away and have never afterwards furled their sails and come to the shore again, would have gone down unstoried, with no survivor left to tell the dismal tale of collision, of ice-pack, of breakers, of hidden rock, of fire, or of destructive gale, had each and all borne these suits as a part of the outfit. With the history of the past strewn with wrecks of preciously freighted ships, who shall say that any device which robs shipwreck of its chief terrors, is not one of vast importance and priceless value?"

This Company also own THE BEST LIFE PRESERVER IN THE WORLD—*can be adjusted in one second.* It can be carried in the pocket. No person traveling either on the lakes, or river steamers, should be without one.

Call and see both the above, or send for pamphlet.

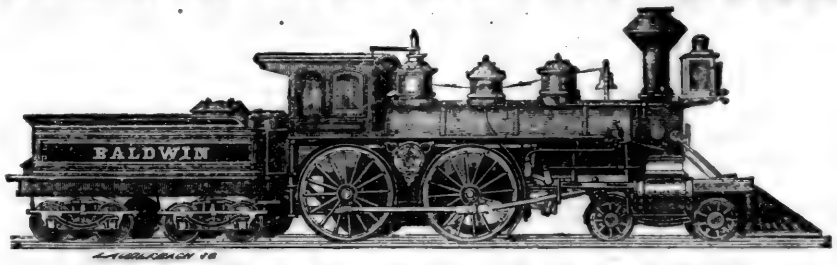
No. 14 New Church St. (Near Dey),
NEW YORK



THE
PHŒNIX IRON CO.,
410 Walnut St., Philadelphia,
MANUFACTURERS OF
CURVED, STRAIGHT AND HIPPED
Wrought Iron Roof Trusses
BEAMS, GIRDERS and JOISTS,
and all kinds of Iron Framing used in the construction of iron roof buildings.
DECK BEAMS, CHANNEL, ANGLE AND T BARS
curved to template, largely used in the construction of Iron Vessels.
Patent Wrought Iron Columns,
Weldless Eye Bars,
for top and bottom chords of bridges.
Railroad Iron, Street Rails, Rail Joints and Wrought Iron Chairs.
Refined Bar, Shoeing, and every variety of Shipping Iron Made to Order.
Plans and Specifications furnished. Address
SAMUEL J. REEVES, President.

ESTABLISHED, 1821.

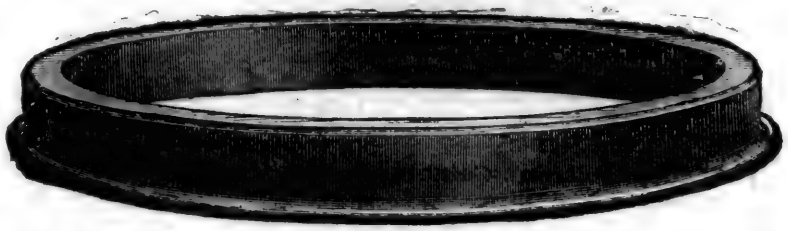
The Coal Trade.



The return of the anthracite coal trade from all the anthracite regions for the week ending the 13th instant foots up 335,831 tons, against 322,-118 tons for the corresponding week last year, showing an increase of 13,713 tons. The total amount of anthracite mined for the year is 5,-297,505 tons, against 4,867,942 for same period last year, an increase of 929,563 tons. The quantity of bituminous coal sent to market for the week was 76,608 tons, against 81,850 tons for corresponding week last year, a decrease of 5242 tons. The whole bituminous tonnage from the beginning of the coal year is 1,119,071 tons, against 1,063,583 tons in corresponding time last year, an increase of 55,488 tons. The total tonnage of all kinds of coal for the week is 412,439 tons, against 403,968 to corresponding date last year, an increase of 8471 tons, and the total tonnage for the coal year is 6,416,772 tons, against 5,431,525 tons to same date last year, an increase of 985,051 tons. The quantity of coal and coke carried over the Pennsylvania Railroad the last two days was 18,575 tons, of which 16,310 tons were coal and 2265 tons coke. The total carried this year is 1,253,-284 tons, of which 1,028,316 were coal and 225,-468 coke. This total embraces all the coal carried over the road, east and west. At Port Richmond for the week ending on the 20th instant there were receipts of 52,000 tons of coal and shipments of 44,000 tons, leaving 182,500 tons on hand. We continue to quote freight charges to New York at 85 cents, Providence at $1 20@$1 25, and to Boston at $1 35@$1 40 per ton. At Perth Amboy for the week ending on the 13th instant the receipts of coal were 1561 tons and the shipments 9698 tons, leaving 79,349 tons on hand. Freights to Boston, $1 10 ; New Haven, 65 cents; Hartford, $1; Bridgeport, 65 cents.—*Phila. Ledger, May* 22.

☞ At the annual meeting of the stockholders of the Central Vermont Railroad Company, at St. Albans, Vt., on the 17th inst., the following directors were elected : J. Gregory Smith, W. C. Smith, Bradley Barlow, B. B. Smalley, Frederick P. Clark, Luke P. Poland, James B. Langdon, B. P. Cheney, Jacob Edwards, James W. Emery, George M. Rice, J. H. Kimball, and J. Q. Hoyt, each receiving 1,009 votes, the whole number cast. The only change from the old board was the election of James W. Emery, in place of J. B. Page, of Rutland.

☞ The Master Car Builders' Association will make its head quarters at the Grand Central Hotel, at the Annual Convention to be held in New York, June 14th, 15th, and 16th.

TRIPLER RAILROAD CROSS TIE COMPANY,
235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.
Sectional Tie.
These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.
These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.
The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.
Some of the Ties which have been in use three years are now in the office of the company for inspection.
For further particulars, testimonials, &c., apply to
A. B. TRIPLER, Agent, 235 S. Third Street.
N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, June 3, 1876.

Manchester and Lawrence Railroad.

At the annual meeting of this company held in Manchester, N. H., on the 26th ult., the following board of directors was unanimously elected: Ezekiel A. Straw, Benj. F. Martin, Edward A. Abbott, William W. Strickney, Joseph W. Smith, Nathan Parker, Aretas Blood.

Resolutions were adopted authorizing the Directors to submit all matters in the controversy growing out of the contract between the Manchester and Lawrence and the Concord Railroad to a board of referees to be mutually agreed upon.

At a subsequent meeting of the Directors Hon. E. A. Straw, of Manchester, was re-elected President; Hon. S. N. Belt, Clerk; Geo. B. Chandler Treasurer.

The following statistics appear in the annual report: total receipts for the year, $179,246 28; from passengers, $67,021 64; freight $47,293 50. Total expenses, $78,559 61. Net earnings for the year, $100,686 67. Number of tons of merchandise transported upward during the year, 18,018; downward, 48,026—a decrease from last year of 15,593 tons. Number of passengers, 121,727; decrease, 21,674.

St. Louis, Rock Island and Chicago Railroad.

Mr. Herman Osterberg, after receiving the deed of the Rockford, Rock Island and St. Louis Railroad, mentioned in our last issue, acting under the authority of the committee, transferred the road, its lands, depots, rolling stock and other property, to the St. Louis, Rock Island and Chicago Railroad Co., a corporation organized under the general railroad law of Illinois, and this company has full and entire possession. The Directors have elected the following officers: President, H. Osterberg, of Rock Island; Vice President, W. C. Brewster, of Davenport; Treasurer, J. M. Gould, of Moline; Secretary, Walter Trumbull, of Rock Island; Mr. Charles H. Deere, of Moline, is Chairman of the Executive Committee. Mr. George Skinner has been appointed General Manager, and the present heads of Departments continue unchanged until further notice. It is intended to carry out the policy of extending the road to Rockford and obtaining a connection at Byron which will make an all rail route from St. Louis via Rock Island to Chicago.

Nashua and Rochester Railroad.

At the annual meeting of the stockholders of this company held in Nashua, N. H., on the 25th ult., the following gentlemen were elected directors: F. A. Kinnicutt, Worcester, Mass.; F. H. Dewey, Worcester; Aaron W. Sawyer, Nashua; N. H. Dunlap, Nashua; Charles H. Watters, Groton, Mass.; J. C. Eastman, Hampstead; N. H. Whitehouse, Rochester; Charles W. Smith, Worcester; E. B. Stoddard, Worcester; C. S. Turner, Worcester; Edwin Wallace, Rochester; Chas. Williams, Nashua; J. C. Burley, Epping; Charles E. Whitin, Whitinsville, Mass.; George P. Westcott, Portland, Me. Clerk, Gen. Aaron F. Stevens, Nashua.

This road is under lease to the Worcester and Nashua Railroad Company, for a term of fifty years, the lessees guaranteeing 6 per cent. interest, payable semi-annually. It is stated that 350 shares of the road were recently sold to one gentleman at $95 per share.

By the act of the Legislature last June it was authorized to issue two thousand shares, the new issue to be taken up by the Worcester and Nashua, which road is disposing of them to their own stockholders. It is also stated that 400 shares of this new issue have been sold to two gentlemen at 90.

The Pacific Railroads.

The minority report of the House Judiciary Committee, on the subject of sinking funds to be created for meeting the Pacific Railroad indebtedness to the Government, opposes the majority report on the ground that the acts of 1862 and 1864 constitute a contract between the companies and the Government inviolate in its character, in which the obligation of the companies has been fulfilled by the building and maintenance of the roads, and giving the use of the same to the Government when required. That the judicial decisions have settled the time for payment of the principal and interest of the subsidy bonds, and any attempt to force payment on the part of the companies in advance of such as that proposed in the Lawrence bill submitted by the majority of the Committee is in violation of law and vested rights. It also contends that Congress has not power to alter or amend the contract created by acts of 1862 or 1864, or to repeal such acts except upon refusal or failure of the companies to keep the roads in order, to carry Government troops, etc., thereon; and as the Central Pacific Railroad was chartered by the State of California, any attempt to repeal its charter would be futile. It concludes as follows:

The minority of your Committee submits that the power to enact this bill (the Lawrence bill in the majority report) cannot be claimed either from a general grant of the Legislative power from the special delegation of power contained in the Federal Constitution or from the provision of the acts of 1862 and 1864.

☞ At a meeting of the stockholders of the Portsmouth and Dover Railroad Company at Portsmouth, N. H., on the 29th ult., to consider the means of paying the outstanding debts of the road, it being shown that the company had no power to raise funds within its own organization, it was voted to secure legislation to enable the

cities of Portsmouth and Dover, in the exercis of their discretion, to meet all just and legal claims against the road, and complete the construction of depots, either by taking more stock or allowing rental and dividends due all shareholders to be appropriated to the payment of all legal claims against the road and for construction of depots.

Chicago, Burlington and Quincy Railroad.

We gave in our issues of May 1, 1875, and April 15, 1876, the Reports of the President and Directors for the years ending December 31, 1874 and 1875. Below will be found a comparative statement in detail of the earnings and operating expenses in those years:

Earnings:	1874.	1875.
From freight	$8,445,909 52	$8,502,617 37
" passengers	2,608,054 29	2,677,942 44
" mail, etc.	591,353 71	557,888 36
" interest & exchange	....	52,912 86
	$11,645,317 52	$11,791,361 03
Expenses, viz:		
Train service	$495,562 25	$505,826 49
Engine service	651,041 98	639,985 14
Station service	696,762 36	696,425 11
Water service	58,936 62	74,741 45
Repairs track	1,206,771 83	1,276,916 94
Repairs bridges	213,102 25	253,692 01
Repairs fences	25,536 62	20,206 29
Repairs buildings	129,414 66	80,830 17
Repairs docks	5,355 77	7,883 17
Loss and damage	86,510 34	148,324 58
Fuel consumed	602,241 29	634 575 10
General expenses	550,564 42	530,551 55
Foreign agencies	94,157 59	100,472 55
Stationery, etc.	69,115 07	60,570 60
Repairs cars	744,102 92	554,383 02
Oil and waste	97,664 13	96,855 74
Repairs locomotives	472,443 32	402,747 68
Hire of cars	....	35,689 17
	$6,219,283 41	$6,120,676 76
Taxes	294,228 98	309,445 83
	$6,513,512 39	$6,430,122 59
Net earnings	$5,131,805 13	$5,361,238 44
Out of which has been paid—		
Dividend No. 29	$1,338,781 92	
Dividend No. 30	1,346,753 67	
Rent of tracks	88,521 49	
Interest on bonds	2,014,709 34	
Sinking fund	156,897 50	
		4,945,663 92
Leaving net surplus earnings for the year over every current liability and sinking fund		$415,574 52
To which add surplus at commencement of the year		3,945,992 75
And there stands to the credit of income account		$4,361,567 27
Amount credited to sinking fund taken from earnings		1,363,744 88
And this, added to income credits, makes the amount of surplus earnings		$5,725,312 15

Compared with the year 1874, the gross earnings of 1875 show an increase of $146,043 51, with a decrease in expenses of $83,389 80, making an increase in the net earnings of $229,433 31.

The length of road operated at the beginning of the year was 1,263.81 miles, viz: 680.29 miles of main line, and 583.52 miles of branch roads. On the 17th of November, 1875, the road from Albia to Knoxville, 33 miles, was opened for business—making the total length of road operated at the close of that year 1,296.81. The second track remains the same as at the close of 1874, viz: 31.50 miles. There were constructed, in the year 1875, 8.144 miles of side track; making the whole number of miles of side track on the road at the close of that year 250.63 miles. There were put in the track during 1875, of steel rails: in Illinois 55.81, and in Iowa 46.74 miles—in all 102.55 miles; making the total number of miles laid with steel at the end of the year 1875: in Illinois, 290.83; in Iowa, 98.18 miles—a total of 389.01 miles.

There were added to the equipment of the road in 1875, 9 freight, 2 platform and coal, 11 conductor's and way, and 3 hand cars. The equipment of the road, at the close of the years 1874 and 1875, compares as follows:

	1874.	1875.
Engines	302	302
Passenger cars	112	112
Baggage, mail and express cars	59	59
Box freight cars	4,160	4,169
Platform and coal cars	1,714	17,116
Way and conductor's cars	128	139
Refrigerator car	1	...
Office cars	2	2
Pay cars	1	1
Dump cars	36	31
Wrecking and tool cars	6	6
Pile driver	1	1
Hand cars	407	410
Rubble cars	357	357

The whole number of tons of freight moved during the year 1875, exclusive of Illinois Central, Chicago, Dubuque and Minnesota, and company freight, was 2,396,933, against 2,420,628 tons in 1874, a decrease of 23,695 tons, viz:

	1874.	1875.
To Chicago	1,182,703	959,994
From Chicago	521,172	570,213
Between all stations except Chicago	766.753	866,726
Total, as above	2,420,628	2,396,933

The total through and local freight, eastward and westward, in the two years compares as follows:

	1874.	1875.
Through freight westward	187,941	211,018
Through freight eastward	423,251	370,732
Total through freight	611,192	581,740
Total local freight	1,809,436	1,815 193
Gross tonnage for whole line, as above	2,420,628	2,396,933
Number of tons hauled one mile for entire line	445,686,220	436,363,161
Average miles carried	184.12	182.05
Average earnings per ton per mile	1.90 cents.	1.915 cents.

The earnings per ton per mile on through freight in 1875 were 1.253 cents, and on local freight 2.429 cents, against 1.24 and 2.43 cents respectively in 1874.

The gross tonnage on the business transported in connection with the Illinois Central Railroad, under their contract with this company, amounted, in 1875, to 312,809 tons.

The tonnage to and from the Burlington and Missouri River Railroad and its western connections in the last two years has been as follows:

	1874.	1875.
Eastward	350,194	324,547
Westward	154,367	203 297
Total	504,561	527,844

The movement of passengers by the Chicago, Burlington and Quincy Railroad and leased lines, for the years ending December 31, 1874 and 1875, compare as follows:

	1874.	1875.
Number of passengers carried on line, exclusive of season and mileage tickets	1,830,453	2,019,484
Mileage of line, exclusive of season and mileage tickets	85,356,825	93,770,794
Average mileage of passengers	46.63	46.43
Average amount per mile, exclusive of mileage and season tickets	3 009 cents.	2.790 cents.

There was laid of steel rails during the year: on the Chicago, Burlington and Quincy Railroad and Branches 55.81 miles, and on the Burlington and Missouri River Railroad and Branches 46.74 miles—a total of 102.55 miles. The number of miles laid with steel at the end of the year was: on the Chicago, Burlington and Quincy Railroad and Branches, 290.83, and on the Burlington and Missouri River Railroad and Branches 98.18—a total of 389.01; distributed as follows: Chicago to Burlington, 233.81; Galesburg to Quincy, 44.81; Galesburg to Peoria, 3 09; Aurora to Streator, 9.62; Burlington and Missouri River Railroad, Main Line, 98.18.

The amount charged to construction for this item during the year (being the difference between the cost of steel and iron) was $348,030 39, being $3,893 76 per mile. The balance, $503,669 39 was charged to repairs. In addition to this there has been expended and charged to construction on the Chicago, Burlington and Quincy Railroad and Branches, for new side tracks, land for depot purposes, freight and coal cars, etc., the sum of $259,194 36; and on the Burlington and Missouri River Railroad and Branches, $209,630 40—making a total amount expended for construction during the year of $816,855 15.

GENERAL ACCOUNT, December 31, 1875.

Cost of construction Dec. 31, 1875.		$38,950,433 56
Cost of equipment		8 911,027 20
		$47,861,460 76
Cost of branch roads:		
American Central Railroad		1,377,270 52

The Pacific Railroads.

The Senate Committee on Railroads in reporting the bills on the 26th ult. in regard to a sinking fund for the liquidation of the Government bonds advanced to the Central, Western and Union Pacific Railroad Companies, made a lengthy report, in writing, to accompany the bills, in which they say:

The subject of the indebtedness to the United States of the Pacific railroad aided by the Government, and constructed under the acts of July 1st, 1862, and July 2d, 1864, is at once perplexing and important, especially in view of the late decision, at the October term, 1875, of the Supreme Court of the United States, that the interest paid semi annually by the United States on their bonds issued in aid of the construction of the road cannot lawfully be required to be reimbursed by the companies until the maturity of the bonds at the end of 30 years, when the principal also matures, except as it may be reimbursed by half the Government transportation moneys and five per cent. of the net earnings of the road.

The following table shows the principal of the bonds issued to the various companies, with the total amount of interest which together with the principal will be due from the companies to the Government on an average in 1898, or at the maturity of the bonds, thirty years from their date, crediting no reimbursements, and the amount of interest at least will have been paid out of the Treasury of the United States in behalf of the companies.

Central Pacific, Western Pacific, principal of bonds, $27,855,680; interest, $50,140,224; principal and interest, $77,995,904.

Union Pacific, principal of bonds, $27,236,512; interest, $49,025,721; principal and interest, $76,262,233.

Kansas Pacific, principal of bonds, $6,303,000; interest, $11,345,400; principal and interest, $17,649,400.

Central branch Union Pacific, principal of bonds, $1,600,000; interest, $2,880,000; principal and interest, $4,480,000.

Sioux City and Pacific, principal of bonds, $1,628,320; interest, $2,930,976; principal and interest, $4,559,296.

Total principal of bonds, $64,623,512; interest, $116,322,321; principal and interest, $180,945,833.

The report then reviews at length the action of the Government to have the amounts paid for interest reimbursed, and the several acts of Congress on that subject, and also refers to the various suits in the Supreme Court of the United States, Court of Claims, and United States Circuit Courts in Massachusetts, Kansas, Iowa and California, and says:

Before proceeding to inquire whether Congress can adopt and enforce any new legal remedy for the United States which shall be effectual to protect it against ultimate loss under the decision of the Supreme Court that the interest paid by the United States is not reimbursable until 1898, it may be well to inquire what amounts may be expected to be realized from the half of the transportation moneys and the 5 per cent. of net earnings without any further legislation by Congress.

The Union Pacific Railroad Company has furnished your committee with a statement of the amounts which the company has charged to the United States for services rendered from April, 1867, to December 31, 1875. The gross amount of these nine years is $7,290,252 89; average yearly amount earned in nine years, $810,028 10, of which the Government retains one half annually, $405,014 05. To this add 5 per cent. of the amount which the company admits are net earnings by declaring a dividend of 8 per cent. on the capital stock of $36,475,000. Dividend $2,918,000, 5 per cent. upon which is $145,900. Undisputed annual amount to be relied upon from the Union Pacific Railroad Company, $550,014 05. No statement has been received from the Central Pacific Company as to the amounts charged to the United States, and the committee uses the statement presented by the Secretary of the Treasury some weeks ago, showing the undisputed annual amount to be relied upon from the Central Pacific R. R. Co., $320,496 21.

The report then declares it is apparent that, from the above sources sufficient sums cannot be realized towards the reimbursement of the principal and interest of the bonds issued by the United States in aid of the companies, and it is evidently desirable that some new and additional method of providing for the Government indebtedness should be discovered and put in operation either by mutual, voluntary arrangement between the railroad companies and the Government, or by act of Congress forced upon the companies against their will, if the terms of the act are not satisfactory to them. The report then discusses the power of Congress to obtain from the companies against their will amounts in addition to the half transportation moneys and five per cent. of the net earnings, and after reviewing and commenting upon the acts of Congress at some length and quoting from various judicial decisions, says:

If, therefore, the power of Congress to provide additional means for the ultimate reimbursement of the United States against the consent of the companies does not exist or is so doubtful that an attempt made to exercise it will result injuriously to both the Government and the companies, so that an arrangement which should be satisfactory to and executed by the companies is advisable, the question arises, what practicable and beneficial agreement can be made?

The proposition made by the companies to surrender certain land at $2 50 per acre, to be held by the United States as a sinking fund, etc., are next referred to, and the report says:

After the most careful examination and consideration of the subject in all its bearings which have been suggested, the committee has concluded to report bills for a settlement with the two large companies, which embrace the retransfer to the Government of a portion of the land granted to the companies in aid of the construction of their roads, a credit upon the indebtedness in reduction thereof of the value of the lands reconveyed at $2 50 per acre, and the payment by the companies of such semi annual sum into the Treasury as will, with interest credited and accumulating thereon, create a sinking fund sufficient to liquidate the balance of the indebtedness at the maturity of the bonds.

Referring to the necessity for a settlement, the Committee say:

Every day that such a settlement is deferred makes it more difficult of accomplishment, and the terms now demanded may be considered, if accepted, more as the measure of the desire of the companies to avoid continuous litigation and assaults upon them than of an intention to fully

pay their debt to the Government. Another reason which has induced the Committee to consent to consider said proposition, and not to insist upon semi-annual money payments sufficient to create a sinking fund, which would meet the bonds and interest at maturity, is that the companies say they cannot undertake to pay in money sums sufficient to create such a sinking fund. They urge with much earnestness that to require them to provide a sinking fund which will pay the whole of the Government second mortgage immediately at maturity would be unjust unless they also laid aside a sinking fund sufficient to pay at maturity their first mortgage bonds, and that to provide both these sinking funds would exceed their present or anticipated available annual resources. At the time these railroads were incorporated and assisted by Congress their construction was considered a national necessity, to be provided for at almost any possible cost. A proposition then to make them such a donation as results from the present recommendation, would very likely have met with universal favor, and your committee may ask the question whether the Government may not be constrained now by force of circumstances to a scale of liberality that it would at one time, under the great desire for the construction of a road, have willingly adopted.

In conclusion the report says:

The agreement being on the whole advantageous for the companies, it is fair to presume that they will be both able and willing to carry it into execution faithfully. Should they not be able, however, the Government is in no worse position than it was before. It will have received all the payments which have been made up to the time of the failure of the companies, and can resort to its second mortgage lien which has been in no way waived, canceled or released, except to the extent of the partial payments made by the companies, with which the latter are, in any event, entitled to be credited.

PROVISIONS OF THE UNION PACIFIC BILL.

The bill reported by Mr. West, from the Senate Committee on Railroads, "to create a sinking fund for the liquidation of the Government bonds advanced to the Union Pacific Railroad to and for the settlement of the claims of the Government on account of the said bonds," authorizes and directs the Secretary of the Treasury to receive from the said company a conveyance and release of six million acres of land heretofore granted to it, westerly of the 100th meridian, and to credit and apply the sum of $15,000,000, computed to be the value thereof, to the extinguishment of that amount of the claim of the Government for the principal of the Government bonds advanced to the company, this credit to be conditioned, however, upon the fulfillment of the conditions hereinafter described. The Secretary of the Treasury is also directed to convey to the credit of a sinking fund for the payment of the balance of the principal of said bonds and of the interest thereon the amount due the company, and now withheld for Government transportation up to the 31st of last December, which, if not amounting to one million of dollars, shall be made up by the company to that sum, and "any amount exceeding said $1,000,000, is to be forthwith paid to said company."

The fourth section provides that "the said company shall pay semi-annually, on the 1st day of April and October, in each year, into the Treasury of the United States such sum approximate not exceeding $375,000, either in lawful money or in any of the bonds and securities of the United States Government at par, as shall with interest thereon, as hereinafter provided, be sufficient when added to the other sums to the credit of said sinking fund to pay off and extinguish the balance of the claim for the Government bonds advanced as aforesaid, with six per cent interest thereon from their respective dates up to the maturity of the last bonds issued to said company. Interest on all sums placed to the credit of said sinking fund shall be credited and added thereto semi-annually at the rate of six per centum per annum."

The fifth section provides that the payments to be made by said company shall be in lieu of all payments from said company under all the various Pacific Railroad acts, in relation to the reimbursement to the Government of the bonds issued to the said corporation, except that the company shall still be required, until said bonds and interest are fully paid, to keep its line in repair and perform service for the Government, giving it priority of use when demanded, at fair and reasonable rates of compensation, not exceeding those paid by private parties, which charges shall be paid in cash.

The bill further requires the company to provide for and pay the principal and interest and maintain sinking funds for any and all land grants, and sinking fund bonds issued upon the security of mortgages covering the lands which are to be conveyed to the Government, and to pay the trustees under said mortgages amounts sufficient to release all these bonds from mortgage claims as fast as they may be sold by the Government.

The other sections of the bill provide that "The Government mortgage on the company's franchise and property shall remain in full force until the company shall have complied with all the foregoing requirements; that the company shall be allowed at any time to pay to the Government, in lieu of any remaining semi-annual payments, their present value computed at 6 per cent interest, and that this bill shall not be operative unless accepted by the Union Pacific Railroad Company four months from the date of its enactment by the votes of the directors and stockholders at regular meetings duly called.

PROVISIONS OF THE CENTRAL PACIFIC BILL.

The bill reported from the same committee relative to the Central Pacific Railroad (and the Western Pacific Railroad, as now part of it) contains identically the same provisions, with the exception that the six million of acres of lands to be conveyed by this company to the Government are described as being in Utah and Nevada, and that the money payments on account of the sinking fund are $425,000 every six months, instead of $375,000.

☞ It is expected that the extension of the branch of the Boston, Concord and Montreal Railroad from the Fabyan House to the base of Mount Washington, a distance of about seven miles, there connecting directly with the Mount Washington Railway extending to the summit will be completed and opened for public travel by the first of July, at which time passengers by this line from Boston can reach the base of Mount Washington without change of cars, and thence by direct transfer to the cars of the Mount Washington Railway, reach the summit, making the entire distance by steam power. Passengers will thus be enabled to take their breakfast at Boston and their supper on the summit of Mount Washington at the usual hours of the same day, and without fatigue or the annoyance of change.

Concord Railroad.

The receipts from operations of this road for the years ending March 31, 1875 and 1876, have been as follows:

	1875.	1876.
From passengers	$371,213 87	$359,047 51

From this has been paid—		
Two dividends of 5 per cent each		150,000 00
Balance carried to contingent fund		$1,030 01

The rolling stock of the road, comprising 37 locomotives, 44 passenger cars, 16 baggage cars, 11 freight saloons, 960 freight cars, 1 paymaster's car, is generally in good condition, and, with the necessary renewals to cover depreciation, will be sufficient to meet the probable requirements of the business for years to come.

Of the above described equipment, one freight locomotive, one switching locomotive, one baggage car, one freight saloon, twenty-three freight cars, and the paymaster's car were built in the shops during the year, and two locomotives, four passenger cars, three baggage cars, one freight saloon, and one hundred and six freight cars were purchased of the Nashua, Acton and Boston Railroad, which purchase is hereinafter more fully mentioned.

The road bed, track, &c., have been fully kept up, and are in a better condition than at the close of the previous year. Ten hundred and thirty-five tons of new iron rails and five hundred tons of new steel rails have been placed in the track, and thirteen hundred and sixty six tons of iron rails have been taken up, repaired, and relaid during the year. Sixty-seven thousand seven hundred new sleepers were laid, and the ballasting of the double track between Concord and Nashua, with gravel, has been completed. Nine thousand six hundred and forty feet of additional side track has been laid, four miles of new fence built, and all necessary repairs and renewals of the bridges upon the road and its branches have been made. The Concord and Portsmouth road bed is much in need of gravel ballasting for nearly the whole distance between Manchester and Portsmouth.

Abundant material for this purpose is owned by the company at West Epping, and it is proposed that this work be done during the coming year, as far as the financial condition of the road will warrant.

The depots and other buildings owned by the corporation, are generally in a good and serviceable condition.

The passenger car house at Manchester has been remodeled and improved. Sheds have been built over the platform at either end of the passenger depot, and other desirable improvements made at that station during the past year.

The necessities of the road have required the purchase of additional lands at Manchester, and it has been made by this road, and in connection with the Manchester and Lawrence Road. The cost, to this company, was $25,348 60, which has been paid, in part, in cash, and the balance by the note of the company. The improvements which can now be made, and are in progress at that place, will be very advantageous to the road, and avoid what have heretofore been great inconveniences to the public.

About eleven acres of land were purchased and taken for side tracks and depot purposes at Suncook last season, a large and convenient station yard graded, the freight depot building moved and otherwise improved, and a new, commodious, and very conveniently arranged passenger depot built at that station. These improvements will probably be sufficient for the accommodation of the public, and for the requirements of the large and growing business of the road at that thriving place, for many years to come. For the purpose of securing the necessary land at a reasonable price, it was found advisable to purchase more than will be required for the use of the station; but a large part of the land so purchased can be advantageously sold hereafter, and the expense of the improvements reduced by the amount received therefrom.

A depot, with sheds attached, suitable and necessary for the business of the road and the convenience of its patrons, has been built at Massabesic station; and all repairs of depots and buildings at other stations, which their decay and depreciation rendered necessary, have been made.

NASHUA, ACTON AND BOSTON RAILROAD.

The directors, subject to the approval of the stockholders of the company, have taken a lease of the Nashua, Acton and Boston Railroad for the term of ten years from January 1, 1876, and at the rent of $11,000 per annum. This lease has been deemed advisable and desirable, not only to provide for the business of this road, but also to protect its interests against adverse operations which probably would arise if the control of that road were in other hands. The lease will be submitted to the stockholders at the coming annual meeting of the corporation, and the directors recommend it for their approval.

In connection with this lease, purchases of the rolling stock, and other furniture of the same road, have been made by this company to the amount of $70,000. These purchases were necessary for the purposes of the lease, but the property would be useful to this road, and was taken at such prices that there would be no loss to this company on it, even if the lease should not be approved and continued.

In addition to this, a loan of $72,500 has been made by the company to the Nashua, Acton and Boston Railroad, to enable it to discharge some of its obligations, which it was desirable to have removed in order to accomplish the lease. This loan is made on security which the directors regard as reliable, and the interest on it is provided for by allowance, from the rent of the lease. The sum of $16,512 32 has been paid towards the purchase of the property above mentioned from the earnings of this road during the past year, and is included in the foregoing expenses of that year.

To provide for the balance of these purchases, and also to supply the place of the funds used for the loan referred to, it has been necessary for this company to make temporary loans on its own credit, for which its notes have been given. A portion of those notes is included in the trial balance of the treasurer, which accompanies this report—but not all of them, because they were not completed until after the close of the year.

The total tonnage of the road for the year has been 625,363, equal to 20,008,402 tons transported one mile. Total number of passengers carried 560,860; total carried one mile, 12,987,174. Number of miles run by trains, 627,164. Value of materials on hand at the close of the year, $205,602 82, against $220,095 18, at the close of the previous year—a decrease of $14,492 36.

Superintendent.—H. E. CHAMBERLIN.

Allegheny Valley Railroad.

At a regular meeting of the managers of the Allegheny Valley Railroad Company, held in Philadelphia on the 24th ult. Mr. T. R. Robinson was elected Treasurer. Mr. Robinson held the offices of Treasurer and Secretary of the Pacific and Atlantic Telegraph Company prior to its consolidation with the Western Union. At the time of his election to his present post he held the positions of Secretary and Treasurer of the Oil Creek and Allegheny River Railroad, Treasurer of the Buffalo, Corry and Pittsburgh, and besides was Secretary and acting Treasurer of the Allegheny Valley Railroad, assuming the duties of the latter when the late Mr. Volz was taken ill. The appointment of Mr. Robinson will prove highly satisfactory.

☞ The stockholders of the Boston, Clinton and Fitchburg Railroad Company have voted, 4,255 to 358, in favor of the consolidation of that company with the New Bedford Railroad Company; and the stockholders of the New Bedford Company have voted, 9,029 to 1,292 in favor of the consolidation of that company with the Boston, Clinton and Fitchburg Railroad Company.

☞ The last tie was laid and the last spike driven on the Nevada County Narrow Gauge Railroad on the 20th of May. Through trains were run on that day between Nevada and Colfax, and also to and from Grass Valley.

☞ Ground was broken for the Boston, Winthrop and Point Shirley Narrow Gauge Railroad on the 29th ult.

Elevated Railway at the Centennial.

The elevated Railway which has been built across the ravine which separates Horticultural Hall from Agricultural Hall is of pecular construction, and is the invention of Gen. Roy Stone, of Elmira, N. Y. The track is supported by a single row of iron columns, resting on foundations of timber. The length of the road is 500 feet, and the greatest height above the bottom of ravine, 30 feet. The car runs on three rails. One of these occupies the centre of the track, and is laid along the top of a triangular truss. At the base of this truss, and on either side of it, are laid two rails. The car thus moves on three rails—one in the centre and two on the sides. The bottom of the car is concave, and fits over the central rail, while the sides extend several feet below the line of the centre of the car, and have wheels attached to them which run on the side tracks horizontally, instead of perpendicularly, as is the case on ordinary rails. Thus the wheels on the central rail are the bearing wheels, while those on the sides are the guiding wheels. The wheels have rubber tires, which cause them to run smoothly, and deep flanges, which prevent them from running off the track. The locomotive is also constructed in a curious manner. The engine is placed above the tender, and is fed with water and fuel from below. The arrangement of the tender is the same as that of the car, so far as the running gear is concerned. The car will seat sixty passengers, and contains a saloon and two compartments—one each side. The fare will be three cents, and it is contemplated to make the trip across the valley and back in two minutes. The cars will run in conjunction with the narrow gauge steam road, which will have a station at the western end of the elevated road. The passengers from the narrow gauge road who wish to cross the valley at this point can do so on the elevated road. The road is intended to be used for rapid transit in cities.

☞ The revenue of the Mobile and Ohio Railroad for the first three months of 1876 was $568,952, and the expenses $440,002. For the first three months 1875 the earnings were $483,154, and the expenses $397,229—showing an increase in earnings of $80,798, and in expenditures of $42,773.

☞ The earnings of the Boston, Concord and Montreal Railroad for the year ending March 31, 1876, were $693,354 97, the expenditures $511,342 64, and the net balance $182,012 33—showing an increase over the previous year in earnings of $29,160 59, and in net earnings of $41,803 70.

☞ The Phœnix Iron Co. exhibit at the Centennial a bridge link made by hydraulic pressure. It is 14 inches in diameter by two inches thick, and was moulded on a bar of iron, 6x2 inches. It is a handsome piece of workmanship, without flaw, and is as smooth as steel.

☞ The receipts of the Chicago, Danville and Vincennes Railroad in March, 1875, were $79,942, and the disbursements $101,238. In April the receipts were $73,636, and the disbursements $74,894. Total receipts for two months, $148,578; total disbursements, $176,127.

☞ Mr. E. S. Washburn has been appointed General Manager of the Hoosac Tunnel Line, with headquarters at Rochester, N. Y.

American Railroad Journal.

Saturday, June 3, 1876.

Financial and Commercial Affairs.

More activity has been reported in business circles during the week, influenced in part by the war reports and rumors from Europe. The recurrence of Decoration Day served to check operations. Money has been in comparatively moderate request for speculative and mercantile use, and the very ample offerings of capital have enabled responsible borrowers to provide for their wants without difficulty, and generally on very advantageous terms—call loans having been quoted at from 2@4 and commercial credits at from 4@6 per cent per annum. The city banks have gained largely in their legal tender reserve, and moderately in the line of deposits, while reporting a falling off in the other items. The Government office had its coin and currency reserves cut down during the week. The U. S. Sub Treasury currency balance was reduced $1,898,553, and the specie reserve $2,089,362. National Bank notes received at the Treasury Department last week for redemption were to the amount of $5,958,000. The City Banks have had their deposits enlarged $985,200; and their legal tender reserve $3,600,600. The specie average has been reduced $1,030,800. The loan and discount item was cut down $1,717,800. The circulation was diminished $53,500. The U. S. Sub Treasury in this city closed the week with a currency balance of $35,726,618 against $37,125,171 the preceding week; and a coin board of $38,750,768 against $40,840,130 on the previous return. The City bank exchanges in currency reached $361,113,908, or a daily average of $60,185,651. The customs revenue of the port during the week was

$1,854,000. The City banks reported their average of gold last week at $17,386,500, and their greenback average at $49,290,400. Their deposits stood at $208,978,700. The loan item was $251,492,700. The circulation was $16,059,200.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $14,414,225 as against $12,090,725, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, May 1st was $411,456,078. The outstanding amount of legal tender notes is $370,123,688. The National bank circulation is now $334,813,305, including $2,099,190 of national gold bank notes.

On Monday of this week the cash balances of the Treasury Department at Washington were: of Currency $10,221,886; special deposit of legal tenders for the redemption of certificates of deposit, $36,365,000; Coin, $66,177,936; Coin certificates, $24,756,700.

The week's import entries of Foreign Merchandise at New York were $5,240,422, including $967,152 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 107 millions; and from Customs, 138 millions.

More animation has been reported in the line of Gold dealings, chiefly on speculative account, stimulated by the warlike tenor of the advices from Europe, and on the earlier operations the market was decidedly buoyant. Toward the close the speculative demand was less confident. The week's export drain of specie was up to a fair average. The customs call was moderate. The extremes of the price during the week have been 112½@118⅛, closing on Wednesday at 112⅝, as against 112⅛ on Wednesday of the preceding week. The specie outflow last week was $1,421,500 against $1,519,588, the previous week. The imports of specie at this port last week were $91,518, and since January 1st $1,678,002 as against $6,299,916 same time last year. The customs demand for gold last week averaged $309,000 per day. Foreign Exchange has been comparatively quiet, but quoted about steady. Bankers sixty day bills on London closed on Wednesday at $4 87¾@$4 88¼; sight bills on London at $4 89⅛@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,224,430. The week's imports of Dry Goods and general merchandise were to the specie value of $5,240,422 as against $9,357,343 the corresponding week of 1875.

Government Securities have been in good demand on investment account, and have been held with firmness. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $344,623,850.

U. S sixes of 1881 closed on Wednesday of this week at 122⅝@122¾; U. S. Five-Twenties of 1865, at 115⅛@115⅜; U. S. Five-Twenties of 1865 consolidated, 119@119¼; U. S. Five-Twenties of 1867, 121¼@121⅛; U. S. Five-Twenties of 1868, 123⅛@123⅜; U. S. Ten-Forties at 118¼@118½; U. S. Fives of 1881, (Funding Loan) 117@117¼; Six per cent. currency Sixes 127⅛@127⅜.

State and Railway bonds have been moderately sought after and generally quoted steady as to price. And in the line of Railway and Miscellaneous share property business has been less active, and prices have been unusually variable closing, however, more firmly.

General business has been decidedly brisker, chiefly in the line of domestic produce and domestic Cotton and Woolen goods. Export operations in Breadstuffs, Provisions and Cotton have been on a more liberal scale, notably so in Wheat, Corn and Lard. Prices, however, have been unsettled. Foreign merchandise has been moving moderately at about late figures. The Metal trade has been fairly active at about previous quotations. Eglinton Pig Iron quoted here at $27 50@$28 50; Glengarnock $29 50@$30; Coltness $30@$31; No. 1 American Pig at $22@$23; No. 2 do. at $20; Forge, $17 50@20; American Rails at works $40@$45; Old Rails $22 50 @$25. Wrought Scrap, $28@$30. Ocean freights have been unusually active, especially in the line of Grain accommodation, at much stronger rates. Saturday's Grain chartering movement was exceptionally brisk.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Hannibal and Central Missouri 1st mort., 85; Missouri, Kansas and Texas, R. R., 8⅞; do. S. ☞ The John Stephenson Co., Limited, have finished two elegant street cars to exhibit at the Centennial, finished and decorated in superb style. One is a two-horse car built for a Philadelphia railway, and the other a one-horse car for a New York City road. These works are now employing 220 to 230 men, their full force and on full time.

☞ Riehle' Bros. have just furnished the new Rolling Mills of John Roach's, at Chester, with one of their Testing Machines for ascertaining the tensile strain of plate, iron, etc.

☞ The Mortgage Trustees of the West Wisconsin Railway have taken possession of the road and appointed William H. Ferry their agent. The office of the company is at Hudson, Wis.

☞ The Easton (Md.) Gazette learns that the parties holding mortgages against the Maryland and Delaware Railroad are pressing their claims, and that the court has issued a decree for its sale.

☞ A corps of engineers are now engaged in surveying a route leading from the Scioto Valley Railroad through Adelphia to the Vinton County coal fields.

☞ The Santa Cruz Railroad was completed to the Pajaro depot on the 17th ult., connecting at that point with the Southern Pacific Railroad.

Michigan Central Railroad.

The transfer books of this company closed on the 26th ult. for the annual election of directors to be held at Detroit on the 26th inst. Mr. J. F. Joy, the President, at the recent meeting of the directors, held in this city, tendered his resignation in the following letter, which was accepted:

NEW-YORK, May 23, 1876.

R. G. ROLSTON, ESQ., Secretary, &c.:

DEAR SIR: It is known to the members of the last two Boards of Directors that it has ever been my desire that I might be permitted to retire, and that my name should not be presented to the stockholders as a candidate for re-election to the board.

Last year my determination to retire at that time was overcome by the earnest and unanimous request of the board that I should remain for at least another year.

The year is again about to expire, and now I think I should be at liberty to retire, and must request and insist that another name shall be substituted for mine at the next election of Directors. With the best wishes for the future prosperity of the company, yours truly, J. F. JOY.

☞ In accordance with the decree of sale rendered by the Circuit Court of the United States for the district of Iowa on October 30 last, W. M. Kæiser, special master in chancery, announces the public sale of the Burlington, Cedar Rapids and Minnesota Railroad at Cedar Rapids, Iowa, on June 22 next. The road to be sold consists of main line, Pacific and Muscatine branches, in all about 300 miles.

☞ At the thirty-first annual meeting of the Northern Railroad Company, held at Concord, N. H., on the 25th ult. the old board of directors was re-elected, viz: Onslow Stearns, Concord; John A. Burnham, Boston; Geo. W. Nesmith, Franklin; Uriel Crocker, Boston; Josiah Minot, Concord; Chas. F. Choate, Boston; Edward Lawrence, Charlestown.

☞ The gauge of the Delaware, Lackawanna and Western Railroad was narrowed on the 28th inst., between six o'clock in the morning and six o'clock in the evening, from Hoboken to Scranton, Senna, Binghamton, Oswego, Rome and Utica, and narrow gauge trains passed over the whole line. About two thousand men were employed on the work.

☞ The directors of the Pacific Mail Steamship Company, elected on the 31st ult., are: Charles G. Francklyn, Henry Hart, Samuel C. Thompson, Charles H. Mount, Andrew Boardman, Edward A. Quintard, Thomas J. Owen, Jr., Charles G. Miller, and William P. Clyde. The new Directors subsequently organized and elected Mr. William P. Clyde President.

☞ At a meeting of the stockholders of the Boston, Concord and Montreal Railroad held at Plymouth, N. H., on the 29th ult., the old Board of Directors was re-elected with one exception, Mr. J. A. Parker declining re-election on account of ill health. Mr. S. N. Bell was substituted.

☞ Track-laying on the Northern Division of the Columbus and Toledo Railroad was begun at Carey, Ohio, on the 23d ult.

☞ The regular survey of the line of the Columbus and Mineral Valley Railroad from Ferrara to McConnelsville, is progressing.

Pacific Mail Steamship Co.

The earnings of this company for the year ending April 30, 1876, were $5,500,013 69, the expenses $4,915,917 95, and the net profit $584,095 74. In the previous year the earnings were $6,425,650 78, and the expenses $6,978,689 17; showing a loss to the company of $553,038 39. The earnings of the past year compared with those of the previous year show a decrease of $925,637 09, and the expenses a decrease of $2,062,771 22—a difference in favor of 1876 of $1,137,134 13. The earnings by each line was as follows,

Atlantic line		$764,103 04
Panama line		1,661,524 35
Trans-Pacific line		1,537,282 00
Shanghai line		269,142 30
Victoria line		127,179 59
Australian line		84,197 81
Outside of line accounts		26,405 09
Union Pacific Railroad subsidy to February 29, 1876		156,272 50
Union Pacific Railroad subsidy to November 30, 1875		17,830 14
Central Pacific Railroad subsidy to February 29, 1876		123,395 41
Total		$4,717,382 23
Added to these are the following:		
Subsidy Trans-Pacific line	$500,000 00	
Subsidy Panama line	69,876 78	
Subsidy Victoria line	28,500 00	
	$598,376 78	
Interest and dividends on investments	15,258 71	
Exchange	104,231 24	
Miscellaneous (old material sold, etc)	57,765 77	
Tug Millen Griffith (net earnings	7,048 96	
		782,681 46
Total		$5,500,013 69

The running expenses of the Atlantic, Panama, Trans-Pacific, Shanghai, Victoria and Australian lines amount to $3,679,702 76; the cost of the agencies reached $585,629 12; the charters paid $188,069 55, and the extra repairs to steamers City of Panama, Alaska, Henry Chauncey, Japan, Salvador, Colon, Acapulco and Oregonian to $106,350 53. The other items which swelled the expense aggregate to $4,915,917 95 would fill a long list. The assets are set down at $959,370 10, and the profit and lose account at $4,244,928 68. The capital stock, 200,000 shares, is $20,000,000, and the liabilities figured up at $1,837,802 72.

In addition to the above liabilities the city of New York claim tax of 1874 unpaid, with two years' interest to be added, $160,986 50. Judgment has been rendered against this company for damage to cargo of Costa Rica, $43,000. Panama Railroad claim, balance due, $444,535 58.

☞ The stockholders of the New Bedford Railroad voted on the 29th ult. to mortgage the road to secure $517,000 bonds previously issued, and not over $550,000 bonds to be issued the 31st of May.

☞ The Ross County Register says that $20,000 of the first mortgage bonds of the Scioto Valley Railroad were recently disposed of at 85.

☞ Messrs. Seligman Bros., of London, have been appointed fiscal agents of the United States for the Navy Department in Europe.

Pittsburgh, Ft. Wayne and Chicago Railway.

The Thirteenth Annual meeting of the stockholders of this company was held in Pittsburgh on the 17th ult. John B. Jackson, Esq., was appointed chairman and Frank M. Hutchinson, Esq., secretary. The secretary read the annual report of President George W. Cass, Esq., from which we take the following:

In compliance with usage and the by-laws of the company your board of directors present in the following pages their annual report, showing the operations of the railway for the year 1875, as reported by the lessee under the provisions of the lease, and also report the condition of the property of the sinking fund and of the assets and debts:

EARNINGS.

From passengers	$5,430,510 69
Freights	2,024,438 29
Express mattter	149,301 00
Mail	140,850 00
Rents	98,895 20
Rent of railway	15,377 93
Miscellaneous	4,291 17
Total	$7,863,664 28

EXPENDITURES.

Repairs to passenger and flag stations	$60,203 39
Repairs to engine house, machine shops, and turn tables	20,584 55
Repairs to locomotives	264,465 97
Repairs to cars, Pittsburgh, Fort Wayne and Chicago	519,624 94
Repairs to tools and machinery	14,563 25
Repairs to way stations and fixtures	18,380 44
Repairs to bridges	47,290 11
Fences and roads	27,918 52
Foreman and watch houses	954 15
Hand cars, tanks, &c	6,441 48
Track labor	765,901 84
General office	487 06
Ballast	36,440 98
Superintendence	40,159 93
Incidentals	10,215 11
Total	$1,833,331 72

Your board of directors have not yet audited and approved the account of $233,948 26 for money expended for improvements and equipments under the sixteenth section of the lease, and, therefore, do not know as yet what proportion, if any, of the same would eventually be charged to running expenses; but the probability is that the greater portion will be found to be correct, and that guaranteed special stock will be issued therefor. The entire expense of maintaining the road, including taxes on real estate, repairs of machinery, and operating the road, according to the report made by the lessee to the Secretary of Internal Affairs of Pennsylvania, has been $4,586 097 78.

The result of the year's business to the lessee may be stated thus:

Earnings of main line		$7,863,664 28
Net gain in operating the New Castle and Beaver Valley and Lawrence railroads		91,706 10
		$7,955,370 38
From which deduct:		
Operating expenses & all taxes	$4,602,091 66	
Amount paid Cleveland and Pittsburgh and Bellair divisions of joint earnings	69,446 06	
Miscellaneous	19,000 00	
		4,690,537 72
Leaving net profit of operations		$3,264,832 66

Out of the above stated profits of operating the road, the lessee, by the terms of the lease, has to make payments amounting to $2,745,800, leaving a profit to the lessee, after paying every charge, of $519,032 66. Of these profits the lessee reports having expended for equipment and construction the sum of $233,948 26, for which, approved by your board, there will be issued a like sum in guaranteed special stock in payment. The profits of the lessee will then consist of guaranteed special stock, $233,948 26; cash, $285,084 40; total, $519,032 66.

The trustees have rendered a statement of moneys received and disbursed on account of the sinking fund during the year 1875, which you will find appended to this report. They report as having purchased and now in the sinking fund of the

First mortgage bonds	$709,000 00
Second mortgage bonds	854,000 00
Total	$1,563 000 00
If to this be added the cash on hand	200,850 46
Makes total of sinking fund, December 31st, 1875	$1,763,850 46

This amount is equal to one sixth of the debt to be paid by the operation of the sinking fund.

The share capital account of the company stands at the close of the year 1875, as stated in the annual report of the previous year, there having been no guaranteed special stock delivered to the lessee during the year 1875. Quite recently there has been a settlement of the unadjusted accounts of the lessee, which have been running some years, and guaranteed special stock has been issued to the amount of $978,600, making the whole issue as of the date of this report $5,078,000, and the entire share capital $24,973,285 71.

After the reports of the treasurer and consulting engineer has been submitted an election was held to fill the offices of four directors, which resulted in the re-election of the following: G. W. Cass, Pennsylvania; J. F. D. Lanier, New York; Hon. S. J. Tilden, New York; J. N. McCullough, Pennsylvania.

The meeting then adjourned.

☞ The Nevada and Northern Telegraph Company was adjudicated a bankrupt before Register Gitchell in San Francisco on the 20th of May. The principal creditors are Platte Burr, Portland, Oregon, $28,500; Tillotson & Co., New York, $6,000; C. P. R. R. Co., $5,000. Total liabilities, $18,000. Assets consist of a telegraph line from Winnemucca, Nevada, to Portland, Oregon, via Idaho, which has cost about $150,000, and is now estimated to be worth $65,000 to $75,000.

☞ The gauge of the Galveston, Houston and Henderson Railroad, which is now five feet six inches, will probably be changed to four feet eight and one-half inches, which is the gauge of all the leading Texas roads except a part of the Houston and Texas Central, which will be changed before long.

☞ Track laying is progressing on the Little Rock and Fort Smith Railroad; by this time cars are probably running to Big Mulberry, 23 miles below Van Buren.

☞ On petition of its creditors W. Whitman, Esq., of Chicago, has been appointed Receiver of the Chicago and Pacific Railroad upon filing a bond of $10,000.

☞ The name of the Cincinnati, Batavia and Williamsburg Railroad has been changed to the Cincinnati and Eastern Railway.

☞ The engineers, under Mr. Homan, are making soundings for the Little Rock, Mississippi River and Texas Railroad bridge.

Riveted Boiler Plates.

The increased demand for plate and boiler work, says *Scribner*, has stimulated scientific investigation, and brought out many facts of general interest. The value of a piece of plate work depends on the strength of the riveted portions. Calling the strength of an unpunched plate at 100, the strength of a double riveted joint is reckoned at 66, a single riveted joint at 50. Punched rivet holes, by means of the tearing and splitting caused by a smashing blow, are found to be less valuable by 15 per cent. than drilled holes. Oval rivet holes have been tried with success. The long diameter of the rivets is placed in line with the length of the plate, thus reducing the space between the holes in its weakest direction. Sir W. Fairbairn suggests rolling plates with thickened edges, so that the line of rivet holes will be relatively stronger. This idea is now undergoing experiment. Boiler plates are also being riveted diagonally, with the joints at an angle of 45 degrees with the axis of the boiler. As the relative strength of iron and steel plates is, iron 50,000 pounds, steel 60,000 pounds, many boilers are now being made of steel for the sake of this difference in strength.

Swiss Narrow-Gauge Railway.

A railway, of a meter gauge and 24½ kilometres—about 15 miles—long, is now being constructed in Switzerland, between Winkeln and Appenzell, by Heissaw. On account of the disturbed surface, very sharp curves are necessary, sometimes of only 90 metres (4½ chains) radius on gradients of 1 in 28. The rails weigh 23 kilogrammes per metre run—about 50 pounds a yard; and the whole cost of the line, including rolling stock, is estimated at 120,000 francs per kilometer—£7,724 per mile. The rolling stock consists of tank engines weighing about 19 tons, and wagons holding 6 tons. One section of the line was opened for traffic last June.

☞ At the annual meeting the Concord Railroad Company, held in Concord, N. H., on the 30th ult., the following gentlemen were elected directors: Onslow Stearns, Concord; John E. Lyon, Boston; James W. Johnson, Enfield; Frederick Smyth, Manchester; Joseph P. Pitman, Laconia; John A. Burnham, Boston; Samuel N. Bell, Manchester. It was voted, 89 to 2, to ratify and accept the action of the directors in leasing the Nashua, Acton and Boston Railroad.

☞ The narrow gauge road from Wauzeka to Sparta, Wis., (eighty miles) is progressing favorably. Some twenty miles are graded, and the cars will run from Wauzeka north forty miles by next fall, as the means are already provided.

☞ Messrs. Morton, Rose & Co., London, will pay on presentation the coupons due June 1, 1876, for three months' interest on the Illinois Central Railroad Company Five per cent. Sterling Bonds of 1905 for £200,000.

☞ A narrow gauge railroad, wooden rail, will be completed from Richland Centre to Lone Rock, on the Chicago, Milwaukee and St. Paul Railway, by the 25th of June.

☞ The preliminary survey from Pine Bluff to Lonoke, on the Memphis and Little Railroad, has been completed.

The Coal Trade.

The return of the anthracite coal trade from all the anthracite regions for the week ending the 20th instant foots up 396,827 tons, against 324,110 tons for the corresponding week last year, showing an increase of 72,717 tons. The total amount of anthracite mined for the year is 5,694,333 tons, against 4,691,953 for same period last year, an increase of 1,002,380 tons. The quantity of bituminous coal sent to market for the week was 78,701 tons, against 24,525 tons for corresponding week last year, an increase of 54,176 tons. The whole bituminous tonnage from the beginning of the coal year is 1,197,823 tons, against 1,088,109 tons in corresponding time last year, an increase of 109,714 tons. The total tonnage of all kinds of coal for the week is 475,528 tons, against 348,645 to corresponding date last year, an increase of 126,893 tons, and the total tonnage for the coal year is 6,892,156 tons, against 5,780,062 tons to same date last year, an increase of 1,112,094 tons. The quantity of coal and coke carried over the Pennsylvania Railroad the last week was 96,167 tons, of which 80,053 tons were coal and 16,114 tons coke. The total carried this year is 1,349,876 tons, of which 1,108,369 were coal and 241,583 coke. This total embraces all the coal carried over the road, east and west. At Port Richmond for the week ending on the 27th instant there were receipts of 61,000 tons of coal and shipments of 48,000 tons, leaving 188,500 tons on hand. We continue to quote freight charges to New York at 70 cents, Providence at $1 20@$1 25, and to Boston at $1 25@$1 30 per ton. At Perth Amboy for the week ending on the 20th instant the receipts of coal were 4950 tons and the shipments 12,475 tons, leaving 90,194 tons on hand. Freights to Boston, $1 05; New Haven, 65 cents; Hartford, $1; New York, 40 cents. The coal trade continues as dull as ever, though we hear of some little movement among the iron men. A few furnaces here and there have been put in operation, and some little increase in current orders is manifest in the market. The business in all departments of the trade, however, is very light.—*Phila. Ledger, May* 29.

☞ At the annual meeting of the Suncook Valley Railroad Co. held in Manchester, N. H., on the 25th ult. the following Board of Directors was elected: Samuel N. Bell, Manchester; Natt Head, Hookset; Frederick Smyth, Manchester; Lemuel B. Towle, Epsom; Charles H. Carpenter, Chichester; Reuben L. French, Pittsfield; Martin V. B. Edgerly, Manchester. Hon. S. N. Bell was elected President and Hon. L. W. Clark, Clerk. A resolution was adopted instructing the Directors to seek the enforcement of the contract with the Concord road with reference to the running of trains.

MACHINERY.

A NEW FOOT LATHE FOR SALE — WITH slide rest and screw cutting attachment; 3 feet bed, 10 inch swing; suitable for a mathematical instrument maker, optician or an amateur.
4t23 J. TOWNSEND, 182 Centre st.

ENGINE AND BOILERS FOR SALE CHEAP.—One 18×36, one 14×18, one 12×24, one 9×20 stationaries; and one 8×12 portable; all new; also a system of good second hand line Preparing and Spinning Machines, Rope and Bagging Machinery.
4t23 J. C. TODD, 10 Barclay st.

FOR SALE—A 40-HORSE ENGINE AND BOILER, in excellent condition; one 36 and one 30-inch Mill; three Burns' Patent Coffee Roasters; one large size double column platform scale; one large fire-proof safe, nearly new, with folding and inside doors. Apply at 160 Duane st. 1t23

FOR SALE—A VERTICAL ENGINE 20×18; Horizontal Engine 10×15; Portable Engine 8 Horse Power. R. W. WILDE, Agent of the Shapley Engine, 44 Cortlandt st., New York. 1t23

FOR SALE CHEAP—A FIVE-HORSE ENGINE and Boiler. Call at MILLER, KNIGHT & CO.'S, 67 Prince st. 1t23*

FOR SALE—25 HORSE ENGINE, FISHKILL Landing make; 20 horse boiler; good as new; also an Otis Elevator and Attachments, 5 foot platform. Can be seen at No. 2 Broadway, between 12 and 1 o'clock. 1t23*

FOR SALE—TWO STEAM HAMMERS AND Complete set of Forge Tools for manufacturing heavy forgings, car axles, &c. Address G. M. CLAPP, 206 Broadway, room 9. 4t22*

FINANCIAL.

ALEX. FROTHINGHAM & CO., BANKERS AND Brokers, No. 12 Wall st., make for customers desirable investments of large or small amounts in stocks of a legitimate character, which frequently pay from five to twenty times the amount invested every thirty days.
Reliable stock privileges negotiated at favorable rates. Stocks bought and carried as long as desired on deposit of three to five per cent. Circulars and weekly reports sent free. 4t23*

CAR WORKS FOR SALE.

THE works of the Ohio Falls Car and Locomotive Company will be sold, at public auction, at the Court-house door, in Charlestown, Clarke county, Ind., on SATURDAY, June 10, 1876, between the hours of 9 o'clock A. M. and 4 o'clock P. M. These are the largest and most complete car works in the country; are located adjacent to Jeffersonville, Ind., and are well adapted to other branches of manufacture. For printed circular containing full description of the property and terms of sale, which are extremely liberal, address JOS. W. SPRAGUE, Agent for Trustees, Jeffersonville, Ind. 4t20

ABSOLUTE SAFETY
AT
SEA!

LIFE SAVING SUITS
FOR
Ocean Travel.

The Continuous Disasters at Sea

and the almost countless lives that have been lost, urge the introduction of more effective appliances for saving life than have yet been generally adopted. In response to the great public demand, the American Life Saving Suit Company now presents a

Practical Life-Saving Suit.

This suit having been tested and approved by the most scientific and practical authorities, we now offer as a means of absolute safety from death by drowning. The invention now offered claims its superiority over all similar inventions, in that it floats the body in a vertical position in the roughest sea, preserves the natural caloric of the body for any number of days, with capacity for carrying provisions for ten days; and signals to attract attention from passing vessels.

This suit embodies three principles, which are imperative in a life-saving dress:

First—A buoyancy which supports the body in a vertical position, and maintains it as from a natural law.

Second—Protection from water and weather, and consequent chill.

Third—A commissariat department, to which is attached signals, with capacity for carrying valuables, etc., etc.

This suit is put on over ordinary clothing except shoes and hat, and can be put on inside of five minutes, and is let to passengers on transatlantic steamers at the low price of FIVE DOLLARS A TRIP.

"This life-dress is one of the most valuable inventions—perhaps *the most valuable*—to be found anywhere. It is an absolute preserver of life in the event of wreck or fire or any form of sea-accident, by which the vessel is destroyed. Had the *Schiller*, or any of the lost fleets of past years, been amply provided with these suits, no one life—except, perhaps, some infant's—need have been loss. Scarcely one of all the ships which in the past have sailed silently away and have never afterwards furled their sails and come to the shore again, would have gone down unstoried, with no survivor left to tell the dismal tale of collision, of ice-pack, of breakers, of hidden rock, of fire, or of destructive gale, had each and all borne these suits as a part of the outfit. With the history of the past strewn with wrecks of preciously freighted ships, who shall say that any device which robs shipwreck of its chief terrors, is not one of vast importance and priceless value?"

This Company also own THE BEST LIFE PRESERVER IN THE WORLD—*can be adjusted in one second.* It can be carried in the pocket. No person traveling either on the lakes, or river steamers, should be without one.

Call and see both the above, or send for pamphlet.

Karns City and Parker Railroad.

S. D. Karns, Esq., President of the Karns City and Parker Railroad, in a letter to John N. Purviance, Butler, Pa., dated May 22, 1876, says:

For the last two weeks our engineers have been hard at work, and by to morrow we expect to let the road between Karns City and Millerstown, and by Thursday five miles from Millerstown towards Butler. These are the two hardest pieces on the line and should be let first. No time will be lost consistent with business economy. We expect to bind the contractors to finish grading and tressling by July 15th, though there may be a cut that will take a week or two longer.

☞ The great Krupp gun, which was expected to arrive on the Centennial grounds on the 27th ult., will be placed in the German section in Machinery Hall. It weighs 70 tons, and the carriages and gun together weigh 150 tons. The gun arrived in the German steamer Essen, some weeks ago, and the delay occasioned in forwarding it was caused by the reception of an order from Mr. Krupp to have the gun photographed on the car.

☞ Col. I. S. Buckalew, the Superintendent of the Amboy Division of the Pennsylvania Railroad, has invented an improved meter which is carried in a car marks low joints, bad rails, and other inequalities or defects in railroad tracks.

TRIPLER RAILROAD CROSS TIE COMPANY,
235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, June 10, 1876.

Boston, Clinton, Fitchburg and New Bedford Railroad Company.

At a meeting of the new consolidated Boston, Clinton, Fitchburg and New Bedford Railroad Company, held in Boston on the 31st ult., S. H. Howe of Bolton was elected President; Lyman Nichols of Boston, Vice President; H. A. Blood of Fitchburg, Manager; S. A. Webber of Fitchburg, Superintendent; and Warren Ladd of New Bedford, Assistant Superintendent.

This line is one of the most important railroad lines in New England. At Fitchburg it connects with the Cheshire, Vermont and Massachusetts and Hoosac Tunnel; at Clinton, with Worcester and Nashua; at South Framingham, with Boston and Albany; at Medfield Junction, with Woonsocket Division; at Walpole, with New York and New England; at Mansfield, with Boston and Providence; at Taunton, with the Old Colony; at New Bedford, with Fall River Railroad, also with the daily line of propellors to New York, and the Nantucket and Martha's Vineyard Steamboat Company, which conveys passengers daily to that favorite resort, Oak Bluffs; and all points on the Vineyard and Nantucket.

This line also operates the Framingham and Lowell Railroad, connecting at West Concord with the Fitchburg Railroad; at Acton, with the Nashua, Acton and Boston Railroad; at Lowell with the Boston and Maine, Lowell and Nashua and Lowell and Lawrence Railroads.

The consolidated company has completed the past year tracks from their main line into the yards of the new State Prison for men at Concord, also the new State Prison for women at South Framingham, besides building a new track to the Lancaster Mills at Clinton, and laying steel rails as often as new ones are required.

Peterboro' and Hillsboro' Bridge Railroad.

A letter to the Boston Journal, dated Concord, N. H., June 6, 1876, says that arrangements have just been completed, which will secure the immediate construction of the Peterboro' and Hillsboro' Bridge Railroad, one of the most important rail way enterprises now under consideration in New England, and then adds:

Since the completion of the Monadnock Railroad from Winchendon to Peterboro', many efforts have been made to bring about the building of the Hillsboro' Bridge extension. The Northern Railroad of this State has persistently advocated the enterprise as one not only of great prospective value to New Hampshire interests, but as affecting most favorably the great tide of through travel from the south northward to the White Mountains and the Canadas. The feasibility of the route has exerted a most encouraging influence in the matter. The line, as most carefully surveyed, is only 18 miles in length, and most of the distance follows the level valley of the Contocook river, where the grades would be light and the bridge and masonry expense small. Since the lease of the Monadnock road to the Boston, Barre and Gardner Railroad the Hillsboro' extension enterprise has been gradually gaining influence and coming into shape. A few months ago the Boston and Albany joined hands with the Gardner and Northern roads, and since then no doubts have been entertained by those conversant with the matter of the early success of the scheme. After several meetings of the joint conference committee of the several roads the matter was referred to a smaller select committee and the result has been an agreement on the part of the Boston, Barre and Gardner Railroad, the Boston and Albany Railroad and the Northern Railroad of New Hampshire, by which these corporations agree to severally assume one-fourth of the expense of the Hillsboro' bridge extension, leaving the remaining one-fourth to be taken on the line of the road. The minutely estimated expenses of the line is $300,000, and there is not the slightest doubt but that $75,000, the remaining one-quarter, can be easily raised along the road. The document of agreement between the above mentioned corporations is now in the possession of Hon. Jonas Livingston, President of the Monadnock Railroad. The charter for the Hillsboro' Road has expired, but a new one will easily be obtained of the coming Legislature, and it is expected that ground will be broken in July and the road completed in a year. The Hillsboro' road will form the completing link in one of the most important trunk lines in the country, and over it will pass a great tide of travel to and from New York, the White Mountains and the Canadas.

Erie Railway.

The referee for the examination and approval of the accounts of Hugh J. Jewett, Receiver of the Erie Railway Company, has filed his report with the receiver's accompanying vouchers and accounts for the months of February and March last.

The account for the month of February shows a balance at its commencement in the hands of the Receiver amounting to $405,382 19; the entire receipts for transportation of freight, passengers telegraph and interest on securities realized on Receiver's certificates amounted to $1,889,466 48; during the same month the disbursements amounted to $1,964,890 80, to which is added other disbursements which accrued before the appointment of the Receiver, amounting to $52,-023 61, leaving a balance in the hands of the Receiver of $301,052 52.

The March account shows a balance carried forward from the previous month of $301,052 52. During the month there was received for transportation of freight, passengers, telegraph, train service, sale of old and surplus materials, &c, $1,670,451 78; realized from receiver's certificates and call loans, $260,000; disbursements during the same period amounted to $1,886,094 47, leaving, as he finds, a balance in the hands of the Receiver at the close of the month of March amounting to $380,307 96. He finds as a conclusion of facts covering the accounts of both months that the records, accounts and vouchers of the Receiver were accurately and systematically kept by the Receiver and his officers, agents and employes and have been fully and truthfully pre-

sented and rendered to him; that said accounting and reference, hearings for his examinations, adjustment and allowance are correct, and upon such conclusion of fact that he does adjust, allow and pass such accounts and vouchers of the Receiver.

Boston, Concord and Montreal Railroad.

The earnings of this road for the years ending March 31, 1875 and 1876, were as follows,

	1875.	1876.
From passengers	$264,862 07	$276,162 09
" freight	371,553 45	386,607 83
" mails	16,703 11	18,019 07
" express	9,000 00	9,000 00
" miscellaneous	2,075 75	3,565 98
	$664,194 38	$693,354 97
Expenditures, viz:		
Maintenance of way	$184,280 54	$170,236 57
" motive power	100,450 77	80,482 80
Cost of working road	203,177 01	227,630 04
" management	15,695 51	14,260 24
Miscellaneous	20,381 92	18,732 99
	$523,985 75	$511,342 64
Net income	$140,208 63	$182,012 33
Bonds and cash on hand per last report		141,956 58
Interest received during the year		27,734 16
In hands of Superintendent less than last year		14,540 12
Shop stock less than last year		3,218 50
For sales of consolidated mortgage bonds		245,100 00
Total		$614,556 69
Appropriated as follows:		
Paid coupons, back coupons, interest on over due bonds, etc		$148,154 51
Paid preferred stock dividends		45,249 00
Engineer's department, wood & stock on hand more than last year		31,432 47
Branch Railroad to Mount Washington		245,000 00
Paid sundry expenses		5,146 91
Cash and bonds on hand		139,573 80
Total, as above		$614,556 69

Compared with the previous year, the gross earnings show an increase of $29,160 59; with a decrease in expenses of $12,643 11—making an increase in net earnings of $41,803 70. The report says:

The road-bed, track, bridges, fences, stations, etc., have been kept in careful repair and are in as good condition as at any previous period.

During the past year 93,533 new sleepers have been laid at an expense of $23,079 59.

1,000 tons of new 56 lb. iron rails have been put into the main track in place of old rails removed and used, so far as practicable, upon the extension at and beyond Whitefield.

We have built a new bridge at Hall's Brook, with an iron roof, and one at East Haverhill, and have made extensive repairs on the bridge at Well's River, costing in all $6,000.

Our equipment has been increased by the purchase of one thirty-ton freight engine, one first class monitor top passenger car, and one new baggage car; one of our passenger cars has been changed to a drawing room car; we have rebuilt one passenger car with monitor top and Miller Platform, and rebuilt seventeen platform cars and one box car, all at a cost of over $30,000.

Extensive repairs have also been made on engines "Ammonoosuc," "Franconia," "Plymouth" "Moosilauk," "Northumberland," and "Tilton," and general repairs on all others. The entire equipment is in thorough condition, and now consists of 27 first class passenger and freight engines, 24 first class passenger cars, 2 drawing room cars, 14 mail and baggage cars, and 595 freight cars.

All the above expenditures, including the difference in value between the new rails laid and the old ones removed, and the depreciation of iron on hand, have been paid for, and are included in the current expenses of the year.

The semi-annual dividends upon the preferred stock, amounting to $48,000, have been paid and charged in the accounts.

The sinking fund holds $306,000 of its own bonds which cannot be reissued, so that our bonded debt is practically reduced that amount.

The lease of the South Eastern Railway and equipment to the Passumpsic Railroad, and the contract between the latter railroad and this corporation, by which the benefit and responsibilities of the lease were to be shared equally by the two corporations, conditionally, expired, by limitation, in March last. These contracts have not been attended with direct profit, but have resulted in an efficient and economical line to Montreal, which, in connection with other incidental advantages to both the Passumpsic and this corporation, promises, with the recurrence of business activity, favorable pecuniary results. While, therefore, the lease and contract have not been formally renewed, they have been practically continued in force, and the line and the business operation and connections of the roads forming it have been continued as heretofore. The directors see no reason to distrust the opinion expressed to the stockholders in their last report, of the important benefit which will ultimately result to this corporation from this through connection.

The best interests of the corporation seemed to the directors to require the extension of the branch from the Fabyan House to the base of Mount Washington, a distance of about seven miles, there connecting directly with the Mount Washington Railway extending to the summit. Accordingly, contracts for its construction were entered into last fall and the work was then commenced. It is expected that this extension will be completed and opened for public travel by the first of next July, at which time passengers by our line from Boston can reach the base of Mount Washington without change of cars, and thence, by direct transfer to the cars of the Mount Washington Railway, reach the summit, making the entire distance by steam power. Passengers will thus be enabled to take their breakfast at Boston and their supper on the summit of Mount Washington at the usual hours of the same day, and without fatigue or the annoyance of change.

The directors will be disappointed if the conveniences and facilities afforded by this extension do not attract a very considerable increase of business over our main line.

The corporation has entered into a contract for transporting poplar and birch wood, which grows in large quantities on the line of the extension. These woods are now extensively used in the manufacture of paper and shoe pegs, and we hope, by their transportation, to add considerably to our receipts.

The Portland and Ogdensburg Railroad was completed to Fabyan's in August last.

We have made a temporary arrangement for its accommodation, so that its trains are run over our road from that station by the way of the Wing Road to Dalton, there connecting with its line into Vermont. The Portland and Ogdensburg Road thus avoids the necessity of constructing its line over the intervening distance of about twenty two miles. This arrangement has operated thus far advantageously to both roads, and with proper care it can be continued to their mutual benefit and for the accommodation of the public. In order to make the connection with the Portland and Ogdensburg Road as convenient as possible, we have constructed a "Y" at the Wing Road at an expense of about $4,000.

The directors would repeat their conviction, as stated in their previous reports, that the best interests of the State, and particularly of the northern section, require the extension of our road to Colebrook, and they indulge the hope that at no distant day the means may be furnished by which the Boston, Concord and Montreal Railroad shall have that flourishing town for its northern terminus.

There has been considerable delay in sending in the stock in response to the circulars sent to the stockholders more than a year ago. Undoubtedly the very general business depression, as well as the uncertainty incident to it, has had its effect in causing this delay, as it has in preventing immediate action on our part towards consolidating the various interests.

The directors trust that the future of the corporation will soon warrant the issuing of the consolidated stock to the satisfaction and for the best interests of all concerned.

During the past year we have sold Consolidated Bonds to the amount of $245 100, the proceeds of which have been applied towards payment for the branch extension.

This corporation now owns the longest line of railroad in New Hampshire. It accommodates a much larger area of territory than any railroad in the State, and a country, for the development of which, railroad facilities are vitally essential. It has struggled on to its present condition through years of labor and difficulties and embarrassments. Its prospects for usefulness to the public were never fairer than they are to-day, and our hope is that its management will deserve and receive the confidence of the State and of those interested in the ownership of the property.

We have been fortunate in operating the Road so far as the safety of passengers is concerned, no passengers having been injured during the year.

The equipment of the road consists of 27 locomotives, 24 passenger cars, 2 drawing room cars, 14 mail and baggage cars, and 595 freight cars.

Miles run by passenger trains, 332,367; by freight trains, 267,244; by other trains, 61,596—total miles run, 661,207.

The total number of passengers carried during the year was 228,634—equal to 7,232,991 carried one mile. Total number of tons of freight, 117,831—equal to 7,069,858 tons carried one mile.

TRIAL BALANCE SHEET, March 31, 1876.

Construction		$2,850,000 00
Wood, oil, etc., on hand		57,140 48

President—JOHN E. LYON.

Directors.—John E. Lyon, Alexander H. Tilton, Joseph P. Pitman, Peter Butler, John L. Rix, John A. Parks, Joseph W. Lang.

Treasurer.—EDWARD D. HARLOW.

Superintendent.—JOSEPH A. DODGE.

Chesapeake and Ohio Canal.

At the annual meeting of the stockholders of this company held at Annapolis, Md., on the 5th inst., the following officers were elected for the ensuing year: President, A. P. Gorman; directors, D. S. Biser, of Frederick county; James G. Berret, of Washington city; Michael Bannon, of Anne Arundel county; B. B. Crawford, of Montgomery county; Henry Farnandis, of Harford county, and Patrick Hamill, of Garrett county.

From the report of the President, which was submitted, we learn that the receipts for the year from tolls were $457,466 24; from rents, interest, &c., $15,752 16—total, $473,218 40; being a decrease in revenue from 1874 of $44,193 82. The expenses of 1875 were $219,048 18; being a decrease as compared with 1874 of $8,161 45. The revenue over ordinary expenses was thus $254,175 12; which, with a balance of $93,236 12, made a balance of $347,411 34 to be accounted for. Of this balance $233,940 was paid on the preferred construction bonds; $37,326 86 for steam machinery and for operating the same; tolls refunded, $3,347 87; balance on hand, $72,796 61.

The earnings more than expenses in 1872 were $264,150 43; in 1873, $287,459 90; in 1874, $290,207 59; in 1875, $254,175 22.

The reduction of 28 cents on coal from Cumberland to Locust Point by the Baltimore and Ohio railroad is mentioned, and also the reduction of 11 3-5 by the canal, and the reduction on the part of the boatmen, which leaves a balance of 51 cents per ton on the transportation of coal in favor of the canal. This enabled the canal to increase its tonnage 112,774 tons, while the railroad fell off 180,896 tons. The gross reduction made on toll charges amounted on the canal in 1875 to $105,115 92.

The leasing of wharves by the company saved it last year $29,107 63. There was no delay in navigation during the whole year. The greatest number of tons shipped in any month was in June, 1875, when 135,736 tons passed over the line. The capacity of the canal is now more than equal to the wants of the trade.

The most gratifying feature of the trade, the president pronounces, is the navigation by steam on the canal, 6 steamers being engaged in it last year. Between March 29 and Dec. 13, the Patten made twenty-nine round trips, carrying during that time 2,882 11-20 tons of coal, or 99 1-20 each trip. The other steamers made from seven to sixteen trips. The president thinks that the claim of a twenty per cent. saving by using steam is well founded, and that its use, at a reasonable speed, does not injure the canal. As it will increase trade every encouragement is given to steam navigation.

From 1868 to 1871, 2,600,118 tons of coal were shipped over the canal; from 1872 to 1875, 3,354,098. From 1868 to 1871, the gross receipts were $1,529,161 64; from 1872 to 1875, $1,976,364 76. From 1868 to 1871, the expenses were $999,190 69; from 1872 to 1875, $968,950 05. From 1868 to 1871, the net revenue was $529,970 95; from 1872 to 1875, $1,047,654 71.

During the last four years $902,457 88 have been expended on repairs and preferred construction bonds. Extensive repairs were made on the canal last winter. By a further reduction made by the railroad the canal had to reduce its wharfage and tonnage together 51 cents on coal from Cumberland to Georgetown, the lowest rates ever charged. The president calls attention to and urges the extension of the canal to Piedmont, and refers to charges made by "the partizan press against the management of the canal, the Senate's investigation of them and the exoneration of the present management in every particular."

The usual committee to examine the report was appointed and the board adjourned to meet in September.

Steam Fire Engines.

The Hand-Book of Modern Steam Fire Engines, by Stephen Roper, Engineer.—Claxton, Remsen & Haffelfinger, Philadelphia, 1876.

This is another of the practical treatises which this author seems to be particularly successful in producing. It is in much the same style as his "Catechism of High Pressure Engines," "Hand-Book of the Locomotive," and "Hand-Book of Land and Marine Engines," by the same publishers, which have each been sufficiently long before the public to be appreciated. Mr. Roper adds to a long practical experience in high pressure steam engineering, a happy capacity to combine scientific accuracy with a popular style, avoiding alike the abstruse formulæ and generalizations, which justly frighten the non-classically educated and hard-handed men, to whose care these immensely important machines are usually entrusted, and the puerile attempt at playfulness and wit, which mar some of the best of the late British treatises on steam engineering. That matter of the higher mathematics, by the way, did it never occur to authors of this class of works, that the men they are writing to, have strenuously been schooled by others, and have schooled themselves, to never leave a point until they understand it, and as a corrolary to never undertake a job which they cannot thus dispose of; the application of which doctrine would obviously necessitate their rejection of a book, on the discovery—in turning over the leaves in a book store, or in the presence of a book agent—of the first glimpse of a quadratic equation. The work is liberally illustrated. A portion is devoted to general principles of hydraulics and hydraulic machines, and to the properties of water, heat and steam and the nature of combustion, all of which, men having charge of steam fire engines should be conversant with; and the principles involved in their employment are the same in all steam power apparatus, though the machinery of the steam fire engine is in several respects peculiar. Rules and formulæ are given for estimating the power of steam fire engines, and instructions for their care and management. Although steam fire engines are more complicated than ordinary stationary, or even locomotive steam engines, they are quite analogous in many respects, and require similar treatment.

The work contains an elaborate description of Modern Steam Fire Engines and Steam Fire Pumps, with a vocabulary of technical terms, as applied to the different parts of the same. The plain and practical manner in which the illustrations are explained, constitute an instructive feature of the work. It claims and we think justly, to be the first and only practical work ever published in this country on the steam fire engine. It ought to be in the hands of all having charge of steam fire engines.

We observe notices of most of the approved varieties of steam fire engines, including Ahrens, Clapp and Jones, the Silsby, the Amoskeag, the Button, the Gould, Jeffer's, Neafie and Levy's, with some notices of propelling steam fire engines, and with full discussions of pumps including Knowles', Earle's, Condes', Holly's, the Atlas, Wright's, Blake's, tables of proportions of steam fire pumps, Bucket-plunger pumps, boiler feed pumps, marine pumps, wrecking pumps, mining pumps, brewers' and distillers' pumps and even air pumps. There is also some space given to the hydraulic ram, and the peculiarly simple and efficient water-forcing instrument which has been christened by the inventor—Charles H. Hall—with the somewhat obscure name of "Pulsometer." The "Latta" steam boiler, and "Clapp and Jones'" vertical circulating boiler, justly come in for a liberal share of illustration and description.

Without spending much space on the dead past, perhaps hardly sufficient to do the subject justice, the book attempts a little history of the inventions and improvement of the steam engine, beginning with Heron of Alexandria, who got up, or first described a re-action engine, which was anciently used to a considerable extent in Egypt in idol worship under the name of Eolipile, down through Blasco de Garay, a Spaniard, who in 1543 built a boat of 200 tons, which, we are told in history, used steam as the motive power, without any description of the mechanism, through Newcomer of England, who in 1710 began to make engines which would pump usefully, but with little degree of economy. The author gives to James Watt of England just credit for being the inventor of the practically economical steam engine. An inventor, artist, or savan is fortunate who is born in England. He is certain that his merits will be appreciated and proclaimed not only in England, but wherever the English language is spoken. American newspaper and book makers are too willing to ignore the merits of Americans, and to copy blindly the praises of English inventors from English books. This treatise, so far as we can see, does exact justice to the Englishmen, while it gives also just credit to John Fitch of Connecticut, and his works in 1787; to Oliver Evans of Philadelphia, and his work in 1798, the inventor of high pressure steam engineering; to Robert Fulton, and his work in New York in 1807, who first practically succeeded in steam navigation; to R. L. Stevens of Hoboken, who invented the poppet valve in 1832; to Aiken of Columbus, Pa., who in 1846 invented piston packing, and Geo. H. Corliss, who in 1848, invented the first automatic regulation, by varying the cut off, that was worthy of the name. He justly gives credit to Hornblower of England in 1781, for the discovery of the expansive properties of steam, but claims for the American, Robert L. Stevens, the honor of first practically working it expansively, which he accomplished by means of his cut-off valve patented in 1813.

Transcontinental Fast Train.

The fast train which left New York on the 1st inst. at 1 A. M., reached Oakland Wharf, within the limits of San Francisco, on the 4th inst. at 25 minutes past 9 A. M., having made the trip in 83 hours and 34 minutes. The time from Ogden to San Francisco was 23 hours and 52 minutes. The actual average running time from Ogden to Oakland wharf was 41½ miles per hour. The passengers were in good health and spirits. Engine No. 29 took the train through from Ogden, with the assistance of an additional engine in crossing the Sierras. Considerable trouble was experienced on the Central Pacific Railroad from the wearing out of the brake shoes on the Pennsylvania cars, and in the mountains the Central Pacific Company put on two of their own coaches to "brake the train." There was no accident of any kind

throughout the trip. Shortly after arrival breakfast was served, to which prominent citizens, army and navy officers, representatives of the press and theatrical profession, railroad officials and the mayor of the city were invited. A salute of thirteen guns was fired from the roof of the Palace Hotel on the arrival of the train at the wharf. The remainder of the day was devoted to needed rest. The excursionists were serenaded in the evening.

Pittsburgh, Cincinnati and St. Louis Railway.

The report of this company, for the year ending December 31, 1875, is an interesting document, embracing, as it does, the reports of four other roads operated by it, which form a part of the Pennsylvania Company's system.

The report shows the following result of operations:

Gross earnings:	
From freight	$2,317,644
From passengers	755,191
From express	64,979
From mails	35,400
From rents	1,834
From miscellaneous	919
Total	$3,175,970
Gross earnings for 1874	3,573,316
Decrease	$397,346
Expenses:	
For conducting transportation	$841,771
For motive power	626,686
For maintenance of road	667,606
For maintenance of cars	213,866
General expenses (including taxes)	92,077
Total expenses (76.8 per cent. of earnings)	$2,442,008
Expenses for 1874	2,576,534
Decrease	$134,526
Net earnings, 1875	$733,962
Add amount received for interest on investments	9,278
Total net revenue for 1875	$743,240
Net earnings, 1874	$891,297
Decrease	$148,056
Deduct—	
Interest on first mortgage bonds, &c.	$669,790
Excess (after paying interest on first mortgage)	$73,450
Rent on Monongahela Extension	$14,357
Interest paid on floating debt	117,720
	132,078
Deficit in 1875, after paying rent and interest	$58,627

Under the arrangement made with the holders, your second mortgage bonds are not a charge upon the revenues of your company, unless a surplus is shown sufficient to pay the interest thereon. The issue of the $10,000,000 of income bonds authorized at your last meeting has, however, been delayed by a question as to the power of the company under existing legislation to create such a security.

There were carried over your road, during the year, 1,536,261 tons of freight, as against 1,471,207 tons in 1874; being an increase of 65,054 tons, or 4.42 per cent.

The average rate received per ton per mile in 1875 was 1.12 cents as against 1.3 cents in 1874. The passenger travel also increased over your road during the year, but the rate per mile shows a reduction, being 2.56 cents as against 2.84 in 1874.

The aggregate results from the other roads operated by your company, including the Little Miami, Chartiers Valley, Cincinnati and Muskingum Valley railroads, and the Columbus, Chicago and Indiana Central Railway, which has been worked since January 1st, 1875, subject to the order of the United States Circuit Court, were as follows:

Gross earnings	$5,330,696
Income from securities	109,444
Gross revenue	$5,440,140
Expenses	4,409,910
Net earnings	$1,030,230
Amount payable for rental and interest	1,409,116
Deficit for 1875	$378,886

To this deficit is also to be added $37,064, expenses Columbus, Chicago and Indiana Central Railway, incurred prior to January 1st, 1875, but not settled till after that date.

The St. Louis, Vandalia and Terre Haute Railroad, in which your company and the Columbus, Chicago and Indiana Central Railway Company are interested, together with the Terre Haute and Indianapolis Railroad Company, its lessee, shows a deficit for the year, which has been charged, however, by the lessee against past profits accrued from the operations of the road.

No change has occurred, since the last annual report, in the relations of your company with the Columbus, Chicago and Indiana Central Railway Company. The legal proceedings instituted for the protection of your interests are still pending; but it is believed, and we are so advised, that by reason of the failure of Columbus, Chicago and Indiana Central Railway Company to perform its covenants under the lease, the lease itself has been practically terminated by their action. It is hoped that the litigation referred to may be terminated during the present year, and that thereupon a fair and equitable adjustment may be arrived at for all interests.

Several committees, representing the bondholders of that company, have had interviews with the officers of your company during the past year, having in view the perfecting of a basis for such a financial reorganization of that company, that the interest on its funded indebtedness might bear a nearer relation to the present earning ability of the road; but no definite conclusion has been reached.

LIABILITIES.

Capital stock		$8,437,300
Funded debt		15,008,060
Deferred liabilities:		
Cincinnati street connection railway bonds	$262,500	
Due Columbus, Chicago and Indiana Central Railway Co., for value of supplies received at date of lease	184,601	
Due Little Miami R. R. Co., for value of supplies received	267,554	
Due Little Miami R. R. Co., for value of assets, Columbus and Xenia Railroad	681,288	
Due Cincinnati and Muskingum Valley Railway Co., for value of supplies	13,690	
		1,409,633
Current liabilities:		
Bills payable	$2,639,311	
Accounts payable for current expenditures	681,241	
Due other companies	939,636	
Coupons matured—not presented	152,865	
Miscellaneous liabilities	52,828	
		4,465,881
Total		$29,320,876

ASSETS.

Cost of Pittsburgh, Cincinnati and St. Louis Railway		$19,827,450
Deferred assets:		
Additions to Cincinnati street connections railway	$64,639	
Supplies	350,827	
		415,466
Due for betterments to leased roads:		
By Little Miami Railroad Co.	$222,837	
By Columbus, Chicago and Indiana Cent. Railway Co.	637,453	
By St. Louis, Vandalia and Terre Haute Railroad Co.	74,450	
By Cincinnati and Muskingum Valley Railway Co.	5,953	
		940,694
Current assets:		
Cash in hands of treasurer	$203,465	
Cash in hands of paymasters	3,338	
Cash remitted by agents, and *in transitu*	166,664	
Due by station agents and conductors	159,672	
Due by other companies	1,184,255	
Due on miscellaneous accounts	478,820	
		2,146,217
Securities		734,554
Excess of liabilities over assets, as shown by the company's books, December 31st, 1875		5,256,393
Total		$29,320,876

This deficiency is composed as follows:

Loss in operating the Pittsburgh, Cincinnati and St. Louis Railway during the year	$131,691
Loss in operating the Little Miami Railroad during the year	378,886
Total loss for 1875	$510,577
Add loss in operating Pittsburgh, Cincinnati and St. Louis Railway and leased lines prior to 1875, viz:	
Pittsburgh, Cincinnati and St. Louis Railway	$670,096
Little Miami Railroad	1,538,827
Columbus, Chicago and Indiana Central Railway	2,536,891
	4,745,815
Total deficiency, as above stated	$5,256,393

CHARTIERS RAILWAY.

Earnings:	1875.	1874.
From freights	$22,227 89	$20,831 26
" express	3,130 00	3,090 00
" passengers	45,149 09	45,652 25
" mails	1,482 00	1,589 00
" miscellaneous	40 00	43 56
Total	$72,028 98	$71,156 07
Total expenses	37,301 08	52,504 97

The gain in freight earnings is due to the increase in tonnage moved; 79,072 more tons were carried one mile than in 1874, while the rate received per ton per mile is reduced 0.94 cent.

CINCINNATI AND MUSKINGHUM VALLEY RAILWAY.

Earnings:	1875.	1874.
From freights	$257,780 73	$292,650 21
" express	4,343 55	5,656 03
" passengers	121,844 33	119,125 89
" mails	11,205 00	11,205 00
" rents	727 80	745 00
" miscellaneous	325 82	446 61
Total	$396,227 23	$429,828 74
Total expenses	360,482 60	433,428 85

This shows the amount of net earnings to be $35,744 63, which is an increase of $39,344 74 over last year (there having been a deficit of net earnings in 1875 of $3,600 11).

There was an increase in the quantity of freight

and passengers moved, but a reduction of the rates, which caused the loss in gross earnings.

LITTLE MIAMI RAILROAD.

Earnings:	1875.	1874.
From freights	$616,522 53	$690,542 39
" express	48,218 21	57,797 78
" passengers	504,469 59	524,207 09
" mails	30,620 88	24,942 63
" rents	26,386 29	24,423 89
" miscellaneous	16,569 24	16,698 67
Total	$1,242,786 74	$1,338,612 45
Total expenses	998,914 95	1,072,186 63

This shows a decrease in gross earnings of $95,825 71. There was a decrease in ton mileage and also a reduction of 0.18 cent in the rate. The passenger rate was also decreased 0.17 cent, but the passenger mileage was increased 3.3 per cent. The reduction in the expenses amounted to $73,271 68.

The condition of this road and its equipment is much improved.

COLUMBUS, CHICAGO AND INDIANA CENTRAL.

Earnings:	1875.	1874.
From freight	$2,522,592 50	$2,691,989 98
